SUPPLEMENTARY INFORMATION:

Background: Satellite/Internet Broadcasting is defined as a training/education process transpiring between trainers/teachers at one location and participants/students at other locations via technology. NIC is using satellite broadcasting and the internet to economically reach more criminal justice staff in federal, state and local agencies.

Another strong benefit of satellite delivery is its ability to broadcast programs conducted by experts in the correctional field, thus reaching the entire audience at the same time with exactly the same information. In addition, NIC is creating stand-alone training programs on DVDs.

Purpose: The purpose of funding this initiative is to produce four satellite/internet broadcasts, disseminating current information to the criminal justice community. Three will be three hours in length, one will be eight-hours in length. We will also develop and produce the stand alone DVDs.

Scope of Work: To address the scope of work for this project, the following will be needed:

(1) *Producer Consultation and Creative Services:* The producer will: Consult and collaborate with NIC's Distance Learning Administrator (Executive Producer) on program design, program coordination, design of field segments and content development; work with each consultant/trainer to develop their modules for delivery using the satellite/internet format and/or the teleconference format; help develop scripts, graphic design, production elements and rehearsals for each module of the site coordinators' training and the satellite/internet training programs; and use their expertise in designing creative ways to deliver satellite teleconferencing. The producer will also be responsible for attending planning meetings and assisting in the videotaping of testimonials at conferences.

(2) *Pre-Production Video:* The producer will supervise the production of vignettes to be used in each of the satellite/Internet broadcasts, as well as each DVD production. NIC presenters (content experts) will draft outlines of

the scripts for each vignette. From the outlines, scripts will be developed by the producer (script writing expert) and approved by NIC's Distance Learning Administrator. Professional actors will play the parts designated by the script. Story boards for each production will be written by NIC's Distance Learning Administrator. A total of between 18 and 25 vignettes will be created under this cooperative agreement. The producer will supervise camera and audio crews to capture testimonials from leaders in the criminal justice field at designated conferences. (There will be four such conferences in 2010.) The producer will coordinate all planning of the production and post-production for each of the seven satellite/Internet broadcasts.

(3) *Video Production:* Video production for each teleconference will consist of videotaping content-related events in the field, editing existing video, and videotaping experts for testimonial presentations. It will also include voice over, audio and music if necessary, for each video. Blank tapes and narration for field shooting will be purchased for each site. The format for all field shooting will be either Beta Cam, DVD Pro Digital and/or Mini DVD.

(4) *Post Production (Studio):* Innovative and thought-provoking opening sequences will be produced for each teleconference. In addition, graphics will be utilized to enhance the learning in each module. The producer will coordinate art direction, lighting, set design, and furniture for all teleconference segments. (Set design should change periodically throughout the award period.) The set will be customized to each topic. The producer will organize and supervise the complete production crew on rehearsal and production days, per the schedules below. This will also include the production of DVDs for each broadcast and the editing necessary for a final and approved cut.

(5) *Production:* The production group will set up and maintain studio lighting, adjust audio, and have a complete production crew for the days and hours set by the Distance Learning Administrator. A production crew shall include the following: Director, Audio Operator, Video Operator, Character Generator Operator, Floor Director, Four (4) Camera Operators, Teleprompter Operator, On-Line Internet Coordinator, Make-Up Artist (production time only), and Interactive Assistance Personnel (fax, e-mail, and telephone). Each production shall also have closed captioning for all programs.

After each production, the studio will provide 12 DVD copies to NIC and the
