

**NATIONAL CREDIT UNION  
ADMINISTRATION****Sunshine Act; Notice of Agency  
Meeting**

**TIME AND DATE:** 10 a.m., Thursday, June 18, 2009.

**PLACE:** Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, VA 22314-3428.

**STATUS:** Open.

**Matters To Be Considered**

1. Interim Final Rule—Section 701.21(f) of NCUA's Rules and Regulations, Exception to the Maturity Limit on Second Mortgages.

2. Final Rule—Section 701.26 of NCUA's Rules and Regulations, Operating Fees.

3. Temporary Corporate Credit Union Stabilization Fund.

4. Insurance Fund Report.

**RECESS:** 11 a.m.

**TIME AND DATE:** 11:15 a.m., Thursday, June 18, 2009.

**PLACE:** Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, VA 22314-3428.

**STATUS:** Closed.

**Matters To Be Considered**

1. Insurance Appeal. Closed pursuant to Exemption (6).

2. Consideration of Supervisory Activities (3). Closed pursuant to Exemptions (8) and (9)(A)(ii) and 9(B).

3. Personnel. Closed pursuant to Exemptions (2) and (6).

**FOR FURTHER INFORMATION CONTACT:** Mary Rupp, Secretary of the Board, Telephone: 703-518-6304.

**Mary Rupp,**

*Board Secretary.*

**NUCLEAR REGULATORY  
COMMISSION****Seeks Qualified Candidates for the  
Advisory Committee on Reactor  
Safeguards**

**AGENCY:** U.S. Nuclear Regulatory Commission.

**ACTION:** Request for résumés.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) seeks qualified candidates for the Advisory Committee on Reactor Safeguards (ACRS). Submit résumés to Ms. Janet Riner, Executive Secretary, ACRS, Mail Stop T2E-26, U.S. Nuclear Regulatory Commission,

Washington, DC 20555-0001, or e-mail [JML1@NRC.GOV](mailto:JML1@NRC.GOV).

**SUPPLEMENTARY INFORMATION:** The ACRS is a part-time advisory group, which is statutorily mandated by the Atomic Energy Act of 1954, as amended. ACRS provides independent expert advice on matters related to the safety of existing and proposed nuclear power plants and on the adequacy of proposed reactor safety standards. Of primary importance are the safety issues associated with the operation of 104 commercial nuclear power plants in the United States and regulatory initiatives, including risk-informed and performance-based regulations, license renewal, power uprates, and the use of mixed oxide and high burnup fuels. An increased emphasis is being given to safety issues associated with new reactor designs and technologies, including passive system reliability and thermal hydraulic phenomena, use of digital instrumentation and control, international codes and standards used in multinational design certifications, material and structural engineering, nuclear analysis and reactor core performance, and nuclear materials and radiation protection. In addition, the ACRS may be requested to provide advice on radiation protection, radioactive waste management and earth sciences in the agency's licensing reviews for fuel fabrication and enrichment facilities, waste disposal facilities, and facilities related to the Department of Energy's nuclear energy initiatives.

The ACRS also has some involvement in security matters related to the integration of safety and security of commercial reactors. See the NRC Web site at <http://www.nrc.gov/aboutnrc/regulatory/advisory/acrs.html> for additional information about ACRS. Criteria used to evaluate candidates include education and experience, demonstrated skills in nuclear reactor safety matters, the ability to solve complex technical problems, and the ability to work collegially on a board, panel, or committee. The Commission, in selecting its Committee members, considers the need for a specific expertise to accomplish the work expected to be before the ACRS. ACRS Committee members are appointed for four-year terms and normally serve no more than three terms. The Commission looks to fill one vacancy as a result of this request. For this position, a candidate must have at least 10 years of broad experience in the area of nuclear engineering coupled with operational exposure to issues relative to new reactor designs such as digital

instrumentation and control, civil/structural engineering, or radiation protection.

Candidates with pertinent graduate level experience will be given additional consideration. Consistent with the requirements of the Federal Advisory Committee Act, the Commission seeks candidates with diverse backgrounds, so that the membership on the Committee is fairly balanced in terms of the points of view represented and functions to be performed by the Committee. Candidates will undergo a thorough security background check to obtain the security clearance that is mandatory for all ACRS members. The security background check will involve the completion and submission of paperwork to NRC. Candidates for ACRS appointments may be involved in or have financial interests related to NRC-regulated aspects of the nuclear industry. However, because conflict-of-interest considerations may restrict the participation of a candidate in ACRS activities, the degree and nature of any such restriction on an individual's activities as a member will be considered in the selection process. Each qualified candidate's financial interests must be reconciled with applicable Federal and NRC rules and regulations prior to final appointment. This might require divestiture of securities or discontinuance of certain contracts or grants. Information regarding these restrictions will be provided upon request. A résumé describing the educational and professional background of the candidate, including any special accomplishments, publications, and professional references should be provided. Candidates should provide their current address, telephone number, and e-mail address. All candidates will receive careful consideration. Appointment will be made without regard to factors such as race, color, religion, national origin, sex, age, or disabilities. Candidates must be citizens of the United States and be able to devote approximately 100 days per year to Committee business. Résumés will be accepted until September 30, 2009.

Dated at Rockville, MD, this 9th day of June 2009.

For the U.S. Nuclear Regulatory Commission.

**Andrew L. Bates,**

*Advisory Committee Management Officer.*
