

After consideration of all relevant matter presented, including the information and recommendation submitted by the Committee and other available information, it is hereby found that this rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it also found and determined that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** because handlers are already shipping prunes from the 2009–10 crop and the Committee needs to have sufficient funds to pay its expenses, which are incurred on a continuous basis. Further, handlers are aware of this action, which was recommended by the Committee at a public meeting and is similar to other assessment rate actions issued in past years. Finally, a 30-day comment period was provided for in the proposed rule.
