

Amended Tolerance Exemption

PP 8E7446. Organic Works/BioNet International Corp. c/o Interregional Research Project Number 4, 500 College Road East, Princeton, NJ 08540, proposes to amend an exemption from the requirement of a tolerance in 40 CFR 180.1258 for residues of the biochemical pesticide, acetic acid, in or on all food commodities. The petitioner believes no analytical method is needed because there are no known analytical studies which have determined residue magnitudes on plant tissues following the herbicidal application of acetic acid. At the upper application rate of 55 pounds of active ingredient per acre the resulting concentrations should be well below the 1 to 1.5% levels predicted when acetic acid is applied to hay or grain, a use for which acetic acid has gained an exemption from the requirements of a tolerance in 40 CFR 180.1258. Since this product is a non-selective herbicide the product will be applied either when the crop is not present or the application will be directed away from the crop. The product is not intended for any direct application to the crop therefore only a minor amount of inadvertent residues could occur. Acetic acid is a naturally occurring substance found in all plants therefore inadvertent residues would be indistinguishable from acetic acid already in the crop.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse

human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What Action is the Agency Taking?

EPA is announcing receipt of a pesticide petition filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, proposing the establishment or modification of regulations in 40 CFR part 174 or part 180 for residues of pesticide chemicals in or on various food commodities. EPA has determined that the pesticide petition described in this notice contains data or information prescribed in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data supports granting of the pesticide petition. Additional data may be needed before EPA can make a final determination on this pesticide petition.

Pursuant to 40 CFR 180.7(f), a summary of the petition that is the subject of this notice, prepared by the petitioner, is included in a docket EPA has created for this rulemaking. The docket for this petition is available online at <http://www.regulations.gov>.

As specified in FFDCA section 408(d)(3), (21 U.S.C. 346a(d)(3)), EPA is publishing notice of the petition so that the public has an opportunity to comment on this request for the establishment or modification of regulations for residues of pesticides in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.

PP 9F7521. Monsanto Company, 800 North Lindbergh Blvd., St. Louis, MO 63167, proposes to establish an 18-month time-limited exemption from the requirement of a tolerance for residues of the plant-incorporated protectant (PIP), *Bacillus thuringiensis* Cry1A.105 protein, in or on the food and feed commodities cotton seed, cotton seed oil, cotton seed meal, cotton hay, cotton hulls, cotton forage and cotton gin byproducts. The petitioner believes no analytical method is needed because a time-limited exemption from the requirement of a tolerance is being sought.
