SUPPLEMENTARY INFORMATION:

I. Background

Title XII Section 1201 of the SSA provides for advances to States from the Federal Unemployment Account. The law further sets out specific requirements to be met by a State requesting an advance:

- The Governor must apply for the advance;
- The application must cover a three month period and the Secretary of Labor must be furnished with estimates of the

amounts needed in each month of the three month period;

- The application must be made on such forms and shall contain such information and data (fiscal and otherwise) concerning the operation and administration of the State unemployment compensation law as the Secretary of Labor deems necessary or relevant to the performance of his or her duties under this title;

- The amount required by any State for the payment of compensation in any month shall be determined with due allowance for contingencies and taking into account all other amounts that will be available in the State's unemployment fund for the payment of compensation in such month;

- The term “compensation” means cash benefits payable to individuals with respect to their unemployment exclusive of expenses of administration.

Section 1202(a) of the SSA provides that the Governor of any State may at any time request that funds be transferred from the account of such State to the FUA in repayment of part or all of the balance of advances made to such State under section 1201. These applications and repayments may be requested by an individual designated for that authority in writing by the Governor. DOL proposes to extend this procedure through August 2012.

SUPPLEMENTARY INFORMATION:

Comments: On January 9, 2009, we published in the **Federal Register** (74 FR 964) a 60-day notice of our intent to request renewal of this information collection authority from OMB. In that notice, we solicited public comments for 60 days ending March 10, 2009. Three comments were received from the public notice. The first comment came from B. Sachau of Floram Park, NJ, via e-mail on January 9, 2005. Ms. Sachau objected to the information collection.

Ms. Sachau had no specific suggestions for altering the data collection plans other than to discontinue them entirely. Because the comment does not pertain to the collection of information on the required forms for which NSF is seeking OMB approval, NSF is proceeding with the clearance request.

The second comment (more of a request) came from Jerry Stone with the Bureau of Economic Analysis (BEA). He requested a copy of the current survey form and instructions, which were provided to him.

The third comment came from Dr. Dennis Fixler, the Chief Statistician of BEA, who submitted a letter of support for the survey (included with the information collection request materials found at the Web site above). This letter stated that the collected survey data are crucial to key components of BEA's economic statistics and requested some additional data elements be collected in future years. Some of these elements are planned to be collected on the redesigned survey instrument, which will be pilot tested with 40 institutions during the FY 2009 survey. The letter also requested that BEA be kept informed about modifications to the survey instrument.

Use of the Information: The proposed project will continue the annual survey cycle for up to three years. The Academic R&D Survey will be a census of the full population—for FY 2009 an expected 751 institutions (713 universities or colleges plus 38 federally
