SUPPLEMENTARY INFORMATION:

I. Background

The Combined Appropriation Act of 2010, Division D of Public Law 111-117, includes \$12 million in funds to DOL's Employment and Training Administration (ETA) and \$12 million to ODEP to develop and implement a plan for improving effective and meaningful participation of persons

with disabilities in the workforce and to evaluate the impact of the DEI. At present, the employment rate of people with disabilities is just 21 percent, compared with a rate of 70 percent among individuals without disabilities (DOL, Bureau of Labor Statistics, 2010). The DEI is designed to reduce this discrepancy by helping states: (1) Improve educational, training, and employment opportunities and outcomes of youth and adults with disabilities who are unemployed, underemployed, and/or receiving Social Security disability benefits; and (2) help individuals with disabilities find a path to the middle class through exemplary and model service delivery by the public workforce system (DOL, 2010).

In September 2010, Alaska, Arkansas, Delaware, Illinois, Kansas, Maine, New Jersey, New York and Virginia received three-year grants to implement the DEI in randomly assigned local workforce investment areas (LWIAs). The DEI grantees are required to implement five program requirements: (1) Hire a State DEI Project Lead; (2) hire a Disability Resource Coordinator (DRC) at each DEI site; (3) maintain One-Stop Career Center accessibility; (4) have each DEI site participate in the Ticket to Work program as an Employment Network; and (5) plan for sustaining DEI activities after the three-year grant period. In addition, grantees are required to incorporate at least two of the following seven program design strategies: (1) Integrated resource teams; (2) integrated resources; (3) customized employment; (4) self-employment; (5) implementation of the Guideposts for Success; (6) asset development strategies; and (7) partnerships and collaboration.

The purpose of the DEI evaluation is to understand and assess DEI program start-up and implementation, DEI program efforts to create system change in the workforce development system, and measures of DEI program impact and customer outcomes. DEI evaluation findings will be shared with ODEP, ETA, and other entities within DOL; DEI grantees; and other organizations involved in disability employment policy and practice to help them: (1) Make “mid-stream” adjustments during the grant period; (2) replicate successful

program strategies and approaches used by DEI grantees; and (3) support improvements in the workforce development system nationwide. DEI evaluation findings will also be used to improve program activities and services to customers and support DEI grantees and their partners in the development of systems that increase access and availability to employment and employment preparation services for customers with disabilities, including Ticket to Work participants and other Social Security disability beneficiaries.

Data collection for this evaluation includes two types of data collection activities: (1) Annual site visits to the nine DEI grantees and (2) implementation of the DEI data system. For the Annual Site Visits, the DEI Evaluation Team will make two visits to each of the nine DEI grantees, one in 2012 and one in 2013. Interviews will be conducted with the DEI state lead, Disability Resource Coordinators, Workforce Investment Board (WIB) directors, One-Stop Career Center managers, One-Stop staff members, and agency partners and employers. Additionally, eight to ten One-Stop customers will be asked to participate in a customer focus group. The domains to be investigated include: The current status at baseline and change in grantees’ workforce development system at follow-up; grantee customer characteristics; implementation of the five grant requirements; implementation of the grantee’s selected program design strategies; program implementation challenges; and systems change. The second data collection activity, the DEI data system, is designed to collect information not contained in the Workforce Investment Act Standardized Record Data (WIASRD) and Wagner-Peyser administrative data systems, including additional demographic, outcome and service utilization data. Data for the DEI data system will be collected according to each grantee’s preferred mode of data collection and reporting, and will be integrated with their usual data collection processes. Uploading of DEI data system data from DEI grantees will occur on a quarterly basis.

II. Review Focus

DOL is interested in comments that:

- * Evaluate whether the proposed collection of information is necessary, and whether the information will have practical utility;
- * evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- * enhance the quality, utility, and clarity of the information to be collected; and
- * minimize the burden of the collection of information on those who are to respond.

III. Current Actions

Agency: Department of Labor, Office of Disability Employment Policy.

Title: Evaluation of the Employment and Training Administration/Office of Disability Employment Policy Disability Employment Initiative (DEI)

Annual Site Visits

Total Respondents: Approximately 542. As shown in the table below, the number of respondents per grantee depends on the number of LWIAs participating in the DEI evaluation. Each DEI State Lead, DRC and WIB Director will be interviewed in each state and two One-Stop and partners/employers will be interviewed per Local Workforce Investment Board (LWIB). In states that have one LWIB, one customer focus group will be conducted; in the states with more than one LWIB, three focus groups will be conducted.

Frequency: The DEI Evaluation Team will make two visits to each of the nine DEI grantees, one in 2012 and one in 2013.

Average Time per Response: Partners and employers from small entities will participate in interviews that are 45 minutes in duration. All other interviews will be 60 minutes in duration.

Estimated Total Burden Hours: The cumulative hours of burden due to the site visits to DEI grantees for the entire project period is 1,228 for two annual rounds of site visits.

DEI Data System

Total Respondents: To determine the number of customers with disabilities from whom data will be collected via the DEI data system, the numbers of FY 2009 WIASRD and Wagner-Peyser services users were obtained from the DEI grant applications for the LWIAs selected to participate in the DEI evaluation. These numbers were then reduced by 11 percent (based on

information reported in Livermore & Coleman 2010) to obtain an approximate unduplicated count of customers with disabilities, for a total of 43,756 respondents.

Frequency: Because the DEI evaluation includes baseline and follow-up data collection, burden on customers and staff will occur twice.

Average Time per Response: For each data collection point, customers with

disabilities and staff will spend on average 4.8 minutes completing the DEI data collection form per point of contact (baseline or follow-up), as determined by a pilot test with 9 One-Stop customers.

Estimated Total Burden Hours: The burden estimate for the DEI data system for the entire study period is 12,352 hours.

DEI DATA SYSTEM BURDEN ESTIMATES

*The 11% assumption is based on a comparison of unduplicated and total counts of Social Security disability program beneficiaries who used WIA and Wagner Peyser services in 2005 and 2006 in three states, as shown in Livermore, Gina, and Silvie Colman. "Use of One-Stops by Social Security Disability Beneficiaries in Four States Implementing Disability Program Navigator Initiatives." Washington, DC: Mathematica Policy Research, May 2010.

Frequency: Twice.
Total Responses: 43,756 respondents.
Average Time per Response: 4.8 minutes.

Estimated Total Burden Hours: 12,352 hours.
Total Burden Cost: \$0.

Note that, due to rounding, the numbers for the totals may differ from the sum of the component numbers.

Comments submitted in response to this Notice will be summarized and/or included in the request for Office of Management and Budget approval of the ICR; they will also become a matter of public record.
