

be recruited from the general public, the five hard-to-enumerate populations identified as priorities by the Census Bureau, and the eight 'audience segments' defined at the census-tract level.

A key tool for improved quality of self-reported media exposure data is the use of confirmed recall items in which respondents are not only asked to report

on ad viewing, but also on the details of the ad content. This question type will be of great value in the Waves 2 and 3 questionnaires, when the paid advertising campaign will be in full swing. Final advertisements will not be developed, however, until closer to the time of campaign implementation. Specific questionnaire items will be developed and pre-tested after final

advertisements are available for review. Templates of these question formats will be submitted with the original OMB package, but specific questions will be submitted to OMB for review after the formal clearance process has been completed.

#### *Survey Schedule*

Three surveys are proposed:

| Wave [dates]                      | Sample size and composition   | Comments  |

| 3 [May 15–August 31, 2010] .....  | 4,200, of which 3,000 evenly distributed across 6 race/ethnic groups. | + 1,500 cases (evenly distributed across race/ethnic groups) who completed Wave 1 (and possibly Wave 2) as well.<br>+ 1,200 cases in selected sites for 'observational case control'. |

#### *Mixed-Mode Data Collection*

NORC will employ an address-based sampling design that marries the comprehensive coverage of address lists with the cost effectiveness of telephone data collection. Through telephone number matching services and advance letter requests to sampled addresses, NORC will begin the data collection effort by telephone, expecting to obtain phone numbers for approximately 60 percent of the selected sample. Cases will then also be solicited for web completion, or completion by mail and by paper-and-pencil Self-Administered Questionnaire. A sub-sample of all cases not completed will be fielded in-person. Telephone interviewing will make use of Computer-Assisted Telephone Interviewing technologies, while in-person data collection will make use of paper and pencil questionnaires. Telephone and in-person data collection will be conducted in the languages of the 2010 census form: English, Spanish, Chinese, Korean, Vietnamese and Russian.

**Chlorinated Isocyanurates from Spain: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce

**EFFECTIVE DATE:** March 3, 2009.

**FOR FURTHER INFORMATION CONTACT:**

Myrna Lobo, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington DC 20230; telephone: (202) 482-2371.

**SUPPLEMENTARY INFORMATION:****Background**

On July 30, 2008, the Department of Commerce (the Department) published the notice of initiation of the administrative review of the antidumping duty order on chlorinated isocyanurates from Spain for the period June 1, 2007 through May 31, 2008. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews, Request for Revocation in Part, and Deferral of Administrative Review*, 73 FR 44220 (July 30, 2008). The preliminary results of this administrative review are currently due no later than March 2, 2009.

**Extension of Time Limit for Preliminary Results**

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213(h)(1), the Department shall issue preliminary results in an administrative review of an antidumping duty order within 245

days after the last day of the anniversary month of the date of publication of the order. The Act further provides, however, that the Department may extend that 245-day period to 365 days if it is not practicable to complete the review within the foregoing time period. *See id.*; *see also* 19 CFR 351.213(h)(2).

The Department finds that it is not practicable to complete the preliminary results by the current deadline of March 2, 2009 because it needs additional time to fully analyze the sales and cost-of-production supplemental questionnaire responses that are due from respondent, and to conduct cost and sales verifications of the questionnaire responses. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department has decided to extend the time limit for the preliminary results by 78 days to May 19, 2009. Unless extended, the final results continue to be due 120 days after the publication of the preliminary results, pursuant to section 751(a)(3)(A) of the Act and section 351.213(h) of the Department's regulations.

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: February 25, 2009.

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
