FOR FURTHER INFORMATION CONTACT: For information on the Animal Welfare Act regulations, contact Dr. Barbara Kohn, Senior Staff Veterinarian, Animal Care, APHIS, 4700 River Road, Unit 84, Riverdale, MD 20737; (301) 734-7833. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Animal Welfare.

OMB Number: 0579-0036.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Animal Welfare Act (AWA or Act) (7 U.S.C. 2131 *et seq.*), the Secretary of Agriculture is authorized to promulgate standards and other requirements governing the humane handling, housing, care, treatment, and transportation of certain animals by dealers, research facilities, exhibitors, carriers, and intermediate handlers. The Secretary of Agriculture has delegated the authority for enforcement of the AWA to the Animal and Plant Health Inspection Service (APHIS).

The regulations in 9 CFR parts 1 through 3 were promulgated under the AWA to ensure the humane handling, care, treatment, and transportation of regulated animals under the Act. The regulations in 9 CFR part 2 require documentation of specified information by dealers, research institutions, exhibitors, carriers (including foreign air carriers), and intermediate handlers. The regulations in 9 CFR part 2 also require that facilities that use animals for regulated purposes obtain a license or register with the U.S. Department of Agriculture (USDA). Before being issued a USDA license, individuals are required to undergo prelicense inspections; once licensed, a licensee must periodically renew the license.

To help ensure compliance with the AWA regulations, APHIS performs unannounced inspections of regulated facilities. A significant component of the inspection process is review of records that must be established and maintained by regulated facilities. The information contained in these records is used by APHIS inspectors to ensure that dealers, research facilities, exhibitors, intermediate handlers, and carriers comply with the Act and regulations.

Facilities must make and maintain records that contain official identification for all dogs and cats and certification of those animals received

from pounds, shelters, and private individuals. These records are used to ensure that stolen pets are not used for regulated activities. Dealers, exhibitors, and research facilities that acquire animals from nonlicensed persons are required to have the owners of the animals sign a certification statement verifying the owner's exemption from licensing under the Act. Records must also be maintained for animals other than dogs and cats when the animals are used for purposes regulated under the Act.

Research facilities must also make and maintain additional records for animals covered under the Act that are used for teaching, testing, and experimentation. This information is used by APHIS personnel to review the research facility's animal care and use program.

APHIS needs the reporting and recordkeeping requirements contained in 9 CFR part 2 to enforce the Act and regulations. APHIS also uses the collected information to provide a mandatory annual report of animal welfare activities to Congress.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.9502381 hours per response.

Respondents: Dealers, research facilities, exhibitors, carriers, and intermediate handlers; persons exempt from licensing under the AWA.

Estimated annual number of respondents: 9,985.

Estimated annual number of responses per respondent: 9.6081822.

Estimated annual number of responses: 95,937.

Estimated total annual burden on respondents: 91,163 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 6th day of June 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2011-0045]

Notice of Revision and Request for Extension of Approval of an Information Collection; Swine Health Protection

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Revision and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to revise an information collection associated with regulations to prevent the interstate spread of swine diseases and to request extension of approval of the information collection to protect swine health.

DATES: We will consider all comments that we receive on or before August 9, 2011.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/fdmspublic/component/main?main=DocketDetail&d=APHIS-2011-0045> to submit or view comments and to view supporting and related materials available electronically.

- *Postal Mail/Commercial Delivery:* Please send one copy of your comment to Docket No. APHIS-2011-0045, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD

20737–1238. Please state that your comment refers to Docket No. APHIS–2011–0045.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690–2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: For information on the swine health protection program, contact Dr. Dave Pyburn, Staff Veterinarian, Aquaculture, Swine, Equine, and Poultry Programs, VS, APHIS, 210 Walnut Street, Room 891, Des Moines, IA 50309; (515) 284–4122. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851–2908.

SUPPLEMENTARY INFORMATION:

Title: Swine Health Protection.

OMB Number: 0579–0065.

Type of Request: Revision and extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture is authorized, among other things, to prohibit or restrict the interstate movement of animals and animal products to prevent the dissemination within the United States of animal diseases and pests of livestock and to conduct programs to detect, control, and eradicate pests and diseases of livestock.

The Swine Health Protection Act (the Act) prohibits the feeding of garbage to swine unless the garbage has been treated to kill disease organisms. Untreated garbage is one of the primary media through which numerous infectious and communicable diseases can be transmitted to swine. APHIS' regulations promulgated under the Act, which are located at 9 CFR part 166, require that, before garbage may be fed to swine, it must be treated at a facility holding a valid permit to treat the garbage and must be treated according to the regulations.

APHIS requires certain information in order to license (issue a permit to) a facility to operate and in order to

monitor the facility for compliance with the regulations. This information is collected from applications for a license to operate a garbage treatment facility, records of the destination and date of removal of all food waste or garbage from the treatment facility, and food waste reports. With this information, we are able to carefully monitor garbage treatment facilities to ensure that they are meeting our requirements. We are revising the current collection by adding an activity for tracking of cancellation of licenses by licensees and no longer requiring licensees to acknowledge receipt of the Act and regulations. The information provided by the combined activities is critical in preventing the interstate spread of various swine diseases and, therefore, plays a vital role in our swine health protection program.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.8802 hours per response.

Respondents: Owners/operators (licensees) of garbage treatment facilities, State animal health authorities, and herd owners.

Estimated annual number of respondents: 1,715.

Estimated annual number of responses per respondent: 7.5009.

Estimated annual number of responses: 12,864.

Estimated total annual burden on respondents: 11,323 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual

number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 6th day of June 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
