The 2009 Census of Horticultural Specialties will use as a sampling universe; every respondent on the 2007 Census of Agriculture who reported production and sales of \$10,000 or more of horticultural specialty crops, and is still in business in 2009. In addition, NASS also plans to contact all new operations that have begun producing horticultural specialty products since the completion of the 2007 Census of Agriculture. The primary objectives of the National Agricultural Statistics Service are to prepare and issue State and national estimates of crop production, livestock production, economic statistics, and environmental statistics related to

agriculture and to conduct the Census of Agriculture and its follow on surveys.

These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. Forest Service

Norbeck Wildlife Project; Hell Canyon Ranger District; Black Hills National Forest Custer, SD

AGENCY: Forest Service, USDA.

ACTION: Revised notice of intent to prepare an Environmental Impact Statement (EIS).

SUMMARY: The Hell Canyon Ranger District of the Black Hills National Forest (BHNF) is preparing an Environmental Impact Statement (EIS) for a proposal to implement multiple

resource management actions within the Norbeck Wildlife Preserve (Norbeck) project area as directed by the Norbeck Organic Act and the Black Hills National Forest Land and Resource Management Plan. Since the original NOI was published, the proposed action has been modified to no longer include prescribed burning within the Black Elk Wilderness, and two additional action alternatives have been developed. The No Action alternative, which is also being considered, would not authorize habitat improvements of any type within the project area. This revised Notice of Intent is being issued to provide updated information on this project, including the proposal, timing, and contact information.

DATES: The original NOI for the Norbeck project was published July 31, 2007 (72 FR 41703). The dates of expected availability of environmental documents have changed since that Notice. The draft environmental impact statement is now expected to be available in September 2009 and the final environmental impact statement is expected to be completed by December 2009.

FOR FURTHER INFORMATION CONTACT:

Kelly Honors, Project Leader, Black Hills National Forest, Hell Canyon Ranger District, 330 Mount Rushmore Road, Custer, South Dakota 57730 or by phone at (605) 673–4853.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

The purpose for action in the Norbeck project area has not changed, and is to benefit “game animals and birds” by improving habitat conditions within the Norbeck Wildlife Preserve, and to reduce the risks and consequences of a wildfire escaping from the wilderness. The EIS will describe current conditions and analyze environmental consequences of proposed actions. This information will assist the decision-maker in selecting management and monitoring strategies to meet desired conditions, such as the goals and objectives outlined for Management Area 5.4A, Norbeck Wildlife Preserve, Management Area 4.2B, Peter Norbeck Scenic Byway and Management Area 1.1A, Black Elk Wilderness.

The Forest Service seeks to provide high quality habitat for “game animals and birds” in accordance with the Norbeck Organic Act of June 5, 1920 and the Black Hills National Forest (BHNF) Land and Resource Management Plan (LRMP). A Focus Species List was prepared through coordination between USDA Forest Service personnel and South Dakota
