

produced using the lift gas, in other words, the well to which the lift gas flows.

9. If the production is first processed at the receiving (terminus) platform of a lease term pipeline, the incremental increase in emissions at the receiving facility will also be included in the spreadsheets covering the producing well.

10. Emissions associated with workovers, recompletions, equipment swapouts, etc. must be included in spreadsheets for DOCDs. For workovers and recompletions, a few weeks of drilling allotted to future years precludes the need for a revised DOCD each time you need to work over a well.

11. For any plan involving subsequent activity at an existing facility, emissions data must be provided for the proposed activity and for the facility total (proposed plus existing emissions). This should be depicted in two separate and clearly labeled sets of spreadsheets.

12. If platforms are bridge connected, they are considered to be one facility for air quality purposes, and development plans must include the emissions from all of the connected platforms as one facility. Each structure should have its own set of spreadsheets, but remember it is the total for the facility which is used for determining exemption or significance.

13. For purposes of calculating the BOEMRE exemption level, the distance to shore should be expressed in tenths of a statute mile up to 20 miles, and in whole statute miles for distances beyond 20 miles. The nearest point of any land should be used. This is defined as the distance from the facility to the mean high water mark of any State, including barrier islands and shoals.

14. Verification of non-default emission factors: documentation is required for any emission factor below the defaults included in the spreadsheets. Verification (typically by stack-testing) of these reduced emission factors will also be required upon start-up and occasionally thereafter to prove that the reduced emission factors are actually being achieved and maintained.

15. Emission reductions: describe any proposed emission reduction measures, including a description of the affected source(s), the emission reduction control technologies or procedures, quantity of reductions to be achieved, and the monitoring system you propose to use to measure emissions.

16. Include fugitive emissions for DOCDs.

17. If the activity includes a boom for emergency use, be sure to include a description of its usage in your description of equipment and processes. Indicate whether it will be used as a vent or flare and the conditions under which it will be used (e.g., compressor downtime, equipment upset, accident). Include estimates of flaring or venting in the spreadsheets.

18. If the activity includes compressor(s), indicate intended action during compressor downtime (e.g., shut-in, flare, vent).

19. If the activity includes a continuous flare, describe why it is needed (e.g., to incinerate harmful levels of H₂S).

20. If the activity includes a glycol reboiler that is operated using waste heat or electricity, indicate this in a statement.

21. If H₂S is expected, indicate the expected concentration.

Public Comment Procedures: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

BOEMRE Information Collection Clearance Officer: Arlene Bajusz (703) 787-1025.

Dated: June 28, 2011.

Doug Slitor,
Acting Chief, Office of Offshore Regulatory Programs.

Endangered Species; Receipt of Applications for Permit

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of applications for permit: new applications and corrected application.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on the following applications to conduct certain activities with endangered species. With some exceptions, the Endangered Species Act (ESA) prohibits activities with listed species unless a Federal permit is issued that allows such activities. The ESA law requires that we invite public comment before issuing these permits. We also correct and reopen the comment period for a previously announced application.

DATES: We must receive comments or requests for documents on or before August 5, 2011.

ADDRESSES: Brenda Tapia, Division of Management Authority, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Room 212, Arlington, VA 22203; fax (703) 358-2280; or e-mail DMAFR@fws.gov.

FOR FURTHER INFORMATION CONTACT: Brenda Tapia, (703) 358-2104 (telephone); (703) 358-2280 (fax); DMAFR@fws.gov (e-mail).

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures

A. How do I request copies of applications or comment on submitted applications?

Send your request for copies of applications or comments and materials concerning any of the applications to the contact listed under **ADDRESSES**. Please include the **Federal Register** notice publication date, the PRT-number, and the name of the applicant in your request or submission. We will not consider requests or comments sent to an e-mail or address not listed under **ADDRESSES**. If you provide an e-mail address in your request for copies of applications, we will attempt to respond to your request electronically.

Please make your requests or comments as specific as possible. Please confine your comments to issues for which we seek comments in this notice, and explain the basis for your comments. Include sufficient information with your comments to allow us to authenticate any scientific or commercial data you include.

The comments and recommendations that will be most useful and likely to influence agency decisions are: (1) Those supported by quantitative information or studies; and (2) Those that include citations to, and analyses of, the applicable laws and regulations. We will not consider or include in our administrative record comments we receive after the close of the comment period (see **DATES**) or comments delivered to an address other than those listed above (see **ADDRESSES**).

B. May I review comments submitted by others?

Comments, including names and street addresses of respondents, will be available for public review at the address listed under **ADDRESSES**. The public may review documents and other information applicants have sent in support of the application unless our allowing viewing would violate the Privacy Act or Freedom of Information Act. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that

your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

II. Background

To help us carry out our conservation responsibilities for affected species, the Endangered Species Act of 1973, section 10(a)(1)(A), as amended (16 U.S.C. 1531 *et seq.*), require that we invite public comment before final action on these permit applications.

III. Permit Applications

A. Endangered Species

Applicant: Feld Entertainment Inc., Vienna, VA; PRT-37444A (Corrected Application)

On June 23, 2011, we published a **Federal Register** notice inviting the public to comment on several applications for permits to conduct certain activities with endangered species (76 FR 36934). We made an error by omitting one animal in the Feld Entertainment, Inc. application, which starts at the bottom of column 3 on page 36934. The omitted animal is a captive-born tiger (*Panthera tigris*). All the other information we printed was correct. With this notice, we correct that error and reopen the comment period for PRT-37444A. The corrected entry for this application is as follows: The applicant request a permits to import, for the purpose of enhancement of the species through conservation education, one African leopard (*Panthera pardus*), one Siberian tiger (*Panthera tigris altaica*), and seven tigers (*Panthera tigris*). The captive-born animals are being imported from Schweiberdingen, Germany, in cooperation with Alexander Lacey.

Multiple Applicants (New Applications)

The following applicants each request a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus pygargus*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: Alan Maki, Alpine, WY; PRT-43269A

Applicant: Jeffrey Rachor, Dallas, TX; PRT-43976A

Applicant: Lewis Metzger, Houston, TX; PRT-46316A

Applicant: David Cote, Morristown, NJ; PRT-43284A

Brenda Tapia,

Program Analyst/Data Administrator, Branch of Permits, Division of Management Authority.

Wildlife and Hunting Heritage Conservation Council

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of teleconference.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce a public teleconference of the Wildlife and Hunting Heritage Conservation Council (Council).

DATES: We will hold the teleconference on Tuesday, July 26, 2011, from 10 a.m. to 1 p.m. (Eastern Daylight Time). If you wish to listen to the teleconference, orally present material during the teleconference, or submit written material for the Council to consider during the teleconference, notify Joshua Winchell by Thursday, July 21, 2011. See instructions under **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Joshua Winchell, Council Coordinator, 4401 N. Fairfax Dr., Mailstop 3103-AEA, Arlington, VA 22203; (703) 358-2639 (phone); (703) 358-2548 (fax); or joshua_winchell@fws.gov (e-mail).

SUPPLEMENTARY INFORMATION: In accordance with the requirements of the Federal Advisory Committee Act, 5 U.S.C. App., we give notice that the Council will hold a teleconference (see **DATES**).

Background

Formed in February 2010, the Council provides advice about wildlife and habitat conservation endeavors that:

- (a) Benefit recreational hunting;
- (b) Benefit wildlife resources; and
- (c) Encourage partnership among the public, the sporting conservation
