Title: NESHAP for Phosphoric Acid Manufacturing and Phosphate Fertilizers Production (Renewal)

ICR Numbers: EPA ICR Number 1790.05, OMB Control Number 2060-0361.

ICR Status: This ICR is scheduled to expire on June 30, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Phosphoric Acid Manufacturing and Phosphate

Fertilizers Production were: proposed on December 27, 1996; promulgated on June 10, 1999; and amended on June 12, 2002.

Owners/operators of affected phosphoric acid manufacturing and phosphate fertilizer production must submit one-time only notifications (where applicable) and annual reports on performance test results. Semiannual reports are required. In addition, a quarterly report is required when excess emissions occur. Subparts AA and BB require respondents to install monitoring devices to measure the pressure drop and liquid flow rate for wet scrubbers. These operating parameters are permitted to vary within ranges determined concurrently with performance tests. Exceedances of the operating ranges are considered violations of the site-specific operating limits. The standards require sources to determine and record the amount of phosphatic feedstock material processed or stored on a daily basis. Respondents also maintain records of specific information needed to determine that the standards are being achieved and maintained.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 18 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Phosphoric acid manufacturing and phosphate fertilizers production facilities.

Estimated Number of Respondents: 12.

Frequency of Response: Initially, occasionally, semiannually and annually.

Estimated Total Annual Hour Burden: 1,534.

Estimated Total Annual Cost: \$154,929, which includes \$144,297 in labor costs, no capital/startup costs, and

\$10,632 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the calculation methodology for labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the respondents is very low, negative or non-existent. However, due to a mathematical correction, there is a decrease of eight hours in respondent labor hours.

This ICR has been updated with the most recent available labor rates for each of the three labor categories. There is an increase in both respondent and Agency costs resulting from labor rate increases from 2003 to 2009. This ICR uses 2009 labor rates because burden and cost calculations in Tables 1 and 2 of this ICR were expanded to include managerial and clerical labor rates, and the previous ICR only provided a technical labor rate. The cost figure has also been updated to the nearest dollar, whereas the previous ICR rounded the figure to the nearest thousand dollar.

Dated: April 20, 2010.

Director, Collection Strategies Division.

Proposed CERCLA Administrative Cost Recovery Settlement Agreement; AVX Corporation

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed settlement agreement; request for public comment.

SUMMARY: In accordance with section 122(i) the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(i), notice is hereby given of a proposed administrative settlement for recovery of

projected future response oversight costs and performance of work concerning the Aerovox Site located at 740 Belleville Avenue in New Bedford, Bristol County, Massachusetts with AVX Corporation. The settlement provides for the performance of a portion of a non-time critical removal action, pre-payment of future response oversight costs, payment for long-term care of the Site and implementation of deed restrictions at the Site. The settlement also compromises the claim for past costs. In addition, the settlement includes a covenant not to sue the settling party pursuant to section 107(a) of CERCLA, 42 U.S.C. 9607(a) conditioned upon the satisfactory performance of its obligations under this settlement agreement. For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the settlement agreement. The Agency will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate. The Agency's response to any comments received will be available for public inspection at 5 Post Office Square, Suite 100, Boston, MA 02109.

DATES: Comments must be submitted on or before May 24, 2010.

ADDRESSES: The proposed settlement and an electronic copy of the attachments is available for public inspection at EPA New England OSRR Records and Information Center, 5 Post Office Square, Suite 100, Mailcode LIB01-2, Boston, MA 02109-3912, by appointment, (617) 918-1440. Comments should be addressed to the Regional Hearing Clerk, U.S. Environmental Protection Agency, Region I, 5 Post Office Square, Suite 100, Mailcode ORA18-1, Boston, MA 02109-3912 and should refer to: In re: Aerovox, U.S. EPA Region 1 Docket No. CERCLA-01-2010-0017.

FOR FURTHER INFORMATION CONTACT: A copy of the proposed settlement agreement can also be obtained from Ann Gardner, U.S. Environmental

Protection Agency, Region I, 5 Post Office Square, Suite 100, Mailcode OES04-4, Boston, MA 02109-3912. Additional information on the Aerovox site and the Administrative Record for this site can be found at <http://www.epa.gov/ne/superfund/sites/aerovox/>.

Dated: April 15, 2010.
