Training and Qualification Requirements for Check Airmen and Flight Instructors; Technical Amendment

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; technical amendment.

SUMMARY: The FAA is amending its regulations regarding separate requirements for check airmen who check only in flight simulators and flight instructors who instruct only in flight simulators. This document corrects minor technical errors in the codified text of those regulations.

DATES: Effective June 16, 2011.

FOR FURTHER INFORMATION CONTACT: Eric Friedman, Air Transportation Division, AFS-200, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: 202-493-5259; e-mail: eric.friedman@faa.gov.

SUPPLEMENTARY INFORMATION:

Background

On June 17, 1996, the FAA published a final rule entitled, "Training and Qualification Requirements for Check Airmen and Flight Instructors" (61 FR 30734).

In that final rule the FAA established separate requirements for check airmen who check only in flight simulators and flight instructors who instruct only in flight simulators. To ensure an equivalent level of safety, the affected check airmen and flight instructors must accomplish the following: Recency of experience requirements, including completion of an approved line-observation program within each 12-

month period; and required training, including recurrent ground and flight training. Additionally this rule allowed check airman and flight instructors to obtain all of their flight training in simulators, as opposed to the then current scheme in which initial and transition flight training must include an in-flight element.

Technical Amendment

This technical amendment makes two revisions to the final rule: (1) The language in § 121.412(f)(2) incorrectly uses the term “check airman” when the term “flight instructor” should have been used; and (2) the language in § 135.338(f)(2) incorrectly uses the term “check airman” when the term “flight instructor” should have been used. Accordingly, this technical amendment revises §§ 121.412(f)(2) and 135.338(f)(2).

Because the changes in this technical amendment result in no substantive change, we find good cause exists under 5 U.S.C. 553(d)(3) to make the amendment effective in less than 30 days.

SUPPLEMENTARY INFORMATION:

Regulatory Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because publishing a NPRM would be impracticable since immediate action is needed to protect the general public, levee system, vessels and tows from the hazards associated with rising flood water on the Atchafalaya River.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Publishing a NPRM and delaying its effective date would be impracticable since immediate action is needed to protect the general public, levee system, vessels and tows from destruction, loss or injury due to the
