SUPPLEMENTARY INFORMATION:

Title: Smuggling, Interdiction, and Trade Compliance Program; Smuggling Form.

OMB Number: 0579-xxxx.

Type of Request: Approval of a new information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS) programs are established to ensure the availability of domestic and imported foods in the American marketplace, facilitate the importation and exportation of agricultural commodities to foreign countries, and preserve the health and diversity of APHIS' agricultural resources. APHIS' Plant Protection and Quarantine Smuggling Interdiction and Trade Compliance Program (SITC) is involved with efforts to prevent the unlawful entry, introduction, and distribution of prohibited agricultural commodities and products that may harbor harmful exotic plant and animal pests, diseases, or invasive species. This program allows the public/industry to anonymously or openly report suspicious or current smuggling activities by completing a form or placing a phone call to the SITC National Office Smuggling Hotline (800-877-3835).

When SITC has evidence that an agricultural regulation has been violated, they may turn the case over to APHIS' Investigative and Enforcement Services and United States Department of Agriculture's Office of Inspector General for prosecution.

APHIS is requesting the Office of Management and Budget (OMB) approve PPQ Form 300 for the use of this information collection for 3 years, which is necessary to prevent the unlawful entry and distribution of prohibited agricultural commodities and products that may harbor harmful exotic plant and animal pests, diseases, or invasive species.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.025 hours per response.

Respondents: Anyone (public, industry, and farms) who anonymously or openly reports suspicious smuggling activities.

Estimated annual number of respondents: 200.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 200.

Estimated total annual burden on respondents: 50 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 13th day of July 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
