

POLICY JUSTIFICATION

Morocco – Gulfstream G-550 Aircraft

The Government of Morocco has requested a possible sale of one Gulfstream G-550 aircraft, 1 spare BR700-710C4-11 GmbH Engine, aircraft ferry services, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, contractor technical and logistics personnel services, and other related elements of logistics support. The estimated cost is \$142 million.

This sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in North Africa.

The Royal Moroccan Air Force (RMAF) will use this new aircraft to provide safe, secure, and dedicated air transport for its Head of State. Morocco will have no difficulty absorbing this aircraft into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Gulfstream Aerospace in Savannah, GA, Honeywell Aerospace in Phoenix, AZ, and Flight Safety International in New York, NY. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Morocco involving ten U.S. Government and contractor representatives for technical reviews/support, program management, and training over a five-year period.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Dated: May 27, 2009.

Patricia L. Toppings,
OSD Federal Register Liaison Officer,
Department of Defense.

BILLING CODE 5001-06-C

DEPARTMENT OF DEFENSE

Office of the Secretary

Revised Non-Foreign Overseas Per Diem Rates

AGENCY: DoD, Per Diem, Travel and Transportation Allowance Committee.

ACTION: Notice of Revised Non-Foreign Overseas Per Diem Rates.

SUMMARY: The Per Diem, Travel and Transportation Allowance Committee is publishing Civilian Personnel Per Diem Bulletin Number 264. This bulletin lists revisions in the per diem rates prescribed for U.S. Government employees for official travel in Alaska, Hawaii, Puerto Rico, the Northern Mariana Islands and Possessions of the United States. AEA changes announced in Bulletin Number 194 remain in effect. Bulletin Number 264 is being published in the **Federal Register** to assure that travelers are paid per diem at the most current rates.

DATES: *Effective Date:* July 1, 2009.

SUPPLEMENTARY INFORMATION: This document gives notice of revisions in per diem rates prescribed by the Per

Diem Travel and Transportation Allowance Committee for non-foreign areas outside the continental United States. It supersedes Civilian Personnel Per Diem Bulletin Number 263. Distribution of Civilian Personnel Per Diem Bulletins by mail was discontinued. Per Diem Bulletins published periodically in the **Federal Register** now constitute the only notification of revisions in per diem rates to agencies and establishments outside the Department of Defense. For more information or questions about per diem rates, please contact your local travel office. The text of the Bulletin follows:

BILLING CODE 5001-06-C

DEPARTMENT OF ENERGY

[OE Docket No. EA-249-B]

Application To Export Electric Energy; Exelon Generation Company, LLC

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of Application.

SUMMARY: Exelon Generation Company, LLC (Exelon) has applied to renew its authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or requests to intervene must be submitted on or before July 27, 2009.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350 (FAX 202-586-8008).

FOR FURTHER INFORMATION CONTACT: Ellen Russell (Program Office) 202-586-9624 or Michael Skinker (Program Attorney) 202-586-2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On October 15, 2001, the Department of Energy (DOE) issued Order No. EA-249 authorizing Exelon to transmit electric energy from the United States to Canada as a power marketer using certain international transmission facilities located at the United States border with Canada. On April 5, 2004, DOE issued Order No. EA-249-A which renewed that authorization for a five-year period. That Order expired on April 5, 2009. On June 8, 2009, Exelon filed an application with DOE to renew the export authority contained in Order No. EA-249-A for an additional five-year term.

Exelon is a power marketer that generates and sells electricity under its Federal Energy Regulatory Commission approved tariffs; Exelon does not have a franchised electric power service area. The electric energy which Exelon

proposes to export to Canada would be surplus energy from its own generation or purchased from third parties. Exelon proposes to export the electric energy using transmission lines authorized by Presidential permit at the U.S. border with Canada determined by DOE to be appropriate for third party use and available for open access transmission.

Procedural Matters: Any person desiring to become a party to these proceedings or to be heard by filing comments or protests to this application should file a petition to intervene, comment, or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the Federal Energy Regulatory Commission's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the date listed above.

Comments on the Exelon application to export electric energy to Canada should be clearly marked with Docket No. EA-249-B. Additional copies are to be filed directly with Noel H. Tarsk, Lead Counsel, Exelon Power team, Exelon Generation Company, LLC, 300 Exelon Way, Kennett Square, PA 19348. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at http://www.oe.energy.gov/permits_pending.htm, or by e-mailing Odessa Hopkins at Odessa.Hopkins@hq.doe.gov.

Issued in Washington, DC, on June 19, 2009.

Anthony J. Como,

Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[OE Docket No. EA-358]

Application To Export Electric Energy; Twin Cities Energy, L.L.C.

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of Application.

SUMMARY: Twin Cities Energy, L.L.C. (Twin Cities) has applied for authority

to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or requests to intervene must be submitted on or before July 27, 2009.

ADDRESSES: Comments, protests, or requests to intervene should be addressed as follows: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350 (FAX 202-586-8008).

FOR FURTHER INFORMATION CONTACT: Ellen Russell (Program Office) 202-586-9624 or Michael Skinker (Program Attorney) 202-586-2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the FPA (16 U.S.C. 824a(e)).

On May 26, 2009, DOE received an application from Twin Cities for authority to transmit electric energy from the United States to Canada as a power marketer using international transmission facilities located at the United States border with Canada. Twin Cities does not own any electric transmission facilities nor does it hold a franchised service area. The electric energy which Twin Cities proposes to export to Canada would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States. Twin Cities has requested an electricity export authorization with a 5-year term.

The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by Twin Cities has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Procedural Matters: Any person desiring to become a party to these proceedings or to be heard by filing comments or protests to this application should file a petition to intervene, comment, or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the Federal Energy Regulatory Commission's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the date listed above.

Comments on the Twin Cities application to export electric energy to Canada should be clearly marked with
