

the requested review. On August 14, 2009, NSC withdrew its request for an administrative review. NSC withdrew its request before the 90-day deadline, and no other party requested an administrative review of the antidumping duty order on certain hot-rolled flat-rolled carbon-quality steel products from Japan for the period discussed. Therefore, in response to NSC's withdrawal of its request for review, and pursuant to 19 CFR 351.213(d)(1), the Department rescinds the administrative review of the antidumping duty order on certain hot-rolled flat-rolled carbon-quality steel products from Japan for the period June 1, 2008 through May 31, 2009.

Assessment

The Department will instruct U.S. Customs and Border Protection ("CBP") to assess antidumping duties on all appropriate entries. Since NSC's review is being rescinded, the antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). The Department intends to issue appropriate assessment instructions to CPB 15 days after publication of this rescission notice in the **Federal Register**.

Notification to Importers

This notice serves as a reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice serves as a final reminder to parties subject to administrative protection orders (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This notice is issued and published in accordance with 19 CFR 351.213(d)(4).

Dated: August 26, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

FOR FURTHER INFORMATION CONTACT: Dr. Carrie Simmons, Fishery Biologist; Gulf of Mexico Fishery Management Council; telephone: (813) 348-1630.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico Fishery Management Council (Council) has scheduled nine scoping hearings on Spiny Lobster Amendment 10, Generic ACL/AM Amendment, and Amendments 18 and 20 to the Coastal Migratory Pelagics (CMP) Fishery Management Plan (FMP). In 2006 the Magnuson-Stevens Fishery Conservation and Management Act was reauthorized and included a number of changes to improve conservation of managed fishery resources. The goals require that conservation and

management prevent overfishing while achieving, on a continuous basis optimum yield for each fishery in the United States. Therefore included in these changes are requirements for the Regional Councils to establish annual catch limits (ACLs) and accountability measures (AMs). Accountability measures are management controls to prevent the ACLs from being exceeded and to correct by either in-season or post-season monitoring if they occur. These measures must be implemented by 2010 for stocks experiencing overfishing and by 2011 for all others.

The Gulf Council and the South Atlantic Fishery Management Council are jointly developing two separate amendments to address the ACLs and AMs; the Spiny Lobster Amendment 10 and the CMP Amendments 18 and 20. These two joint amendments address several species within the jointly management FMP. For example, the Spiny Lobster Amendment 10 addresses ACLs and AMs for the following species: Caribbean spiny lobster, smoothtail spiny lobster, spotted spiny lobster, Spanish slipper lobster, and ridged slipper lobster. Whereas, the joint CMP FMP Amendments 18 and 20 address ACLs and AMs for the following species: king mackerel, Spanish mackerel, and cobia. The Generic ACL/AM Amendment addresses all other federally managed species in the Gulf of Mexico. There are several questions and issues in each amendment for discussion. The public is encouraged to attend and provide comments on these three amendments.

These public hearings will begin at 6 p.m. and conclude at the end of public testimony or no later than 9 p.m. at the following locations:

- Monday, September 21, 2009, Louisiana Wildlife & Fisheries Research Lab, 195 Ludwig Annex, Grand Isle, LA 70358, telephone: (985) 787-2163;
