Abstract: This clearance request is submitted to OMB for the Office of Planning, Evaluation, and Policy Development's (OPEPD's) audit of grant program procedures for collecting, analyzing, and reporting performance and evaluation data. This request is necessary because OPEPD within the U.S. Department of Education (ED) has contracted with Decision Information Resources, Inc. and Mathematica Policy Research, Inc. to assess the procedures for collecting and reporting program performance and evaluation data for eleven ED grant programs. These audits and assessments will provide ED with

insight into (1) whether the programs' performance data are of high quality and the methods used to aggregate and report those data are sound; and (2) whether the local evaluations conducted by grantees (or their local evaluators) are of high quality and yield information that can be used to improve education programs. This OMB submission requests approval for the use of interview protocols for collecting information from program grantees and their local evaluators and program office contractors. All interview guides are designed to address the major research questions associated with this project. All other data used to address the audit's research questions will come from sources that will not require OMB approval.

SUPPLEMENTARY INFORMATION: On April 29, 2011, EPA published a notice that the Commonwealth of Massachusetts had petitioned the Regional Administrator, Environmental Protection Agency, to determine that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the waters of the Outer Cape Cod. Four comments were received on this petition. The response to comments can be obtained utilizing the above contact information.

The petition was filed pursuant to Section 312(f)(3) of Public Law 92-500, as amended by Public Laws 95-217 and 100-4, for the purpose of declaring these waters a No Discharge Area (NDA).

Section 312(f)(3) states: After the effective date of the initial standards and regulations promulgated under this section, if any State determines that the protection and enhancement of the quality of some or all of the waters within such State require greater environmental protection, such State may completely prohibit the discharge from all vessels of any sewage, whether treated or not, into such waters, except that no such prohibition shall apply until the Administrator determines that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for such water to which such prohibition would apply.

This Notice of Determination is for the waters of the Outer Cape Cod. The NDA boundaries are as follows:

Waterbody/General Area	From Longitude	From Latitude	To Longitude	To Latitude
The westernmost landward boundary of the NDA starting on the south side of Chatham is an imaginary line drawn between the western part of the outlet of Stage Harbor and the northern tip of Monomoy Island (<i>All state waters east of Monomoy Island are included in this NDA</i>)	69° 59' 0" W	41° 39' 26" N	69° 59' 0" W	41° 37' 20" N
The southwestern boundary then continues from the southern tip of Monomoy Island through two navigational aids to the state/federal waters boundary	70° 0' 36" W	41° 32' 30" N	70° 0' 11" W	41° 29' 15" N
The landward boundary of the NDA follows the mean high water line from Chatham to Provincetown except at an imaginary line drawn between: (<i>This imaginary line is across the mouth of Pleasant Bay, which is already an NDA</i>)	69° 56' 36" W	41° 39' 40" N	69° 56' 6" W	41° 40' 56" N
The westernmost boundary on the northern side of Cape Cod is an imaginary line drawn from three miles off shore to the mean high water line in Provincetown (<i>This imaginary line is contiguous with the Cape Cod Bay NDA</i>)	70° 10' 0" W	42° 7' 59" N	70° 10' 0" W	42° 4' 47" N

The boundaries were chosen based on easy line-of-sight locations and generally represent all navigational waters. The area includes the municipal waters of Chatham, Orleans, Eastham,

Wellfleet, Truro, and Provincetown, and from mean high water out to the state/federal boundary.

The information submitted to EPA by the Commonwealth of Massachusetts

certifies that there is one landside pumpout facility at Goose Hummock Marine in Orleans within the proposed area available to the boating public. The location, contact information, hours of
