DEPARTMENT OF COMMERCE

International Trade Administration

Limitation of Duty-free Imports of Apparel Articles Assembled in Haiti Under the Haitian Hemispheric Opportunity Through Partnership for Encouragement Act (HOPE)

AGENCY: Department of Commerce, International Trade Administration.

ACTION: Notification of Annual Quantitative Limit on Certain Apparel under HOPE.

DATES: *Effective Date:* December 20, 2010.

FOR FURTHER INFORMATION CONTACT: Maria Dyczak, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-3651.

SUPPLEMENTARY INFORMATION:

Authority: The Caribbean Basin Recovery Act ("CBERA"), as amended by the Haitian Hemispheric Opportunity Through Partnership for Encouragement Act of 2006 ("HOPE"), Title V of the Tax Relief and Health Care Act of 2006 and the Food, Conservation, and Energy Act of 2008 ("HOPE II"); the Haiti Economic Lift Program Act of 2010 ("HELP"); and implemented by Presidential Proclamations No. 8114, 72 FR 13655, 13659 (March 22, 2007), and No. 8596, 75 FR 68153 (November 4, 2010).

HOPE provides for duty-free treatment for certain apparel articles imported directly from Haiti. Section 213A(b)(1)(B) of HOPE outlines the requirements for certain apparel articles to qualify for duty-free treatment under a "value-added" program. In order to qualify for duty-free treatment, apparel articles must be wholly assembled, or knit-to-shape, in Haiti from any combination of fabrics, fabric components, components knit-to-shape, and yarns, as long as the sum of the cost or value of materials produced in Haiti or one or more countries, as described in HOPE, or any combination thereof, plus the direct costs of processing operations performed in Haiti or one or more countries, as described in HOPE, or any combination thereof, is not less than an applicable percentage of the declared customs value of such apparel articles. Pursuant to HELP, the

applicable percentage for the period December 20, 2010 through December 19, 2011, is 50 percent or more.

For every twelve month period following the effective date of HOPE, duty-free treatment under the value-added program is subject to a quantitative limitation. HOPE provides that the quantitative limitation will be recalculated for each subsequent 12-month period. Section 213A (b)(1)(C) of HOPE, as amended by HOPE II and HELP, requires that, for the twelve-month period beginning on December 20, 2010, the quantitative limitation for qualifying apparel imported from Haiti under the value-added program will be an amount equivalent to 1.25 percent of the aggregate square meter equivalent of all apparel articles imported into the United States in the most recent 12-month period for which data are available. The aggregate square meters equivalent of all apparel articles imported into the United States is derived from the set of Harmonized System lines listed in the Annex to the World Trade Organization Agreement on Textiles and Clothing ("ATC"), and the conversion factors for units of measure into square meter equivalents used by the United States in implementing the ATC. For purposes of this notice, the most recent 12-month period for which data are available as of December 20, 2010 is the 12-month period ending on October 31, 2010.

Therefore, for the one-year period beginning on December 20, 2010 and extending through December 19, 2011, the quantity of imports eligible for preferential treatment under the value-added program is 324,408,946 square

meters equivalent. Apparel articles entered in excess of these quantities will be subject to otherwise applicable tariffs.

Dated: December 10, 2010.

Sergio Botero,

Acting Deputy Assistant Secretary for Textiles and Apparel.

Certain Circular Welded Non-Alloy Steel Pipe From Mexico: Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: In response to requests by interested parties, the Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on certain circular welded non-alloy steel pipe from Mexico. This administrative review covers mandatory respondents Mueller Comercial de Mexico, S. de R.L. de C.V. (Mueller) and Ternium Mexico, S.A. de C.V. (Ternium). Tuberia Nacional, S.A. de C.V. (TUNA) is subject to a concurrent changed circumstances review of this order; in its changed circumstances review, the Department has preliminarily determined that Lamina y Placa Comercial, S.A. de C.V. (Lamina) is the successor-in-interest to TUNA. *See Preliminary Results of Antidumping Duty Changed Circumstances Review: Certain Circular Welded Non-Alloy Steel Pipe and Tube from Mexico*, 75 FR 67685 (November 3, 2010). Therefore, we are continuing to refer to this entity as TUNA for these preliminary results, pending a final determination. The period of review (POR) is November 1, 2008, through October 31, 2009.

We preliminarily determine that sales of subject merchandise have been made at less than normal value (NV). One of the companies, Ternium, refused to cooperate with the Department in this administrative review. We have calculated a dumping margin for Mueller. We preliminarily determine that TUNA had no reviewable sales, shipments, or entries during the POR. The Department's review of import data supported TUNA's claim (*see* "TUNA's No-Shipments Claim" section of this notice for further explanation).

Interested parties are invited to comment on these preliminary results.

DATES: *Effective Date:* December 15, 2010.

FOR FURTHER INFORMATION CONTACT: Mark Flessner or Robert James, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-6312 or (202) 482-0469, respectively.

SUPPLEMENTARY INFORMATION:

Background

On November 2, 1992, the Department published the antidumping duty order on certain circular welded non-alloy steel pipe from Mexico. *See Notice of Antidumping Duty Orders: Certain Circular Welded Non-Alloy Steel Pipe from Brazil, the Republic of Korea (Korea), Mexico, and Venezuela and Amendment to Final Determination of Sales at Less Than Fair Value: Certain Welded Non-Alloy Steel Pipe from Korea*, 57 FR 49453 (November 2, 1992) (*Antidumping Duty Order*). On November 2, 2009, the Department published a notice of opportunity to request an administrative review in the **Federal Register**. *See Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 74 FR 56573 (November 2, 2009). On November 30, 2009, the Department received requests for administrative review of Ternium (including its affiliates Hylsa, Ternium Grupo IMSA, and Galvak), TUNA, and Mueller from petitioners Allied Tube and Conduit Corp. (Allied) and TMK IPSCO; respondents Mueller and TUNA also submitted requests for administrative review on that day. On December 23, 2009, the Department published a **Federal Register** notice initiating an antidumping administrative review. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 74 FR 68229 (December 23, 2009). On December 28, 2009, TUNA withdrew its request for an administrative review. However, the Department did not terminate the review with regard to TUNA because petitioners had timely requested a review of TUNA. On January 6, 2010, the Department issued its antidumping questionnaire to Mueller, TUNA, and Ternium.

On February 5, 2010, Ternium and TUNA notified the Department that they would not submit responses to the Department's questionnaire; TUNA did so with a no-shipments claim. With

regard to TUNA's no-shipments claim, on February 17, 2010, petitioners Allied and TMK IPSCO submitted comments; on August 4, 2010, they submitted further comments. On August 16, 2010, TUNA replied to the petitioner's comments. On August 31, 2010, the Department issued a supplemental questionnaire to TUNA concerning its U.S. sales of mechanical tubing. On September 8, 2010, TUNA submitted its response to the supplemental questionnaire concerning mechanical tubing.

With respect to sales data, on February 26, 2010, Mueller submitted its response to section A of the questionnaire; on March 19, 2010, Mueller submitted its sections B and C response to the questionnaire. On May 25, 2010, the Department issued its first supplemental section A, B, and C questionnaire to Mueller. On June 4, 2010, Mueller submitted its responses to the first supplemental section A, B, and C questionnaire. On June 24, 2010, Mueller submitted a clarification of its first supplemental section A questionnaire response. On June 17, 2010, the Department issued its second supplemental section A, B, and C questionnaire to Mueller. On July 14, 2010, Mueller submitted its response to the second supplemental section A questionnaire; on July 16, 2010, Mueller submitted its response to the second supplemental sections B and C questionnaire. On July 19, 2010, Mueller submitted corrections to its response to the second supplemental sections B and C questionnaire. On December 1, 2010, Mueller submitted revised home and U.S. market databases in response to the Department's request made at the end of verification (*see* "Verification" section below).

On April 8, 2010, petitioner U.S. Steel alleged that Mueller had made sales below the cost of production (COP) during the POR. On June 30, 2010, the Department required both TUNA and Ternium¹ to submit COP data. *See the memorandum from Maryanne Burke to the file entitled "Administrative Review of Circular Welded Non-Alloy Steel Pipe from Mexico: Mueller Comercial de Mexico, S. de R.L. de C.V. and Southland Pipe Nipples Company, Inc.,"* dated June 30, 2010. On July 13, 2010, the Department issued supplemental section D questionnaires to Ternium, TUNA, and Mueller. On August 20, 2010, Ternium, TUNA, and Mueller each submitted a response to the section

¹ Though U.S. Steel's April 8, 2010, allegation was directed at Mueller, we required Mueller to obtain and report COP information from TUNA and Ternium because these suppliers produced subject merchandise sold by Mueller.
