Decision on the Proposed Amendment

The statute and the implementing regulation state that PBGC must make two factual determinations before it approves a request for an amendment that adopts a special withdrawal liability rule. ERISA § 4203(f); 29 CFR § 4203.5(a). First, on the basis of a showing by the plan, PBGC must determine that the amendment will apply to an industry that has characteristics that would make use of the special rules appropriate. Second, PBGC must determine that the plan amendment will not pose a significant risk to the insurance system. PBGC's discussion on each of those issues follows. After review of the record submitted by the Local 1 Plan, and having received no public comments, PBGC has entered the following determinations.

1. What Is the Nature of the Industry?

In determining whether an industry has the characteristics that would make an amendment to special rules appropriate, an important line of inquiry is the extent to which the Local 1 Plan's contribution base resembles that found in the construction industry. This threshold question requires consideration of the effect of employer withdrawals on the Local 1 Plan's contribution base.

As the Local 1 Plan has asserted, covered work must be performed at a residential building located in Chicago. The work is local in nature and generally continues to be covered by the Local 1 Plan regardless of the employer retained to do those services. An employer ceases to have an obligation to contribute when it loses a cleaning or security contract because the building owner outsources the work or retains a different service provider, or when the employer closes its business due to bankruptcy, retirement, or business relocation. Over the past 10 years, cessation of contributions by any individual employer has not had an adverse impact on the Local 1 Plan's contribution base. Most of the employers that have ceased to contribute have been replaced by another employer who begins

contributions for the same employees at the same location for the same work.

2. What Is the Exposure and Risk of Loss to PBGC and Participants?

Exposure. The bargaining parties had maintained the same benefit accrual rate for several years. The benefit liabilities have grown by 11 percent from 2002 to 2006. However, over the same time period, contributions nearly tripled and assets grew by 28 percent. Thus, the parties have worked to preserve an adequate cushion against market downturns.

Risk of loss. The record shows that the Local 1 Plan presents a low risk of loss to PBGC insurance funds. The Local 1 Plan's active participant population has been stable, hovering around 4,000 actives for several years. Additionally, the Local 1 Plan and the covered industry have unique characteristics that suggest that the Local 1 Plan's contribution base is likely to remain stable. Contributions to the Local 1 Plan are made with respect to Chicago residential buildings. This contribution base is secure and the departure of one employer from the Local 1 Plan is not likely to have an adverse effect on the contribution base so long as the number of buildings covered does not decline.

Conclusion

Based on the Plan's submissions and the representations and statements made in connection with the request for approval, PBGC has determined that the plan amendment adopting the special withdrawal liability rules (1) will apply only to an industry that has characteristics that would make the use of special withdrawal liability rules appropriate, and (2) will not pose a significant risk to the insurance system. Therefore, PBGC hereby grants the Local 1 Plan's request for approval of a plan amendment modifying special withdrawal liability rules, as set forth herein. Should the Local 1 Plan wish to amend these rules at any time, PBGC approval of the amendment will be required.

Issued at Washington, DC, on this 11th day of September 2009.
