Proposed Project: Jail Diversion and Trauma Recovery—Priority to Veterans Program Evaluation—NEW

The Substance Abuse and Mental Health Services Administration's (SAMHSA), Center for Mental Health Services (CMHS) has implemented the Jail Diversion and Trauma Recovery Program (JDTR)—Priority to Veterans to support local implementation and State-wide expansion of trauma-integrated jail diversion programs to reach individuals with post-traumatic stress disorder (PTSD) and trauma-related disorders involved in the justice system. JDTR requires grantees to implement a State infrastructure program linked to a local pilot criminal justice diversion project. At the State level, the State Mental Health Authority (SMHA) will convene a State Advisory Committee that provides oversight of pilot projects' training, diversion, service delivery and local project evaluation, as well as design and implement plans to disseminate knowledge about effective pilot projects and to replicate them in other communities in the State. CMHS is requesting approval from the Office of Management and Budget (OMB) to implement a data collection document, the Semi-Annual Progress Report (SAPR), to evaluate the implementation, expansion, and sustainability of jail diversion and trauma-informed services developed under the JDTR program.

The current proposal requests implementing the Semi-Annual Progress Report (SAPR) to collect information in the following areas:

a. Document the State and pilot level goals for the project;

b. Describe the project environment, including changes that have helped or hindered implementation;

c. Estimate project spending on State, pilot, and evaluation activities;

d. Describe activities and progress on State level infrastructure change components, including barriers to progress;

e. Report on pilot project progress, including activities related to the pilot program, changes to program plans, and barriers to implementation;

f. Describe any project accomplishments, including documenting numbers and types of trainings, as well as any policy changes; and

g. Describe and update progress in meeting cross-site client evaluation requirements.

This information would be collected twice a year: In March and September. Six grantees were awarded 5-year grants in FY 2008 and six more 5-year grants are anticipated in 2009. The six FY 2008 grantees began data collection in March of FY 2009. Six additional possible future grantees awarded on September 30, 2009 would commence data collection in March of FY 2010.
