SUPPLEMENTARY INFORMATION:

I. Abstract

The BIA is seeking renewal of the approval for the information collection conducted under the 25 U.S.C. 43, 36 Stat. 472, *inter alia*, and implementing regulations, at 25 CFR 5, regarding verification of Indian preference for employment. The purpose of Indian preference is to encourage qualified Indian persons to seek employment

with the BIA and Indian Health Service (IHS) by offering preferential treatment to qualified candidates of Indian heritage. BIA collects the information to ensure compliance with Indian preference hiring requirements. The information collection relates only to individuals applying for employment with the BIA and the IHS. The tribe's involvement is limited to verifying membership information submitted by the applicant. The collection of information allows certain persons who are of Indian descent to receive preference when appointments are made to vacancies in positions with the BIA and IHS as well as in any unit that has been transferred intact from the BIA to a Bureau or office within the Department of the Interior or the Department of Health and Human Services and that continues to perform functions formerly performed as part of the BIA and IHS. You are eligible for preference if (a) you are a member of a federally recognized Indian tribe; (b) you are a descendant of a member and you were residing within the present boundaries of any Indian reservation on June 1, 1934; (c) you are an Alaska Native; or (d) you possess one-half degree Indian blood derived from tribes that are indigenous to the United States.

II. Request for Comments

BIA requests that you send your comments on this collection to the location listed in the **ADDRESSES** section. Your comments should address: (a) The necessity of the information collection for the proper performance of the agencies, including whether the information will have practical utility; (b) the accuracy of our estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents, such as through the use of automated collection techniques or other forms of information technology.

Please note that an agency may not sponsor or conduct, and an individual need not respond to, a collection of information unless it has a valid OMB Control Number. This information collection expires August 31, 2011.

It is our policy to make all comments available to the public for review at the location listed in the **ADDRESSES** section during the hours of 9 a.m.–5 p.m., Eastern Time, Monday through Friday except for legal holidays. Before including your address, phone number, e-mail address or other personally

SUPPLEMENTARY INFORMATION:

I. Abstract

BIA is seeking renewal of the approval for the information collection conducted under the numerous laws authorizing BIA to administer program services to Indians, provided that the individual possess a minimum degree of Indian or Alaska Native blood. When applying for program services authorized by these laws, an applicant must provide acceptable documentation to prove that he or she meets the minimum required degree of Indian or Alaska Native blood. Currently, the BIA certifies an individual's degree of Indian or Alaska Native blood if the individual can provide sufficient information to prove his or her identity and prove his or her descent from an Indian ancestor(s) listed on historic documents approved by the Secretary of the Interior that include blood degree information. To obtain the CDIB, the applicant must fill out an application form and provide supporting documents. BIA is seeking renewal of OMB approval to collect the information necessary to issue CDIBs. One minor non-substantive change is being made to the CDIB application form, to clarify where the applicant should submit the form.

II. Request for Comments

BIA requests that you send your comments on this collection to the location listed in the **ADDRESSES** section. *Your comments should address:* (a) The necessity of the information collection for the proper performance of the agencies, including whether the information will have practical utility; (b) the accuracy of our estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of

the information on the respondents, such as through the use of automated collection techniques or other forms of information technology.

III. Data

OMB Control Number: 1076–0153.

Title: Certificate of Degree of Indian or Alaska Native Blood.

Brief Description of Collection:

Submission of this information allows BIA to verify the applicant's Indian ancestry and to determine the applicant's degree of Indian blood. The applicant will provide information, such as birth certificates, death certificates, and probates to document the applicant's descent from an Indian ancestor(s). Response to the information collection is voluntary. BIA uses historic roll(s) or other documents that list the ancestors' name, gender, date of birth, date of death, blood degree and other identifying information to verify the applicant's descent. After the information and supporting documentation has been verified, BIA will issue a CDIB to the applicant. The applicant may use the CDIB to help document their eligibility for BIA programs and services. Other agencies may also rely on a CDIB as proof of eligibility for certain programs and services. CDIBs do not establish membership in an Indian tribe. A CDIB is not an enrollment document.

Type of Review: Extension without change of a currently approved collection.

Respondents: Individuals.

Number of Respondents: 154, 980 per year, on average.

Total Number of Responses: 154, 980 per year, on average.
