Substance Abuse and Mental Health Services Administration

Current List of Laboratories and Instrumented Initial Testing Facilities Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.
ACTION: Notice.

SUMMARY: The Department of Health and Human Services (HHS) notifies Federal agencies of the Laboratories and Instrumented Initial Testing Facilities (IITF) currently certified to meet the standards of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (Mandatory Guidelines). The Mandatory Guidelines were first published in the **Federal Register** on April 11, 1988 (53 FR 11970), and subsequently revised in the **Federal Register** on June 9, 1994 (59 FR 29908); September 30, 1997 (62 FR 51118); April 13, 2004 (69 FR 19644); November 25, 2008 (73 FR 71858); December 10, 2008 (73 FR 75122); and on April 30, 2010 (75 FR 22809).

A notice listing all currently certified Laboratories and Instrumented Initial Testing Facilities (IITF) is published in the **Federal Register** during the first week of each month. If any Laboratory/IITF's certification is suspended or revoked, the Laboratory/IITF will be omitted from subsequent lists until such time as it is restored to full certification under the Mandatory Guidelines.

If any Laboratory/IITF has withdrawn from the HHS National Laboratory Certification Program (NLCP) during the past month, it will be listed at the end and will be omitted from the monthly listing thereafter.

This notice is also available on the Internet at <http://www.workplace.samhsa.gov> and <http://www.drugfreeworkplace.gov>.

FOR FURTHER INFORMATION CONTACT: Mrs. Giselle Hersh, Division of Workplace Programs, SAMHSA/CSAP, Room 2-1042, One Choke Cherry Road, Rockville, Maryland 20857; 240-276-2600 (voice), 240-276-2610 (fax).

SUPPLEMENTARY INFORMATION: The Mandatory Guidelines were initially developed in accordance with Executive Order 12564 and section 503 of Public Law 100-71. The "Mandatory Guidelines for Federal Workplace Drug Testing Programs", as amended in the revisions listed above, requires {or set} strict standards that Laboratories and

Instrumented Initial Testing Facilities (IITF) must meet in order to conduct drug and specimen validity tests on urine specimens for Federal agencies.

To become certified, an applicant Laboratory/IITF must undergo three rounds of performance testing plus an on-site inspection. To maintain that certification, a Laboratory/IITF must participate in a quarterly performance testing program plus undergo periodic, on-site inspections.

Laboratories and Instrumented Initial Testing Facilities (IITF) in the applicant stage of certification are not to be considered as meeting the minimum requirements described in the HHS Mandatory Guidelines. A Laboratory/IITF must have its letter of certification from HHS/SAMHSA (formerly: HHS/NIDA) which attests that it has met minimum standards.

In accordance with the Mandatory Guidelines dated November 25, 2008 (73 FR 71858), the following Laboratories and Instrumented Initial Testing Facilities (IITF) meet the minimum standards to conduct drug and specimen validity tests on urine specimens:

Instrumented Initial Testing Facilities (IITF)

None.

* The Standards Council of Canada
(SCC) voted to end its Laboratory
Accreditation Program for Substance
Abuse (LAPSA) effective May 12, 1998.
Laboratories certified through that
program were accredited to conduct
forensic urine drug testing as required
by U.S. Department of Transportation
(DOT) regulations. As of that date, the
certification of those accredited
Canadian laboratories will continue
under DOT authority. The responsibility
for conducting quarterly performance
testing plus periodic on-site inspections
of those LAPSA-accredited laboratories
was transferred to the U.S. HHS, with
the HHS' NLCP contractor continuing to
have an active role in the performance
testing and laboratory inspection
processes. Other Canadian laboratories
wishing to be considered for the NLCP
may apply directly to the NLCP
contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to
be qualified, HHS will recommend that
DOT certify the laboratory (**Federal
Register**, July 16, 1996) as meeting the
minimum standards of the Mandatory
Guidelines published in the **Federal
Register** on April 30, 2010 (75 FR
22809). After receiving DOT
certification, the laboratory will be
included in the monthly list of HHS-
certified laboratories and participate in
the NLCP certification maintenance
program.

Dated: July 6, 2011.

Technology, and Operations, SAMHSA.*

BILLING CODE 4160-20-P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management, Regulation and Enforcement

[Docket No. BOEM-2011-0053]

Commercial Wind Lease Issuance and Site Characterization Activities on the Atlantic Outer Continental Shelf (OCS) Offshore New Jersey, Delaware, Maryland, and Virginia

AGENCY: Bureau of Ocean Energy
Management, Regulation and
Enforcement (BOEMRE), Interior.

ACTION: Notice of the availability of an
environmental assessment.

SUMMARY: BOEMRE has prepared a draft
environmental assessment (EA)
considering the environmental impacts
and socioeconomic effects of issuing
renewable energy leases (which
includes reasonably foreseeable site
characterization activities—geophysical,
geotechnical, archeological, and
biological surveys—on those leases) in
identified Wind Energy Areas (WEAs)
offshore New Jersey, Delaware,
Maryland, and Virginia. The draft EA
also considers the reasonably
foreseeable environmental impacts and
socioeconomic effects associated with
the approval of site assessment activities
(including the installation and operation
of meteorological towers and buoys) on
the leases that may be issued.

The purpose of this notice is to inform
the public of the availability of the draft
EA for review and comment. Public
comments on the draft EA will be
considered in the preparation of the
final EA and determination of whether
a Finding of No Significant Impact
would be appropriate, or whether an
Environmental Impact Statement (EIS)
would need to be prepared. The draft
EA can be accessed online at: [http://
www.boemre.gov/offshore/
RenewableEnergy/
SmartFromTheStart.htm](http://www.boemre.gov/offshore/RenewableEnergy/SmartFromTheStart.htm).

Authority: This Notice of Availability
(NOA) of an EA is published pursuant to 43
CFR 46.305.

SUPPLEMENTARY INFORMATION: On
November 23, 2010, Secretary of the
Interior Ken Salazar announced the
“Smart from the Start” renewable
energy initiative to accelerate the
responsible development of renewable
energy resources on the Atlantic OCS.
One of the focuses of the initiative is the
