

against the introduction into and dissemination within the United States of plant and animal pests and diseases.

On March 13, 2008, we published in the **Federal Register** (73 FR 13525, Docket No. APHIS-2007-0070) a notice in which we announced the availability, for public review and comment, of a regional programmatic environmental assessment relative to the interstate movement of municipal solid waste from Hawaii to landfills in the States of Idaho, Oregon, and Washington. On June 18, 2008 (73 FR 34700-34701, Docket No. APHIS-2007-0070), we published a followup notice in which we announced the availability of our final regional programmatic environmental assessment and finding of no significant impact.

In our March 2008 notice, we stated that as new requests to move municipal solid waste from Hawaii are received, a specific environmental analysis will be prepared relative to each request to determine whether the request is consistent with the environmental effects and impacts analyzed in our regional programmatic environmental assessment. We also stated that the specific environmental analyses prepared for each new request to move municipal solid waste will be made available for a 30-day public comment period, after which APHIS will announce its environmental and pest risk decision regarding the new municipal solid waste movement proposal.

In accordance with the process described in our March 2008 notice, on July 31, 2008, we published in the **Federal Register** (73 FR 44702-44703, Docket No. APHIS-2008-0062) a notice<sup>1</sup> in which we announced the availability, for public review and comment, of a site-specific environmental assessment, titled "Site Specific Environmental Assessment for Off Island Transfer Proposal to Transport Municipal Solid Waste from Hawaii to Columbia Ridge Landfill," and the accompanying pest risk assessment, titled "The Risk of Introducing Pests to Gilliam County, Oregon via Hawaiian Plastic-Baled Municipal Solid Waste" (June 2008).

We solicited comments on the environmental assessment and the pest risk assessment for 30 days ending September 2, 2008. We received six comments by that date. In response to these comments, we have prepared a comment summary and response

document that is available for review on the Regulations.gov Web site (*see* footnote 1). No changes to the environmental assessment or pest risk assessment were determined to be necessary in response to these comments.

In this document, we are advising the public of our pest risk decision and finding of no significant impact regarding the interstate movement of garbage from Hawaii to a landfill in the State of Oregon. This decision is based upon the site-specific environmental assessment, titled "Site Specific Environmental Assessment for Off Island Transfer Proposal to Transport Municipal Solid Waste from Hawaii to Columbia Ridge Landfill," and the accompanying pest risk assessment, titled "The Risk of Introducing Pests to Gilliam County, Oregon via Hawaiian Plastic-Baled Municipal Solid Waste" (June 2008).

The site-specific environmental assessment, pest risk assessment, and finding of no significant impact may be viewed on the Regulations.gov Web site (*see* footnote 1). Copies of the site-specific environmental assessment, pest risk assessment, and finding of no significant impact are also available for public inspection at USDA, room 1141, South Building, 14th Street and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect copies are requested to call ahead at (202) 690-2817 to facilitate entry into the reading room. You may request paper copies of the site-specific environmental assessment, pest risk assessment, and the finding of no significant impact by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the title of the document(s) you wish to receive when requesting copies.

The environmental assessment and finding of no significant impact have been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500-1508), (3) USDA regulations implementing NEPA (7 CFR part 1), and (4) APHIS's NEPA Implementing Procedures (7 CFR part 372).

Done in Washington, DC, this 30th day of December 2008.

### INTERNATIONAL TRADE ADMINISTRATION

#### **Certain Cut-to-Length Carbon Steel Plate from the People's Republic of China: Notice of Extension of Time Limit for Final Results of New Shipper Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** January 6, 2009.

**FOR FURTHER INFORMATION CONTACT:** Trisha Tran, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4852.

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

On November 13, 2008, the Department of Commerce ("Department") published the preliminary results of the new shipper review of the antidumping duty order on certain cut-to-length carbon steel from the People's Republic of China, covering the period November 1, 2006, through October 31, 2007, for the following exporter Hunan Valin Xiangtan Iron & Steel Co. Ltd. ("Valin Xiangtan"). See *Certain Cut-to-Length Carbon Steel from the People's Republic of China: Preliminary Results of New Shipper Review*, 73 FR 67124 (November 13, 2008) ("*Preliminary Results*"). The final results are currently due on February 4, 2009.

##### **Extension of Time Limits for Final Results**

Section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended ("the Act"), and 19 CFR 351.214(i)(1) require the Department to issue the final results of a new shipper review within 90 days after the date on which the preliminary results were issued. The Department may, however, extend the 90-day period for completion of the final results of a new shipper review to 150 days if it determines that the case is extraordinarily complicated. See section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2).

The Department has extended the deadline for parties to submit publicly available information to value factors of production, and the deadline for parties to submit case briefs and rebuttal briefs in order to address several issues raised by interested parties. As a result of these

extensions and the complex issues raised in this new shipper review, including by-product offsets, the Department determines that this new shipper review is extraordinarily complicated and it cannot complete this new shipper review within the current time limit. Accordingly, the Department is extending the time limit for the completion of the final results by 30 days from February 4, 2009, until Friday, March 6, 2009, in accordance with section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2).

We are issuing and publishing this notice in accordance with sections 751(2)(B) and 777(i)(1) of the Act.

Dated: December 29, 2008.
