Title of Collection: Generic Plan for Customer Satisfaction Surveys and Focus Groups

OMB Control Number: 1800–0011*Agency Form Number(s):* N/A*Frequency of Responses:* On occasion

Affected Public: Individuals or households

Total Estimated Number of Annual Responses: 451,326

Total Estimated Annual Burden Hours: 114,885

Abstract: Surveys to be considered under this generic will only include those surveys that improve customer

service or collect feedback about a service provided to individuals or entities directly served by Department of Education (ED). The results of these customer surveys will help ED managers plan and implement program improvements and other customer satisfaction initiatives. Focus groups that will be considered under the generic clearance will assess customer satisfaction with a direct service, or will be designed to inform a customer satisfaction survey ED is considering. Surveys that have the potential to influence policy will not be considered under this generic clearance.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The GEAR UP program is a discretionary grant program that provides financial support for academic and related support services that eligible low-income students, including students with disabilities, need to enable them to obtain a secondary school diploma and to prepare for and succeed in postsecondary education.

Priorities: This notice contains two competitive preference priorities and one invitational priority.

Background: The President has set a clear goal for our education system: By 2020, the United States will once again lead the world in college completion. To achieve this goal, the Department has consistently encouraged four key reforms to improve elementary and secondary education—in particular the Department is seeking to: improve the effectiveness of teachers and school leaders and promote equity in the distribution of effective teachers and school leaders; strengthen the use of data to improve teaching and learning; provide high-quality instruction based on rigorous college- and career-ready standards and measure students' mastery of standards using high-quality assessments aligned with those standards; and turn around the lowest-performing schools.

The Department views the GEAR UP program as a critical component in the effort to improve the quality of secondary schools so that more students are well prepared for college and careers. In order to more strategically align GEAR UP with these overarching reform strategies for school improvement, the Department is announcing two competitive preference priorities for this competition. The Department also proposes one invitational priority for this competition.

We are using two priorities from the Department's notice of final supplemental priorities and definitions for discretionary grant programs, published in the **Federal Register** on December 15, 2010 (75 FR 78486).

The Department is using Competitive Preference Priority 1—Turning Around Persistently Lowest-Achieving Schools because an essential element in strengthening our education system is dramatic improvement of student performance in each State's persistently lowest-achieving schools. These schools often require intensive interventions to

improve the school culture and climate, strengthen the school staff and instructional program, increase student attendance and enrollment in advanced courses, provide more time for learning, and ensure that social services and community support are available for students in order to raise student achievement, graduation rates, and college enrollment rates. In addition, students in these schools can benefit from participating in programs, such as GEAR UP, that offer additional services designed to increase student success. The Department is interested in seeing strong plans to support improvements in student achievement and outcomes within these schools.

The Department is using Competitive Preference Priority 2—Enabling More Data-Based Decision-Making because the Department believes that the effective use of data for informed decision-making is essential to the continuous improvement of educational results. Specifically, this priority is for projects that are designed to provide educators, as well as families and other key stakeholders, with high-quality data and the capacity and training to use those data. The data may be used to respond to the learning and academic needs of students, increase student achievement (as defined in this notice), improve educator effectiveness, inform professional development practices and approaches, understand the culture and climate of their schools and institutions, and make informed decisions that increase overall program effectiveness. We believe that inclusion of this competitive preference priority is important because accurate, timely, relevant, and appropriate data are key to knowing what is working for students and what is not. Data can tell us which students are on track to college- and career-readiness and which students need additional support, which instructional strategies are working, which schools or institutions are successfully improving student learning and performance, and which teachers or faculty excel in increasing student achievement so that they can, for example, be given the opportunity to coach others or to lead communities of professional practice.

Competitive Preference Priorities. The competitive preference priorities are from the notice of final supplemental priorities and definitions for discretionary grant programs, published in the **Federal Register** on December 15, 2010 (75 FR 78486). For FY 2011 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, these priorities are competitive preference
