BILLING CODE 3410-02-P

DEPARTMENT OF AGRICULTURE**Animal and Plant Health Inspection Service****9 CFR Parts 92, 93, 94, 96, and 98**

[Docket No. APHIS-2009-0035]

RIN 0579-AD05

Lists of Regions Classified With Respect to Certain Animal Diseases and States Approved To Receive Certain Imported Horses

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Proposed rule.

SUMMARY: We are proposing to remove lists of regions classified with respect to certain animal diseases and pests from

our animal and animal product import regulations and, instead, post them to the Animal and Plant Health Inspection Service's (APHIS') Web site. The regulations would provide the Web address and would explain APHIS' criteria and process for adding a region to, or removing a region from, each of the lists. The technical criteria APHIS uses to evaluate whether a region should be added to or removed from a list would not change. We are also proposing to remove lists of States approved to receive horses imported from foreign regions where we consider contagious equine metritis to exist and, instead, post approved States to our Web site. The criteria for approving a State would not change. We would continue to provide an opportunity for public comment on changes to the lists. This action would enable the Agency to respond more quickly to changes in the disease status of regions.

DATES: We will consider all comments that we receive on or before August 1, 2011.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/fdmspublic/component/main?main=DocketDetail&d=APHIS-2009-0035> to submit or view comments and to view supporting and related materials available electronically.

- *Postal Mail/Commercial Delivery:* Please send one copy of your comment to Docket No. APHIS-2009-0035, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2009-0035.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the

USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: Dr. Laurel Voelker, Regional Evaluation Services—Import, National Center for Import and Export, VS, APHIS, 920 Main Campus Drive, Suite 150, Raleigh, NC 27606; (919) 855-7736.

SUPPLEMENTARY INFORMATION:

Background

The regulations in 9 CFR part 94 govern the importation into the United States of certain animals and animal products in order to prevent the introduction of specified livestock diseases into the United States. The regulations currently list regions affected with or free of various diseases of livestock. The regulations also list Member States of the European Union (EU) that are part of the APHIS-defined region of the European Union that we recognize as low risk for classical swine fever (CSF). The regulations in 9 CFR part 93 govern the importation of animals into the United States. Part 93 also contains lists of regions affected with certain diseases of livestock and lists of regions where screwworm is considered to exist. It also contains lists of States that are approved by APHIS to receive stallions or mares over 731 days of age that are imported under specified conditions from regions affected with contagious equine metritis (CEM). The regulations in 9 CFR part 98 govern the importation into the United States of animal embryos and semen. Part 98 also lists the Member States of the European Union (EU) that are part of the APHIS-defined region of the European Union that we recognize as low risk for CSF. Each time we add or remove a Member State or other region from a list in the regulations, we must do so through rulemaking in order to change the Code of Federal Regulations.

We are proposing to remove the lists of States approved to receive stallions or mares from regions affected with CEM, the lists of Member States, and most of the other lists of regions from parts 93, 94, and 98 and instead post them to APHIS' Web site. The regulations would provide the Web address and a contact for requesting copies of the lists by mail, fax, or email. The regulations also

would explain APHIS' process for adding or removing a Member State or other region to or from the lists. The technical criteria APHIS uses to evaluate whether a region should be added to or removed from a list would not change. With respect to States approved to receive stallions or mares from regions affected with CEM, the regulations currently set forth the conditions States must meet in order to be approved. These conditions would not change.

The proposed action would allow more timely changes to the lists. This should be particularly useful when a region must be added to a list of regions affected with a disease. APHIS considers a disease to exist in a region when we receive reports of an outbreak of the disease in the region from veterinary officials of the national government of the region and/or the World Organization for Animal Health (the OIE), or from another source that the Administrator determines to be reliable; e.g., APHIS inspectors based in foreign countries.

As now, when APHIS determines that a disease is present in a region and presents a potential threat to animal health in the United States, we would take immediate action to restrict imports from that region. We would no longer need to follow that action with an interim rule in the **Federal Register** to change text in the regulations. Instead, we would immediately list the region on the APHIS Web site and announce the listing through a notice, rather than a rule, in the **Federal Register**. The notice would provide an opportunity for public comment.

We would add a region to a list of regions we recognize as free of a particular disease only after completing an evaluation and making it available for public comment. We would do this through a notice in the **Federal Register**. Following the close of the comment period, we would publish another notice responding to comments and announcing APHIS' decision. The criteria for evaluating a region's disease status, as outlined in 9 CFR part 92, "Importation of Animals and Animal Products: Procedures for Requesting Recognition of Regions," would not change. Additional details about the factors APHIS reviews to determine a region's status may be found on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/reg_request.shtml.

In conjunction with our proposed removal of lists of regions from the regulations, we are proposing to amend part 92 to remove language that states we will do rulemaking to add or remove

a region from one of the lists. We are also proposing to amend references in 9 CFR parts 93, 96, and 98 to the lists of regions in part 94. Instead of referring to regions listed "in" the regulations, we would refer to regions listed "under" the regulations.

We are also proposing to replace the term "infected" with the term "affected" in several places where the term is used to describe a region where a disease exists. We generally use the term "infected" when referring to an animal that has a disease, and "affected" when referring to a region in which the disease exists.

We are not proposing in this document to remove the lists in §§ 94.6 and 94.26 of regions free of exotic Newcastle disease or regions where highly pathogenic avian influenza subtype H5N1 is considered to exist because we are addressing the process for amending these lists in a separate rulemaking (see APHIS Docket 2006-0074 at <http://www.regulations.gov/fdmspublic/component/main?main=DocketDetail&d=APHIS-2006-0074>). Similarly, this proposal will not address the lists in § 94.18 of regions from which imports are restricted because of bovine spongiform encephalopathy (BSE) because we are currently evaluating our BSE regulations.

Executive Order 12866 and Regulatory Flexibility Act

This proposed rule has been determined to be not significant for the purposes of Executive Order 12866 and, therefore, has not been reviewed by the Office of Management and Budget.

In accordance with the Regulatory Flexibility Act, we have analyzed the potential economic effects of this action on small entities. Currently, rulemaking is required to amend the Code of Federal Regulations to change the disease or pest status of a region. The basis for such a change is either an outbreak of a disease or pest in a foreign region that results in a downgrade in status or an evaluation by APHIS that provides a basis for an upgrade in status. The changes we are proposing would remove the need for rulemaking to change the disease or pest status of a foreign region, while still providing opportunity for public comment on the basis for the action. This action would enable APHIS to respond more quickly to changes in the disease or pest status of foreign regions. We are not proposing to change our criteria for recognizing a region as free of or affected with a disease or pest, or to add or remove any Member State or other region to or from the lists as part of this rulemaking.

Similarly, rulemaking is required whenever APHIS approves a State to receive stallions or mares over 731 days of age from regions affected with CEM. The changes we are proposing would remove the need for rulemaking while still providing opportunity for public comment on the basis for the action. We are not proposing to change our criteria for approving a State to receive stallions or mares from CEM-affected regions.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action would not have a significant economic impact on a substantial number of small entities.

Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. If this proposed rule is adopted: (1) No retroactive effect will be given to this rule, and (2) administrative proceedings will not be required before parties may file suit in court challenging this rule.

Paperwork Reduction Act

This proposed rule contains no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

List of Subjects

9 CFR Part 92

Animal diseases, Imports, Livestock, Poultry and poultry products, Region, Reporting and recordkeeping requirements.

9 CFR Part 93

Animal diseases, Imports, Livestock, Poultry and poultry products, Quarantine, Reporting and recordkeeping requirements.

9 CFR Part 94

Animal diseases, Imports, Livestock, Meat and meat products, Milk, Poultry and poultry products, Reporting and recordkeeping requirements.

9 CFR Part 96

Imports, Livestock, Reporting and recordkeeping requirements.

9 CFR Part 98

Animal diseases, Imports.

Accordingly, we propose to amend 9 CFR parts 92, 93, 94, 96, and 98 as follows:

PART 92—IMPORTATION OF ANIMALS AND ANIMAL PRODUCTS: PROCEDURES FOR REQUESTING RECOGNITION OF REGIONS

1. The authority citation for part 92 continues to read as follows:

Authority: 7 U.S.C. 1622 and 8301–8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.4.

2. Section 92.2 is amended as follows:

- a. In paragraph (d), by removing the word “rulemaking”.
- b. By revising paragraphs (e) and (f) to read as set forth below.

§ 92.2 Application for recognition of the animal health status of a region.

* * * * *

(e) If, after review and evaluation of the information submitted, APHIS believes the request can be safely granted, APHIS will indicate its intent and make its evaluation available for public comment through a document published in the **Federal Register**.

(f) APHIS will provide a period of time during which the public may comment on its evaluation. During the comment period, the public will have access to the information upon which APHIS based its evaluation, as well as the evaluation itself. Once APHIS has reviewed all comments received, it will make a final determination regarding the request and will publish that determination in the **Federal Register**.

* * * * *

3. Section 92.4 is revised to read as follows:

§ 92.4 Reestablishment of a region's disease-free status.

This section applies to regions that are designated under this subchapter as free of a specific animal disease and then experience an outbreak of that disease.

(a) *Interim designation.* If a region recognized as free of a specified animal disease in this subchapter experiences an outbreak of that disease, APHIS will take immediate action to prohibit or restrict imports of animals and animal products from that region. The prohibitions or restrictions may be imposed on only a portion of the region previously recognized as free of a disease. In these cases, APHIS will inform the public as soon as possible through notice in the **Federal Register** of the basis for its decision to prohibit or restrict imports from the smaller area of that region previously recognized as free.

(b) *Reassessment of the disease situation.* (1) Following removal of disease-free status from all or part of a region, APHIS may reassess the disease

situation in that region to determine whether it is necessary to continue the interim prohibitions or restrictions. In reassessing a region's disease status, APHIS will take into consideration the standards of the World Organization for Animal Health Office (OIE) for reinstatement of disease-free status, as well as all relevant information obtained through public comments or collected by or submitted to APHIS through other means.

(2) Prior to taking any action to relieve prohibitions or restrictions, APHIS will make information regarding its reassessment of the region's disease status available to the public for comment. APHIS will announce the availability of this information in the **Federal Register**.

(c) *Determination.* Based on the reassessment conducted in accordance with paragraph (b) of this section, including comments regarding the reassessment information, APHIS will take one of the following actions:

(1) Publish a notice of its decision to reinstate the disease-free status of the region, or a portion of the region;

(2) Publish a notice of its decision to continue the prohibitions or restrictions on the imports of animals and animal products from that region; or

(3) Publish another document in the **Federal Register** for comment.

PART 93—IMPORTATION OF CERTAIN ANIMALS, BIRDS, FISH, AND POULTRY, AND CERTAIN ANIMAL, BIRD, AND POULTRY PRODUCTS; REQUIREMENTS FOR MEANS OF CONVEYANCE AND SHIPPING CONTAINERS

4. The authority citation for part 93 continues to read as follows:

Authority: 7 U.S.C. 1622 and 8301–8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.4.

5. Section 93.301 is amended as follows:

a. By revising paragraph (c)(1), paragraphs (h)(6) and (h)(7), and paragraph (j), introductory text, to read as set forth below.

b. In paragraphs (c)(2)(ix), (d)(3), (e)(1) introductory text, (e)(2)(i), (f)(10)(i), (g) introductory text, and (h) introductory text, by removing the words “listed in” each time they appear and adding in their place the words “listed under”.

§ 93.301 General prohibitions; exceptions.

* * * * *

(c) * * *

(1) Importation prohibited. Except as provided in paragraph (c)(2) of this section, notwithstanding the other provisions of this part concerning the

importation of horses into the United States, the importation of all horses from any region that APHIS considers to be affected with contagious equine metritis (CEM) and the importation of all horses that have been in any such region within the 12 months immediately preceding their being offered for entry into the United States is prohibited.

(i) A list of regions that APHIS considers to be affected with CEM is maintained on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(ii) APHIS will add a region to the list upon determining that the disease exists in the region based on reports APHIS receives of outbreaks of the disease from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable, or upon determining that the region trades horses freely with a region in which CEM exists without testing for CEM. In the case of a region formerly not on this list that is added due to an outbreak, the region may be removed from the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4 of this subchapter.

* * * * *

(h) * * *

(6) A list of States approved by APHIS to receive stallions over 731 days of age imported under paragraph (e) of this section is maintained on the APHIS site at http://www.aphis.usda.gov/import_export/animals/downloads/states_app_conduct_cem_testing.pdf. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(7) A list of States approved by APHIS to receive mares over 731 days of age imported under paragraph (e) of this section is maintained on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/downloads/states_app_conduct_cem_testing.pdf. Copies of the list will also be available via postal mail, fax, or e-mail upon request to the Sanitary Trade Issue

Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

* * * * *

(j) *Examination and treatment for screwworm.* Horses from regions where APHIS considers screwworm to exist may be imported into the United States only if they meet the requirements in paragraphs (j)(1) through (j)(7) of this section and all other applicable requirements of this part. APHIS will maintain a list of regions where screwworm is considered to exist on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737. APHIS will add a region to the list upon determining that screwworm exists in the region based on reports APHIS receives of detections of the pest from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable. APHIS will remove a region from the list after conducting an evaluation of the region in accordance with § 92.2 of this subchapter and finding that screwworm is not present in the region. In the case of a region formerly not on this list that is added due to a detection, the region may be removed from the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4 of this subchapter.

* * * * *

6. In § 93.308, paragraphs (a)(1) and (a)(2) are revised to read as follows:

§ 93.308 Quarantine requirements.

(a) * * *

(1) Except as provided in §§ 93.317 and 93.324 and in paragraph (a)(1)(i) of this section, horses intended for importation from the Western Hemisphere shall be quarantined at a port designated in § 93.303 for not less than 7 days to be evaluated for signs of Venezuelan equine encephalomyelitis.

(i) Horses imported from regions of the Western Hemisphere that APHIS considers to be free of Venezuelan equine encephalomyelitis are exempt from the requirements of this paragraph. A list of regions that APHIS has declared free of Venezuelan equine encephalomyelitis is maintained on the

APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_import/equine/equine_import_quarantine.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(ii) APHIS will add a region to the list of those it has declared free of Venezuelan equine encephalomyelitis after it conducts an evaluation of the region in accordance with § 92.2 of this subchapter and finds that the disease is not present. In the case of a region formerly on this list that is removed due to an outbreak, the region may be returned to the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4 of this subchapter. APHIS will remove a region from the list of those it has declared free of Venezuelan equine encephalomyelitis upon determining that the disease exists in the region based on reports APHIS receives of outbreaks of the disease from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable.

(2) Horses intended for importation from regions APHIS considers to be affected with African horse sickness may enter the United States only at the port of New York, and must be quarantined at the New York Animal Import Center in Newburgh, New York, for at least 60 days. This restriction also applies to horses that have stopped in or transited a region considered affected with African horse sickness.

(i) A list of regions that APHIS considers affected with African horse sickness is maintained on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(ii) APHIS will add a region to the list upon determining that the disease exists in the region based on reports APHIS receives of outbreaks of the disease from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable. In the case of a region formerly not on this list that is added

due to an outbreak, the region may be removed from the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4 of this subchapter.

* * * * *

7. In § 93.405, paragraph (a)(3) introductory text is revised to read as follows:

§ 93.405 Health certificate for ruminants.

(a) * * *

(3) If the ruminants are from any region where screwworm is considered to exist, the ruminants may be imported into the United States only if they meet the requirements of paragraphs (a)(3)(i) through (a)(3)(iv) of this section and all other applicable requirements of this part. APHIS will maintain a list of regions where screwworm is considered to exist on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737. APHIS will add a region to the list upon determining that screwworm exists in the region based on reports APHIS receives of detections of the pest from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable. APHIS will remove a region from the list after conducting an evaluation of the region in accordance with § 92.2 of this subchapter and finding that screwworm is not present in the region. In the case of a region formerly not on this list that is added due to a detection, the region may be removed from the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4 of this subchapter.

* * * * *

8. In § 93.505, paragraph (b) introductory text is revised to read as follows:

§ 93.505 Certificate for swine.

* * * * *

(b) Swine from any region where screwworm is considered to exist may only be imported into the United States if they meet the requirements of paragraphs (b)(1) through (b)(4) of this section and all other applicable requirements of this part. APHIS will maintain a list of regions where screwworm is considered to exist on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737. APHIS will add a region to the list upon determining that screwworm exists in the region based on reports APHIS receives of detections of the pest from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable. APHIS will remove a region from the list after conducting an evaluation of the region in accordance with § 92.2 of this subchapter and finding that screwworm is not present in the region. In the case of a region

www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737. APHIS will add a region to the list upon determining that screwworm exists in the region based on reports APHIS receives of detections of the pest from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable. APHIS will remove a region from the list after conducting an evaluation of the region in accordance with § 92.2 of this subchapter and finding that screwworm is not present in the region. In the case of a region formerly not on this list that is added due to a detection, the region may be removed from the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4 of this subchapter.

* * * * *

9. In § 93.600, paragraph (a) introductory text is revised to read as follows:

§ 93.600 Importation of dogs.

(a) *All dogs.* Dogs from any region of the world where screwworm is considered to exist may only be imported into the United States if they meet the requirements of paragraphs (a)(1) and (a)(2) of this section and all other applicable requirements of this part. APHIS will maintain a list of regions where screwworm is considered to exist on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737. APHIS will add a region to the list upon determining that screwworm exists in the region based on reports APHIS receives of detections of the pest from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable. APHIS will remove a region from the list after conducting an evaluation of the region in accordance with § 92.2 of this subchapter and finding that screwworm is not present in the region. In the case of a region

formerly not on this list that is added due to a detection, the region may be removed from the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4 of this subchapter.

* * * * *

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, EXOTIC NEWCASTLE DISEASE, AFRICAN SWINE FEVER, CLASSICAL SWINE FEVER, SWINE VESICULAR DISEASE, AND BOVINE SPONGIFORM ENCEPHALOPATHY: PROHIBITED AND RESTRICTED IMPORTATIONS

10. The authority citation for part 94 continues to read as follows:

Authority: 7 U.S.C. 450, 7701–7772, 7781–7786, and 8301–8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.4.

11. Section § 94.0 is amended by revising the definition of *APHIS-defined EU CSF region* to read as follows:

§ 94.0 Definitions.

* * * * *

APHIS-defined EU CSF region. A single region of the European Union recognized by APHIS as low risk for classical swine fever.

(1) A list of Member States included in the region is maintained on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(2) APHIS will add a Member State to the region after it conducts an evaluation of the area to be added in accordance with § 92.2 of this subchapter and finds that the risk profile for the Member State is equivalent with respect to classical swine fever to the risk profile for the region it is joining.

* * * * *

12. In § 94.1, paragraph (a) is revised to read as follows:

§ 94.1 Regions where rinderpest or foot-and-mouth disease exists; importations prohibited.

(a) APHIS considers rinderpest or foot-and-mouth disease to exist in all regions of the world except those declared free of one or both of these diseases by APHIS.

(1) A list of regions that APHIS has declared free of rinderpest and a list of

regions APHIS has declared free of foot and mouth disease are maintained on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(2) APHIS will add a region to the list of those it has declared free of rinderpest or foot-and-mouth disease, or both, after it conducts an evaluation of the region in accordance with § 92.2 of this subchapter and finds that the disease, or diseases, are not present. In the case of a region formerly on this list that is removed due to an outbreak, the region may be returned to the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4 of this subchapter. APHIS will remove a region from the list of those it has declared free of rinderpest or foot-and-mouth disease upon determining that the disease exists in the region based on reports APHIS receives of outbreaks of the disease from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable.

* * * * *

§ 94.2 [Amended]

13. Section § 94.2 is amended by removing the word "infected" each time it appears and adding in its place the word "affected".

14. Section § 94.8 is amended as follows:

a. By redesignating paragraphs (a), (b), and (c) as paragraphs (b), (c), and (d), respectively.

b. By removing the introductory text, including footnote 8, and adding a new paragraph (a) to read as set forth below.

c. In redesignated paragraphs (b)(3)(i) and (b)(4) introductory text, by removing the citation to "(a)(5)" and adding in its place a citation to "(b)(5)".

d. In redesignated paragraph (b)(5) introductory text, by redesignating footnote 9 as footnote 8.

e. In redesignated paragraph (c), by removing the citation to "(a)(2)" and adding in its place a citation to "(b)(2)".

§ 94.8 Pork and pork products from regions where African swine fever exists or is reasonably believed to exist.

(a) African swine fever exists or the Administrator has reason to believe that African swine fever exists in the regions

listed under paragraph (a)(2) of this section.

(1) The Administrator bases the reason to believe African swine fever exists in a region on the following factors:

(i) When a region allows the importation of host animals, pork or pork products, or vectors of African swine fever from a region in which African swine fever exists under conditions which the Administrator has determined are less stringent than those prescribed by this chapter for importing host animals, pork or pork products, or vectors of African swine fever into the United States from a region in which African swine fever exists; or

(ii) When a region allows the importation or use of African swine fever virus or cultures under conditions which the Administrator has determined are less stringent than those prescribed by this chapter for the importation or use of African swine fever virus or cultures into or within the United States; or

(iii) When a region has a contiguous border with, or is subject to commercial exchange or natural spread of African swine fever host animals, host materials, or vectors with, another region with known outbreaks of African swine fever; or

(iv) A region's lack of a disease detection, control, or reporting system capable of detecting or controlling African swine fever and reporting it to the United States in time to allow the United States to take appropriate action to prevent the introduction of African swine fever into the United States; or

(v) Any other fact or circumstance found to exist which constitutes a risk of introduction of African swine fever into the United States.

(2) A list of regions where African swine fever exists or the Administrator has reason to believe that African swine fever exists is maintained on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(3) APHIS will add a region to the list upon determining that the disease exists in the region based on reports APHIS receives of outbreaks of the disease from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable, or upon determining that

there is reason to believe the disease exists in the region. APHIS will remove a region from the list after conducting an evaluation of the region in accordance with § 92.2 of this subchapter and finding that the disease is not present and that there is no reason to believe the disease is present. In the case of a region formerly not on this list that is added due to an outbreak, the region may be removed from the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4 of this subchapter.

* * * * *

15. Section 94.9 is amended as follows:

a. By removing footnote 10 in paragraph (a) and redesignating footnote 11 in paragraph (c)(3) and footnote 12 in paragraph (e)(2) introductory text as footnotes 10 and 11, respectively.

b. By revising paragraph (a) to read as set forth below.

c. By adding a new footnote 9 at the end of paragraph (c) introductory text to read as set forth below.

d. In paragraphs (c)(1)(iii)(C)(1) and (c)(1)(iii)(C)(2), by removing the words "in paragraph (a)" and adding in their place the words "under paragraph (a)".

§ 94.9 Pork and pork products from regions where classical swine fever exists.

(a) APHIS considers classical swine fever to exist in all regions of the world except those declared free of the disease by APHIS.

(1) A list of regions that APHIS has declared free of classical swine fever is maintained on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(2) APHIS will add a region to the list of those it has declared free of classical swine fever after it conducts an evaluation of the region in accordance with § 92.2 of this subchapter and finds that the disease is not present. In the case of a region formerly on this list that is removed due to an outbreak, the region may be returned to the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4 of this subchapter. APHIS will remove a region from the list of those it has declared free of classical swine fever upon determining that the disease exists in the region based on reports APHIS receives of outbreaks of the disease from veterinary

officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable.

* * * * *

(c) * * * 9

⁹ See also other provisions of this part and parts 93, 95, and 96 of this chapter, and part 327 of this title, for other prohibitions and restrictions upon the importation of swine and swine products.

* * * * *

16. In § 94.10, paragraph (a) is revised to read as follows:

§ 94.10 Swine from regions where classical swine fever exists.

(a) APHIS considers classical swine fever to exist in all regions of the world except those declared free of the disease by APHIS.

(1) A list of regions that APHIS has declared free of classical swine fever is maintained on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(2) APHIS will add a region to the list of those it has declared free of classical swine fever after it conducts an evaluation of the region in accordance with § 92.2 of this subchapter and finds that the disease is not present. In the case of a region formerly on this list that is removed due to an outbreak, the region may be returned to the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4 of this subchapter. APHIS will remove a region from the list of those it has declared free of classical swine fever upon determining that the disease exists in the region based on reports APHIS receives of outbreaks of the disease from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable.

* * * * *

17. Section 94.11 is amended as follows:

a. By revising paragraph (a) to read as set forth below.

b. In paragraph (c) introductory text, by removing the words “regions designated in paragraph (a)” and adding in their place the words “any region listed under paragraph (a)(2)”.

c. In paragraph (c)(1), by removing the words “listed in § 94.1(a) as a region

infected with rinderpest or foot-and-mouth disease” and adding in their place the words “designated under § 94.1(a) as a region where rinderpest or foot-and-mouth disease exists”.

d. In paragraph (c)(2), by removing the word “infected” each time it appears and adding in its place the word “affected”.

e. In paragraph (c)(3), by removing the words “in § 94.1(a)(2)” and adding in their place the words “under § 94.1(a)”.

§ 94.11 Restrictions on importation of meat and other animal products from specified regions.

(a) The meat of ruminants or swine, and other animal products, and ship stores, airplane meals, and baggage containing such meat or animal products originating in any region listed as provided in paragraph (a)(2) of this section may not be imported into the United States unless the requirements in this section, in addition to other applicable requirements of chapter III of this title, are met. However, meat and meat products that meet the requirements of § 94.4 do not have to comply with the requirements of this section. As used in this section, the term “other animal product” means all parts of the carcass of any ruminant or swine, other than meat and articles regulated under part 95 or part 96 of this chapter.

(1) The regions listed under paragraph (a)(2) of this section have been declared free of rinderpest and foot-and-mouth disease by APHIS as provided in § 94.1(a) but supplement their national meat supply by the importation of fresh (chilled or frozen) meat of ruminants or swine from regions that APHIS considers to be affected with rinderpest or foot-and-mouth disease as provided in § 94.1(a); or have a common land border with regions considered to be affected with rinderpest or foot-and-mouth disease; or import ruminants or swine from regions considered to be affected with rinderpest or foot-and-mouth disease under conditions less restrictive than would be acceptable for importation into the United States. Thus, the meat may be commingled with the fresh (chilled or frozen) meat of animals from an affected region, resulting in an undue risk of introducing rinderpest or foot-and-mouth disease into the United States.

(2) A list of regions whose products are regulated under this section is maintained on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary

Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(3) APHIS will add a region to the list of those whose products are regulated under this section after conducting an evaluation of the region and determining that one or more of the circumstances described in paragraph (a)(1) of this section exists. APHIS will remove a region from the list upon conducting an evaluation of the region and determining that the circumstances in paragraph (a)(1) of this section no longer exist or upon determining that rinderpest or foot-and-mouth disease exists in the region.

* * * * *

18. Section 94.12 is amended as follows:

a. By revising paragraph (a) to read as set forth below.

b. In paragraph (b)(1)(iii)(B), by redesignating footnote 13 as footnote 12.

c. In paragraph (b)(1)(iv)(B)(1), by removing the word “infected” and adding in its place the word “affected”; and by removing the words “in paragraph (a)” and adding in their place the words “under paragraph (a)(1)”.

d. In paragraph (b)(1)(iv)(B)(2)(i), by removing the word “infected” and adding in its place the word “affected”.

e. In paragraph (b)(1)(iv)(B)(2)(ii), by removing the words “in paragraph (a)” and adding in their place the words “under paragraph (a)(1)”.

f. In paragraph (b)(3), by redesignating footnote 14 as footnote 13.

g. By revising redesignated footnote 13 in paragraph (b)(3) to read “¹³ See footnote 10.”

§ 94.12 Pork and pork products from regions where swine vesicular disease exists.

(a) APHIS considers swine vesicular disease to exist in all regions of the world except those declared free of the disease by APHIS.

(1) A list of regions that APHIS has declared free of swine vesicular disease is maintained on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or e-mail upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(2) APHIS will add a region to the list of those it has declared free of swine vesicular disease after it conducts an evaluation of the region in accordance with § 92.2 of this subchapter and finds that the disease is not present. In the

case of a region formerly on this list that is removed due to an outbreak, the region may be returned to the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4 of this subchapter. APHIS will remove a region from the list of those it has declared free of swine vesicular disease upon determining that the disease exists in the region based on reports APHIS receives of outbreaks of the disease from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable.

* * * * *

19. Section 94.13 is amended as follows:

a. By redesignating paragraphs (a) and (b) as paragraphs (b) and (c), respectively.

b. By designating the introductory text as paragraph (a) and revising newly designated paragraph (a) to read as set forth below.

c. By revising redesignated paragraph (c)(1) to read as set forth below.

d. In redesignated paragraph (c)(2), by removing the words "in § 94.12" and adding in their place the words "under § 94.12(a)".

§ 94.13 Restrictions on importation of pork or pork products from specified regions.

(a) The pork or pork products and ship's stores, airplane meals, and baggage containing pork or pork products, other than those articles regulated under part 95 or part 96 of this chapter, produced in any region listed under paragraph (a)(2) of this section may not be imported into the United States unless the requirements of this section, in addition to other applicable requirements of part 327 of this title, are met.

(1) The regions listed under paragraph (a)(2) of this section have been declared free of swine vesicular disease as provided in § 94.12(a) but supplement their national pork supply by the importation of fresh (chilled or frozen) meat of animals from regions where swine vesicular disease is considered to exist, or have a common border with such regions, or have trade practices that are less restrictive than are acceptable to the United States. Thus, the pork or pork products may be commingled with fresh (chilled or frozen) meat of animals from a region where swine vesicular disease is considered to exist, resulting in an undue risk of swine vesicular disease introduction into the United States.

(2) A list of regions whose products are regulated under this section is maintained on the APHIS Web site at

http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or e-mail upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700 River Road Unit 38, Riverdale, Maryland 20737.

(3) APHIS will add a region to the list of those whose products are regulated under this section after conducting an evaluation of the region and determining that one or more of the circumstances listed in paragraph (a)(1) of this section exists. APHIS will remove a region from the list upon conducting an evaluation of the region and determining that the circumstances in paragraph (a)(1) of this section no longer exist or upon determining that swine vesicular disease exists in the region.

* * * * *

(c) * * *

(1) The slaughtering establishment is not permitted to receive animals that originated in a region considered to have swine vesicular disease or that have ever been in a region in which swine vesicular disease existed.

* * * * *

§ 94.14 [Amended]

20. In § 94.14, paragraph (a) is amended by removing the words "listed in" and adding in their place the words "listed under".

21. Section 94.16 is amended as follows:

a. By revising paragraph (b) introductory text to read as set forth below.

b. In paragraph (b)(2), by redesignating footnote 15 as footnote 14.

c. By revising paragraph (c) introductory text and paragraph (d) to read as set forth below.

§ 94.16 Milk and milk products.

* * * * *

(b) Milk and milk products originating in, or shipped from, any region where rinderpest or foot-and-mouth disease is considered to exist under § 94.1(a) may be imported into the United States if they meet the requirements of paragraphs (b)(1), (b)(2), or (b)(3) of this section:

* * * * *

(c) Milk and milk products originating in and shipped from regions listed under § 94.1(a) as free of rinderpest and foot-and-mouth disease but which have entered a port or otherwise transited a region where APHIS considers either

disease to exist may not be imported into the United States unless:

* * * * *

(d) Except for milk and milk products imported from Canada, and except as provided in this paragraph, milk or milk products imported from a region listed under § 94.1(a) as free of rinderpest and foot-and-mouth disease must be accompanied by a certificate endorsed by a full-time, salaried veterinarian employed by the region of export. The certificate must state that the milk was produced and processed in a region listed under § 94.1(a) as free of rinderpest and foot-and-mouth disease, or that the milk product was processed in one such region from milk produced in another such region. The certificate must name the region in which the milk was produced and the region in which the milk or milk product was processed. Further, the certificate must state that, except for movement under seal as described in § 94.16(c), the milk or milk product has never been in a region in which rinderpest or foot-and-mouth disease exists. Milk or milk products from a region listed under § 94.1(a) as free of rinderpest and foot-and-mouth disease and that were processed in whole or in part from milk or milk products from a region not listed under § 94.1(a) as free of rinderpest and foot-and-mouth disease may be imported into the United States only in accordance with paragraph (b)(3) of this section.

* * * * *

§ 94.17 [Amended]

22. Section 94.17 is amended as follows:

a. Footnote 16 in paragraph (e) and footnote 17 in paragraph (p)(1) are redesignated as footnotes 15 and 16, respectively.

b. Redesignated footnote 16 is revised to read "16 See footnote 15."

§ 94.18 [Amended]

23. In § 94.18, footnote 18 in paragraph (c)(2) and footnote 19 in paragraph (d)(1) are redesignated as footnotes 17 and 18, respectively.

§ 94.24 [Amended]

24. Section § 94.24 is amended as follows:

a. In paragraphs (a)(1)(i) and (b)(2)(i), by removing the words "in §§ 94.9(a) and 94.10(a) as one" and adding in their place the words "under §§ 94.9(a) and 94.10(a) as a region".

b. In paragraph (a)(5), by redesignating footnote 20 as footnote 19.

c. In paragraph (b)(6) by redesignating footnote 21 as footnote 20.

25. Section 94.25 is amended as follows:

- a. By removing the introductory text.
- b. By revising paragraph (a) to read as set forth below.
- c. In paragraph (b) introductory text, paragraph (c) introductory text, and paragraphs (c)(1) and (c)(5), by removing the words “designated in” and by adding in their place the words “listed under”.
- d. In paragraphs (b)(1), (b)(2), (b)(3), (c)(2), (c)(3), and (c)(4), by removing the words “designated in §§ 94.9 and 94.10 as affected with CSF” and adding in their place the words “classified under §§ 94.9 and 94.10 as a region in which CSF is known to exist”.

§ 94.25 Restrictions on the importation of live swine, pork, or pork products from certain regions free of classical swine fever.

(a) Live swine, pork, or pork products and ship stores, airplane meals, and baggage containing pork or pork products, other than those articles regulated under part 95 or part 96 of this chapter, may not be imported into the United States from a region listed under paragraph (a)(2) of this section unless the requirements in this section, in addition to other applicable requirements of part 93 of this chapter and part 327 of this title, are met.

(1) The regions listed under paragraph (a)(2) of this section have been declared free of classical swine fever (CSF) by APHIS in accordance with §§ 94.9(a) and 94.10(a) but either supplement their pork supplies with fresh (chilled or frozen) pork imported from regions considered to be affected by CSF, or supplement their pork supplies with pork from CSF-affected regions that is not processed in accordance with the requirements of this part, or share a common land border with CSF-affected regions, or import live swine from CSF-affected regions under conditions less restrictive than would be acceptable for importation into the United States. Thus, the live swine, pork, or pork products from those regions may be commingled with live swine, pork, or pork products from CSF-affected regions, resulting in a risk of CSF introduction into the United States.

(2) A list of regions whose live swine, pork, and pork products are regulated under this section is maintained on the APHIS Web site at http://www.aphis.usda.gov/import_export/animals/animal_disease_status.shtml. Copies of the list will also be available via postal mail, fax, or email upon request to the Sanitary Trade Issue Team, National Center for Import and Export, Veterinary Services, Animal and Plant Health Inspection Service, 4700

River Road Unit 38, Riverdale, Maryland 20737.

(3) APHIS will add a region to the list of those whose live swine, pork, and pork products are regulated under this section after conducting an evaluation of the region and determining that one or more of the circumstances described in paragraph (a)(1) of this section exists. APHIS will remove a region from the list upon conducting an evaluation of the region and determining that the circumstances in paragraph (a)(1) of this section no longer exist or upon determining that classical swine fever exists in the region.

* * * * *

PART 96—RESTRICTION OF IMPORTATIONS OF FOREIGN ANIMAL CASINGS OFFERED FOR ENTRY INTO THE UNITED STATES

26. The authority citation for part 96 continues to read as follows:

Authority: 7 U.S.C. 8301–8317; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.4.

§ 96.2 [Amended]

27. Section § 96.2 is amended as follows:

- a. In paragraph (a) introductory text, by removing the words “in § 94.8” and adding in their place the words “under § 94.8(a)”.
- b. In paragraph (a)(1), by removing the words “in § 94.8(a)” and adding in their place the words “under § 94.8(a)”.
- c. In paragraph (a)(2), by removing the words “in § 94.8” and adding in their place the words “under § 94.8(a)”.
- d. In paragraph (a)(5), by removing the words “in § 94.8” each time they appear and adding in their place the words “under § 94.8(a)”.

PART 98—IMPORTATION OF CERTAIN ANIMAL EMBRYOS AND ANIMAL SEMEN

28. The authority citation for part 98 continues to read as follows:

Authority: 7 U.S.C. 1622 and 8301–8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.4.

§ 98.3 [Amended]

29. In § 98.3, the introductory text is amended by removing the words “listed in § 94.1(a)(2)” and adding in their place “listed under § 94.1(a)”.

§ 98.30 [Amended]

30. Section 98.30 is amended by removing the definition of *APHIS-defined EU CSF region*.

§ 98.38 [Amended]

31. Section 98.38 is amended as follows:

a. In the introductory text, by adding the words “, as defined in § 94.0 of this subchapter,” immediately after the words “APHIS-defined EU CSF region”.

b. In paragraph (b)(1), by removing the words “in §§ 94.9(a) and 94.10(a) of this chapter as one” and adding in their place the words “under §§ 94.9(a) and 94.10(a) of this chapter as a region”.

Done in Washington, DC, this 25th day of May 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34–P

NUCLEAR REGULATORY COMMISSION

10 CFR Parts 40 and 150

[NRC–2009–0079]

RIN 3150–AI50

Domestic Licensing of Source Material—Amendments/Integrated Safety Analysis

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule; correction.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is correcting a proposed rule that was published in the *Federal Register* (FR) on May 17, 2011 (76 FR 28336). The proposed rule announced the availability of a draft regulatory analysis for public comment. This document corrects the NRC’s Agencywide Documents Access and Management System (ADAMS) accession number that appeared in Section XI, “Regulatory Analysis.” The correct ADAMS accession number is ML102380243.

DATES: The proposed rule published at 76 FR 28336 is corrected as of June 1, 2011.

FOR FURTHER INFORMATION CONTACT: Cindy Bladey, Chief, Rules, Announcements, and Directives Branch, Office of Administration, Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–492–3667; e-mail: Cindy.Bladey@nrc.gov.

SUPPLEMENTARY INFORMATION: The following correction is made to FR Doc. 2011–11927, published in the *Federal Register* on May 17, 2011, on Page 28351, in the center column, under Section XI, “Regulatory Analysis,” third paragraph, seventh line; “ML102380248” is corrected to read “ML102380243.”
