# NUCLEAR REGULATORY COMMISSION

## Advisory Committee on Reactor Safeguards (ACRS); Meeting of the ACRS Subcommittee on Future Plant Designs

The ACRS Subcommittee on Future Plant Designs will hold a meeting on April 5, 2011, at 11545 Rockville Pike, Room T–2B1, Rockville, Maryland.

The entire meeting will be open to public attendance, with the exception of a portion that may be closed to protect information that is proprietary pursuant to 5 U.S.C. 552b(c)(4).

The agenda for the subject meeting shall be as follows:

Tuesday, April 5, 2011, 10 a.m. until

The Subcommittee will review the NRC Staff's High Temperature Gas Cooled Reactor (HTGE) NRC Research Plan. The Subcommittee will hear presentations by and hold discussions with representatives of the NRC staff and other interested persons regarding this matter. The Subcommittee will gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as appropriate, for deliberation by the Full Committee.

Members of the public desiring to provide oral statements and/or written comments should notify the Designated Federal Official (DFO), Maitri Banerjee (Telephone 301-415-6973 or E-mail Maitr.Banerjee@nrc.gov) five days prior to the meeting, if possible, so that appropriate arrangements can be made. Thirty-five hard copies of each presentation or handout should be provided to the DFO thirty minutes before the meeting. In addition, one electronic copy of each presentation should be emailed to the DFO one day before the meeting. If an electronic copy cannot be provided within this timeframe, presenters should provide the DFO with a CD containing each presentation at least thirty minutes before the meeting. Electronic recordings will be permitted only during those portions of the meeting that are open to the public. Detailed procedures for the conduct of and participation in ACRS meetings were published in the Federal Register on October 21, 2010 (75 FR 65038-65039).

Detailed meeting agendas and meeting transcripts are available on the NRC Web site at http://www.nrc.gov/reading-rm/doc-collections/acrs. Information regarding topics to be discussed, changes to the agenda, whether the meeting has been canceled or rescheduled, and the time allotted to

present oral statements can be obtained from the Web site cited above or by contacting the identified DFO.

Moreover, in view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with these references if such rescheduling would result in a major inconvenience.

Dated: March 16, 2011.

## Advisory Committee on Reactor Safeguards (ACRS); Meeting of The ACRS Subcommittee on Materials, Metallurgy And Reactor Fuels; Notice of Meeting

The ACRS Subcommittee on Materials, Metallurgy and Reactor Fuels will hold a meeting on April 6, 2011, Room T–2B3, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Wednesday, April 6, 2011—1:30 p.m.

The Subcommittee will review ongoing research activities associated with consequential steam generator tube rupture (C–SGTR). The Subcommittee will hear presentations by and hold

discussions with representatives of the NRC staff and other interested persons regarding this matter. The Subcommittee will gather information, analyze relevant issues and facts, and formulate proposed positions and actions, as appropriate, for deliberation

by the Full Committee.

Members of the public desiring to provide oral statements and/or written comments should notify the Designated Federal Official (DFO), Christopher L. Brown (Telephone 301-415-7111 or Email Christopher.Brown@nrc.gov) five days prior to the meeting, if possible, so that appropriate arrangements can be made. Thirty-five hard copies of each presentation or handout should be provided to the DFO thirty minutes before the meeting. In addition, one electronic copy of each presentation should be emailed to the DFO one day before the meeting. If an electronic copy cannot be provided within this timeframe, presenters should provide

the DFO with a CD containing each presentation at least thirty minutes before the meeting. Electronic recordings will be permitted only during those portions of the meeting that are open to the public. Detailed procedures for the conduct of and participation in ACRS meetings were published in the **Federal Register** on October 21, 2010, (75 FR 65038–65039).

Detailed meeting agendas and meeting transcripts are available on the NRC Web site at http://www.nrc.gov/readingrm/doc-collections/acrs. Information regarding topics to be discussed, changes to the agenda, whether the meeting has been canceled or rescheduled, and the time allotted to present oral statements can be obtained from the website cited above or by contacting the identified DFO. Moreover, in view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with these references if such rescheduling would result in a major inconvenience.

Dated: March 15, 2011.

BILLING CODE 7590-01-P

# NUCLEAR REGULATORY COMMISSION

[NRC-2011-0062]

## Withdrawal of Regulatory Guide 8.5

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Withdrawal of Regulatory Guide 8.5, "Criticality and Other Interior Evacuation Signals."

#### FOR FURTHER INFORMATION CONTACT:

Sheena A. Whaley, U.S. Nuclear Regulatory Commission, Office of Nuclear Material Safety and Safeguards, Division of Fuel Cycle Safety and Safeguards, Technical Support Branch, Washington, DC 20555–0001, telephone: 301–492–3200; or by e-mail to Sheena.Whaley@nrc.gov.

#### SUPPLEMENTARY INFORMATION:

#### I. Introduction

The U.S. Nuclear Regulatory
Commission (NRC) is withdrawing
Regulatory Guide 8.5, "Criticality and
Other Interior Evacuation Signals,"
Revision 1, issued March 1981.
Regulatory Guide 8.5 endorses the
American National Standards Institute/
American Nuclear Society (ANSI/ANS)
Standard N2.3–1979 "Immediate
Evacuation Signal for Use in Industrial
Installations," published September 13,
1979.

In 1986, the ANS Standards Subcommittee combined ANSI/ANS– N2.3–1979 with ANSI/ANS–8.3–1986, "Criticality Accident Alarm System" and withdrew ANSI/ANS–N2.3–1979. In December 2010 the NRC issued Revision 2 of Regulatory Guide 3.71, "Nuclear Criticality Safety Standards for Fuels and Material Facilities" which endorses multiple ANSI/ANS standards including ANSI/ANS–8.3–1997, (Reaffirmed in 2003).

The combining of ANSI/ANS–N2.3 and ANSI/ANS–8.3 by the ANS and the

endorsement of ANSI/ANS–8.3 by the NRC in Revision 2 of Regulatory Guide 3.71 has made Regulatory Guide 8.5 unnecessary. Consequently, the NRC is withdrawing it and recommends using the guidance in ANSI/ANS–8.3–1997 as endorsed with exceptions by Revision 2 of Regulatory Guide 3.71 instead.

#### **II. Further Information**

The withdrawal of Regulatory Guide 8.5 does not alter any prior or existing licensing commitments based on their use. The guidance provided in this regulatory guide is no longer necessary. Regulatory guides may be withdrawn when their guidance no longer provides useful information, or is superseded by technological, congressional actions, or other events.

Guides are revised for a variety of reasons, and the withdrawal of a regulatory guide should be thought of as the final revision of the guide. Although a regulatory guide is withdrawn, current licensees may continue to use it, and withdrawal does not affect any existing licenses or agreements. Withdrawal means that the guide should not be used for future NRC licensing activities. Changes to existing licenses can be accomplished using other regulatory products.

Regulatory guides and publicly available NRC documents are available electronically through the Electronic Reading Room on the NRC's public Web site at: http://www.nrc.gov/reading-rm/doc-collections/. The documents can also be viewed on-line for free or printed for a fee in the NRC's Public Document Room (PDR) at 11555 Rockville Pike, Rockville, MD; the mailing address is USNRC PDR, Washington, DC 20555–0001; telephone: 301–415–4737, or 1–800–397–4209; fax 301–415–3548; or by e-mail to pdr.resource@nrc.gov.

Regulatory guides are not copyrighted, and NRC approval is not required to reproduce them.

Dated at Rockville, Maryland, this 3rd day of February, 2011.

For the Nuclear Regulatory Commission.
