

V. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for product cancellation or use deletion should submit the withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subjected to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and were packaged, labeled, and released for shipment prior to the effective date of the action. If the request for amendments to delete uses is granted, the Agency intends to publish the cancellation order in the **Federal Register**.

In any order issued in response to this request for an amendment to delete uses, EPA proposes to include the following provisions for the treatment of any existing stocks of the products listed in Table 1 of Unit III.

For voluntary product cancellations, registrants will be permitted to sell and distribute existing stocks of voluntarily canceled products for 1 year after the effective date of the cancellation which will be the date of publication of the cancellation order in the **Federal Register**. Thereafter, registrants will be prohibited from selling or distributing the products identified in Table 1 of Unit III., except for export consistent with FIFRA section 17 or for proper disposal.

Once EPA has approved product labels reflecting the requested amendments to delete uses, registrants will be permitted to sell or distribute products under the previously approved labeling for a period of 18 months after the date of **Federal Register** publication of the cancellation order, unless other restrictions have been imposed. Thereafter, registrants will be prohibited from selling or distributing the products whose labels include the deleted uses identified in Table 1 of Unit III., except for export consistent with FIFRA section 17 or for proper disposal.

Persons other than the registrant may sell, distribute, or use existing stocks of products whose labels include the deleted uses until supplies are exhausted, provided that the sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the deleted uses.

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare and Medicaid Services.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS) is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden

estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request*: Extension of a currently approved collection; *Title of Information Collection*: Physician Self-Referral Exceptions for Electronic Prescribing and Electronic Health Records; *Use*: Section 101 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA) directed the Secretary to create an exception to the physician self-referral prohibition in section 1877 of the Social Security Act for certain arrangements in which a physician receives compensation in the form of items or services (not including cash or cash equivalents) ("nonmonetary remuneration") that is necessary and used solely to receive and transmit electronic prescription information. Also, CMS created a separate regulatory exception for certain arrangements involving the provision of nonmonetary remuneration in the form of electronic health records software or information technology and training services necessary and used predominantly to create, maintain, transmit, or receive electronic health records.

The conditions for both exceptions require that arrangements for the items and services provided must be set forth in a written agreement, be signed by the parties involved, specify the items or services being provided and the cost of those items or services, and cover all of the electronic prescribing and/or electronic health records technology to be provided by the donating entity. CMS would use the collected information for enforcement purposes; specifically, if we were investigating the financial relationships between the donors and the physicians to determine whether the provisions in the exceptions were met. *Form Number*: CMS-10207 (OMB#: 0938-1009); *Frequency*: Occasionally; *Affected Public*: Private Sector: Business or other for-profits and Not-for-profit institutions; *Number of Respondents*: 9,796; *Total Annual Responses*: 38,959; *Total Annual Hours*: 12,451.5. (For policy questions regarding this collection contact Kristin Bohl at 410-

786-8680. For all other issues call 410-786-1326.)

2. *Type of Information Collection Request*: Extension of a currently approved collection; *Title of Information Collection*: Medicaid State Program Integrity Assessment (SPIA); *Use*: Under the provisions of the Deficit Reduction Act (DRA) of 2005, the Congress directed CMS to establish the Medicaid Integrity Program (MIP), CMS' first national strategy to combat Medicaid fraud, waste, and abuse. CMS has two broad responsibilities under the MIP: (1) Reviewing the actions of individuals or entities providing services or furnishing items under Medicaid; conducting audits of claims submitted for payment; identifying overpayments; and educating providers and others on payment integrity and quality of care; and (2) Providing effective support and assistance to States to combat Medicaid fraud, waste, and abuse.

In order to fulfill the second of these requirements, CMS developed SPIA. CMS uses SPIA to collect data on State Medicaid program integrity activities, develop reports for each State based on these data, determine areas to provide States with technical support and assistance, and develop measures to assess States' performance. *Form Number*: CMS-10244 (OMB#: 0938-1033); *Frequency*: Annually; *Affected Public*: State, Local, or Tribal Governments; *Number of Respondents*: 56; *Total Annual Responses*: 56; *Total Annual Hours*: 1,400. (For policy questions regarding this collection contact Mary Jo Cook at 410-786-3231. For all other issues call 410-786-1326.)

3. *Type of Information Collection Request*: New collection; *Title of Information Collection*: State Plan Preprint for Medicaid Recovery Audit Contractors (RACs); *Use*: Under section 1902(a)(42)(B)(i) of the Social Security Act, States are required to establish programs to contract with one or more Medicaid RACs for the purpose of identifying underpayments and recouping overpayments under the State plan and any waiver of the State plan with respect to all services for which payment is made to any entity under such plan or waiver. Further, the statute requires States to establish programs to contract with Medicaid RACs in a manner consistent with State law, and generally in the same manner as the Secretary contracts with Medicare RACs.

State programs contracted with Medicaid RACs are not required to be fully operational until after December 31, 2010. States may submit, to CMS, a State Plan Amendment (SPA) attesting
