DEPARTMENT OF THE INTERIOR**National Park Service****Policy on Special Park Uses, Draft Directors Order 53**

AGENCY: National Park Service, Interior.

ACTION: Notice of Availability and Request for Comments.

SUMMARY: The National Park Service (NPS) is requesting comments on its revision of its policy governing the issuance of permits for special park uses. This policy will apply to all units of the national park system, and will replace the previous policy which was issued in April 2000.

DATES: Comments must be received by July 22, 2009.

ADDRESSES: The Draft Director's Order 53 is available on the internet at <http://www.nps.gov/policy/DO-53draft.htm>. Requests for printed copies and written comments should be sent to Lee Dickinson, NPS Special Park Program

Manager, 1849 C Street, NW. (2460), Washington, DC 20240 or to the internet address: lee_dickinson@nps.gov. Please include "Comments on Director's Order 53" in the e-mail subject line.

FOR FURTHER INFORMATION CONTACT: Lee Dickinson at (202) 513-7092.

SUPPLEMENTARY INFORMATION: Director's Order 53 (DO-53) is a policy intended to govern the internal management of the NPS. It will cover topic associated with the special park uses program such as legal authorities for permit issuance, permitting considerations, permit provisions, and the various categories of special park uses. Categories of use will include, but be limited to special events, first amendment demonstrations, commercial filming and still photography, agriculture, and grazing. This new revision of Director's Order 53 will replace the existing one, which was published in April 2000. The reference manual (RM-53) will be revised to outline procedures for implementation of the new version of DO-53.

Commenters should be aware that we may make their entire comment—including personal identifying information—publicly available at any time. While you can ask us to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We will always make submissions from organizations or businesses and from individuals identifying themselves as representatives or officials of organizations or businesses available in their entirety.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)).

This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are

clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

OSHA published the final rule governing occupational exposure to hexavalent chromium on February 28, 2006. The information collection requirements specified in the Chromium (VI) standard protect employees from the adverse health effects that may result from occupational exposure to hexavalent chromium. The major information collection requirements in the Standard include conducting employee exposure monitoring, notifying employees of their chromium (VI) exposures, implementing medical surveillance of employees, providing examining physicians with specific information, implementing a respiratory protection program, demarcating regulated areas, implementing employee information and training programs, notifying laundry personnel of chromium (VI) hazards, and maintaining employees' exposure monitoring and medical surveillance records for specific periods.

A number of parties subsequently challenged several provisions of the final CR(VI) standards in the United States Court of Appeals for the Third Circuit (*see Public Citizen and Edison Electric Institute v. U.S. Department of Labor*, XX F.3d XXXX (3d Cir. 2009)). In its decision, the court found that OSHA failed to explain why the Cr(VI) standards require employee notification only of chromium exposures exceeding the permissible exposure limit, noting that prior health standards required notification of all exposure monitoring results. The court remanded the standards, and ordered OSHA to provide an explanation for not including notification of all exposure monitoring results, or to revise the standards appropriately. OSHA currently is considering how to respond to the court's remand order.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the
