BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Bonneville Power Administration

Mid-Columbia Coho Restoration Project

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of intent to prepare an Environmental Impact Statement (EIS) and notice of floodplain and wetlands involvement.

SUMMARY: This notice announces BPA's intention to prepare an EIS on funding the Confederated Tribes and Bands of the Yakama Nation (YN) to undertake the reintroduction of coho salmon into mid-Columbia River basin tributaries. The reintroduction would occur in the Methow and Wenatchee river basins in Chelan and Okanogan counties, Washington. The proposed reintroduction project would use both existing hatchery facilities as well as require construction of some new permanent and temporary facilities and modification of existing sites to serve as semi-natural rearing areas for juvenile coho.

With this Notice of Intent, BPA is initiating the public scoping process for the EIS. BPA is requesting comments about potential environmental impacts that it should consider as it prepares the EIS for the proposed project, as well as comments on other alternatives that may meet the goals of the project.

In accordance with DOE regulations for compliance with floodplain and wetlands environmental review requirements, BPA will prepare a floodplain and wetlands assessment to avoid or minimize potential harm to or within any affected floodplains and wetlands. The assessment will be included in the EIS.

DATES: Written scoping comments are due to the address below no later than September 15, 2009. Comments may also be made at the EIS scoping meetings to be held on August 20, 2009 and August 21, 2009 at the addresses below.

ADDRESSES: Send letters with comments and suggestions on the proposed scope of the Draft EIS, and requests to be placed on the project mailing list, to

Bonneville Power Administration, Public Affairs Office—DKE-7, P.O. Box 14428, Portland, OR 97293-4428, or by fax to (503) 230-3285. You also may call BPA's toll free comment line at (800) 622-4519 and leave a message (please include the name of this project), or submit comments online at <http://www.bpa.gov/comment>. BPA will post all comment letters in their entirety on BPA's Web site at <http://www.bpa.gov/comment>.

On Thursday, August 20, 2009, a scoping meeting will be held from 6:30 p.m. to 9 p.m. at the Chelan Fire District 3 Community Center in Leavenworth, Washington. On Friday, August 21, 2009, a scoping meeting will be held from 6:30 p.m. to 9 p.m. at the Methow Valley Community Center in Twisp, Washington. At these meetings, we will provide a brief presentation of the proposal, beginning about 7 p.m. We will take comments and answer questions during the presentation. Following the presentation, members of the project team will be available to answer questions, accept oral and written comments, and provide maps and other information about the project. You may stop by anytime during the open house.

Bruce Hollen, Environmental Coordinator, Bonneville Power Administration—KEC-4, P.O. Box 3621, Portland, Oregon 97208-3621; toll-free telephone 1-800-282-3713; direct telephone 503-230-5756; or e-mail bahollen@bpa.gov. Additional information can be found at BPA's Web site: http://www.efw.bpa.gov/environmental_services/nepadocs.aspx, click on "Project Reviews—Active," then use the drop-down box and click on Mid-Columbia Coho Restoration Project.

SUPPLEMENTARY INFORMATION: In 1999, BPA prepared an Environmental Assessment/Finding of No Significant Impact to support the funding of the YN-proposed Mid-Columbia Coho Restoration Feasibility Project. Over the past 10 years, the feasibility project has indicated that the concepts that were tested have the potential to result in the successful re-introduction of naturally reproducing populations of coho. The YN has also prepared a Master Plan to assess and guide the development of the full reintroduction program based on what was learned from the feasibility study and comments from the Northwest Power and Conservation Council's (NPCC) Independent Scientific Review Panel (ISRP).

Alternatives Proposed for Consideration. BPA is currently
