

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, as amended), notice is hereby given that the following meetings of Humanities Panels will be held at the Old Post Office, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

FOR FURTHER INFORMATION CONTACT:

Michael P. McDonald, Advisory Committee Management Officer, National Endowment for the Humanities, Washington, DC 20506; telephone (202) 606-8322. Hearing-impaired individuals are advised that information on this matter may be obtained by contacting the Endowment's TDD terminal on (202) 606-8282.

SUPPLEMENTARY INFORMATION: The proposed meetings are for the purpose of panel review, discussion, evaluation and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by the grant applicants. Because the proposed meetings will consider information that is likely to disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential and/or information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee meetings, dated July 19, 1993, I have determined that these meetings will be closed to the public pursuant to subsections (c)(4), and (6) of section 552b of Title 5, United States Code.

1. *Date:* March 2, 2010.
Time: 8:30 a.m. to 5 p.m.
Room: 415.

Program: This meeting will review applications for Sustaining Cultural Heritage Collections I in Sustaining Cultural Heritage Collections, submitted to the Division of Preservation and Access at the December 8, 2009 deadline.

2. *Date:* March 4, 2010.
Time: 8:30 a.m. to 5 p.m.
Room: 415.

Program: This meeting will review applications for Sustaining Cultural Heritage Collections II in Sustaining Cultural Heritage Collections, submitted to the Division of Preservation and Access at the December 8, 2009 deadline.

3. *Date:* March 5, 2010.
Time: 8:30 a.m. to 5 p.m.
Room: 415.

Program: This meeting will review applications for Sustaining Cultural Heritage Collections III in Sustaining Cultural Heritage Collections, submitted to the Division of Preservation and Access at the December 8, 2009 deadline.

4. *Date:* March 9, 2010.
Time: 8:30 a.m. to 5 p.m.
Room: 415.

Program: This meeting will review applications for Sustaining Cultural Heritage Collections IV in Sustaining Cultural Heritage Collections, submitted to the Division of Preservation and Access at the December 8, 2009 deadline.

5. *Date:* March 10, 2010.
Time: 8:30 a.m. to 5 p.m.
Room: 415.

Program: This meeting will review applications for Sustaining Cultural Heritage Collections V in Sustaining Cultural Heritage Collections, submitted to the Division of Preservation and Access at the December 8, 2009 deadline.

6. *Date:* March 11, 2010.
Time: 8:30 a.m. to 5 p.m.
Room: 415.

Program: This meeting will review applications for Sustaining Cultural Heritage Collections VI in Sustaining Cultural Heritage Collections, submitted to the Division of Research Programs at the December 8, 2009 deadline.

7. *Date:* March 15-16, 2010.
Time: 9 a.m. to 5 p.m.
Place: Deutsche

Forschungsgemeinschaft, Berlin Office, WissenschaftsForum (Gendarmenmarkt), Markgrafenstr. 37, D-10117 Berlin, Germany.

Program: This meeting will review applications for DFG/NEH Bilateral Digital Humanities Programs in DFG/NEH Bilateral Digital Humanities Programs: Bilateral Symposia & Workshops and Enriching Digital Collections, submitted to the Office of Digital Humanities at the October 8, 2009 and October 29, 2009 deadlines.

8. *Date:* March 18, 2010.
Time: 10:00 a.m. to 3 p.m.
Room: 415.

Program: This meeting will review applications for National Digital Newspaper Program in National Digital Newspaper Program, submitted to the Division of Preservation and Access at the November 3, 2009 deadline.

9. *Date:* March 22, 2010.
Time: 9:00 a.m. to 5 p.m.
Room: 421.

Program: This meeting will review applications for United States History in America's Historical and Cultural Organizations Grants Program, submitted to the Division of Public Programs at the January 13, 2010 deadline.

10. *Date:* March 23, 2010.
Time: 9 a.m. to 5 p.m.
Room: 421.

Program: This meeting will review applications for United States History in Interpreting America's Historic Places Grants Program, submitted to the Division of Public Programs at the January 13, 2010 deadline.

11. *Date:* March 25, 2010.
Time: 9:00 a.m. to 5 p.m.
Room: 421.

Program: This meeting will review applications for American Studies in America's Historical and Cultural Organizations Grants Program, submitted to the Division of Public Programs at the January 13, 2010 deadline.

12. *Date:* March 26, 2010.
Time: 9 a.m. to 5 p.m.
Room: 421.

Program: This meeting will review applications for United States History in America's Historical and Cultural Organizations Grants Program, submitted to the Division of Public Programs at the January 13, 2010 deadline.

Michael P. McDonald,

Advisory Committee Management Officer.

BILLING CODE 7536-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0454]

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** Notice with a 60-day comment period on this information collection on November 5, 2009.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* NRC Form 664, General Licensee Registration;

3. *Current OMB approval number:* 3150-0198.

4. *The form number if applicable:* NRC Form 664.

5. *How often the collection is required:* Annually.

6. *Who will be required or asked to report:* General Licensees of the NRC who possess certain generally licensed devices subject to annual registration authorized pursuant to 10 CFR 31.5.

7. *An estimate of the number of annual responses:* 840.

8. *The estimated number of annual respondents:* 840.

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* The number of hours needed annually to complete the requirement or request: 280 hours annually (840 respondents $\times$ 20 minutes per form).

10. *Abstract:* NRC Form 664 is used by NRC general licensees to make reports regarding certain generally licensed devices subject to annual registration. The registration program allows NRC to better track general licensees, so that they can be contacted or inspected as necessary, and to make sure that generally licensed devices can be identified even if lost or damaged. Also, the registration program ensures that general licensees are aware of and understand the requirements for the possession, use and disposal of devices containing byproduct material. Greater awareness helps to ensure that general licensees will comply with the regulatory requirements for proper handling and disposal of generally licensed devices and would reduce the potential for incidents that could result in unnecessary radiation exposure to the public and contamination of property.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, Maryland 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by March 12, 2010. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Christine J. Kymn, Desk Officer, Office of Information and Regulatory Affairs (3150-0198), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be e-mailed to Christine.J.Kymn@omb.eop.gov or submitted by telephone at (202) 395-4638.

The NRC Clearance Officer is Tremaine Donnell, (301) 415-6258.

Dated at Rockville, Maryland, this 1st day of February, 2010.

For the Nuclear Regulatory Commission.

Tremaine Donnell,

NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-261; NRC-2010-0027]

Carolina Power & Light Company; Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination and Opportunity for a Hearing, and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-23 issued to Carolina Power & Light Company (the licensee) for operation of the H. B. Robinson Steam Electric Plant, Unit 2, located in Darlington County, South Carolina.

The December 16, 2009, application (Agencywide Documents Access and Management System (ADAMS) Accession No. ML093631212) contains proprietary information, which the Commission classifies as sensitive unclassified non-safeguards information (SUNSI). The proposed amendment would modify Technical Specification (TS) 5.5.9 to revise the steam generator (SG) alternate repair criteria and TS 5.6.8 to revise the SG tube inspection reporting requirements. Specifically, the proposed change would revise requirements in TS 5.5.9, called alternate repair criteria, which would allow inspection of the tube to start within the tubesheet region (a minimum of 17.28 inches below the top of the tubesheet) and add requirements to report indications in this region and primary to secondary leakage that could be attributed to the uninspected portion of the tube within the tubesheet. The

change is being proposed as a temporary requirement until the next scheduled inspection.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in Title 10 of the *Code of Federal Regulations* (10 CFR), Section 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. The Proposed Change Does Not Involve a Significant Increase in the Probability or Consequences of an Accident Previously Evaluated.

The proposed change does not involve physical changes to any plant structure, system, or component. The inspection of the portion of the steam generator tubes within the tubesheet region is being changed to identify the appropriate scope of inspection and the criteria for plugging tubes that are found with degradation. The proposed requirements will continue to ensure that the probability of a steam generator tube rupture accident is not increased. Therefore, the probability of occurrence for a previously analyzed accident is not significantly increased.

The consequences of a previously analyzed accident are dependent on the initial conditions assumed for the analysis, the behavior of the fission product barriers during the analyzed accident, the availability and successful functioning of the equipment assumed to operate in response to the analyzed event, and the setpoints at which these actions are initiated. The proposed inspection and repair requirements will ensure that the plant continues to meet applicable design and safety analyses acceptance criteria. The proposed change does not affect the performance of any equipment used to mitigate the consequences of an analyzed accident. As a result, no analysis assumptions are impacted and there are no adverse effects on the factors that contribute to offsite or onsite dose as a result of an accident. The proposed change does not affect setpoints that initiate protective or mitigative actions. The proposed change ensures that plant structures, systems, and components are maintained consistent with
