SUPPLEMENTARY INFORMATION:

I. Abstract

Since 1998, the National Science Foundation (NSF) has supported interdisciplinary training of doctoral students across the nation through the Integrative Graduate Education and Research Traineeship (IGERT) Program. NSF awards IGERT grants to institutions that develop innovative, interdisciplinary doctoral training programs in science, technology, engineering, and mathematics (STEM) disciplines. Unlike traditional graduate research or teaching assistantships, IGERT provides doctoral students with unrestricted funds, including a living stipend plus tuition and fees. NSF intends to conduct an implementation evaluation of the program to learn what program elements are most effective in fostering interdisciplinary

collaborations, research, and learning. Specifically, the evaluation will assess the program's perceived progress towards its three goals of fostering interdisciplinary education, recruiting and retaining a diverse population of graduate students, and catalyzing cultural change within institutions to better support interdisciplinary endeavors. Data from this collection will be used by NSF to respond to OMB and congressional inquiries, document best practices for training interdisciplinary scientists, and inform decisions about future project modifications.

II. Method of Collection

Data will be collected via interviews and surveys from faculty members and students who have participated in the five most recent cohorts (2005–2009) of IGERT projects.

SUMMARY: With this notice, the National Coordination Office for Networking and Information Technology Research and Development (NITRD) requests comments from the public regarding the draft 2010 Strategic Plan for the Federal NITRD Program. The draft Strategic Plan is posted at: <http://www.nitrd.gov/DraftStrategicPlan/Comments> of one page or less in length are requested. This request for information will be active from September 10, 2010 to October 11, 2010.

ADDRESSES: Submit comments via e-mail to: nitrd-sp@nitrd.gov Comments submitted in response to this notice may be made available to the public online or by alternative means. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information.

SUPPLEMENTARY INFORMATION:

Overview: This notice is issued by the National Coordination Office for the Networking and Information Technology Research and Development (NITRD) Program. The draft NITRD Strategic Plan reflects broad input from Federal agencies as well as from researchers and other stakeholders in academia, industry, national laboratories, and professional/technical organizations. Public inputs were solicited in a detailed August 2008 Request for Information (RFI) and in a February 2009 public forum and Webcast. Several hundred comments were received in response to the RFI, and many of these were posted to the NITRD Web site for further comment. The public forum, which included formal presentations by academic and

industry experts addressing key concepts for the draft Strategic Plan, was attended by some 100 members of the public, while another 400 persons participated via the Webcast.

Background: As required by the High-Performance Computing Act of 1991 (Pub. L. 102-194), the Next Generation Internet Research Act of 1998 (Pub. L. 105-305), and the America COMPETES Act of 2007 (Pub. L. 110-69), NITRD currently provides a framework and mechanisms for coordination among 14 Federal agencies that support advanced IT R&D. These agencies report IT research budgets in the NITRD crosscut, and many other agencies with IT interests also participate informally in NITRD activities. The draft 2010 Strategic Plan for the NITRD Program was developed by the NITRD agencies pursuant to a recommendation of the President's Council of Advisors on Science and Technology (PCAST).

Invitation to comment: Inputs of one page or less are welcomed in response to this third and final request for public comment on the Plan. E-mail to: nitrd-sp@nitrd.gov.

Submitted by the National Science Foundation for the National Coordination Office (NCO) for Networking and Information Technology Research and Development (NITRD) on September 1, 2010.

Dated: September 7, 2010.
