

deficiency and will continue to operate safely.

The first major research correlating past and future performance was done in England by Greenwood and Yule in 1920. Subsequent studies, building on that model, concluded that crash rates for the same individual exposed to certain risks for two different time periods vary only slightly (See Bates and Neyman, University of California Publications in Statistics, April 1952). Other studies demonstrated theories of predicting crash proneness from crash history coupled with other factors. These factors—such as age, sex, geographic location, mileage driven and conviction history—are used every day by insurance companies and motor vehicle bureaus to predict the probability of an individual experiencing future crashes (See Weber, Donald C., “Accident Rate Potential: An Application of Multiple Regression Analysis of a Poisson Process,” Journal of American Statistical Association, June 1971). A 1964 California Driver Record Study prepared by the California Department of Motor Vehicles concluded that the best overall crash predictor for both concurrent and nonconcurrent events is the number of single convictions. This study used 3 consecutive years of data, comparing the experiences of drivers in the first 2 years with their experiences in the final year.

Applying principles from these studies to the past 3-year record of the 16 applicants, none of the applicants were convicted for moving violations and none of the applicants were involved in a crash. All the applicants achieved a record of safety while driving with their vision impairment, demonstrating the likelihood that they have adapted their driving skills to accommodate their condition. As the applicants’ ample driving histories with their vision deficiencies are good predictors of future performance, FMCSA concludes their ability to drive safely can be projected into the future.

We believe that the applicants’ intrastate driving experience and history provide an adequate basis for predicting their ability to drive safely in interstate commerce. Intrastate driving, like interstate operations, involves substantial driving on highways on the interstate system and on other roads built to interstate standards. Moreover, driving in congested urban areas exposes the driver to more pedestrian and vehicular traffic than exists on interstate highways. Faster reaction to traffic and traffic signals is generally required because distances between them are more compact. These conditions tax visual capacity and

driver response just as intensely as interstate driving conditions. The veteran drivers in this proceeding have operated CMVs safely under those conditions for at least 3 years, most for much longer. Their experience and driving records lead us to believe that each applicant is capable of operating in interstate commerce as safely as he/she has been performing in intrastate commerce. Consequently, FMCSA finds that exempting these applicants from the vision standard in 49 CFR 391.41(b)(10) is likely to achieve a level of safety equal to that existing without the exemption. For this reason, the Agency is granting the exemptions for the 2-year period allowed by 49 U.S.C. 31136(e) and 31315 to the 16 applicants listed in the notice of May 19, 2011 (76 FR 29022).

We recognize that the vision of an applicant may change and affect his/her ability to operate a CMV as safely as in the past. As a condition of the exemption, therefore, FMCSA will impose requirements on the 16 individuals consistent with the grandfathering provisions applied to drivers who participated in the Agency’s vision waiver program.

Those requirements are found at 49 CFR 391.64(b) and include the following: (1) That each individual be physically examined every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist’s or optometrist’s report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver’s qualification file, or keep a copy in his/her driver’s qualification file if he/she is self-employed. The driver must also have a copy of the certification when driving, for presentation to a duly authorized Federal, State, or local enforcement official.

Discussion of Comments

FMCSA received no comments in this proceeding.

Conclusion

Based upon its evaluation of the 16 exemption applications, FMCSA exempts, Stanley C. Anders, Joel A. Cabrera, Sherman W. Clapper, Eric C. Esplin, Ronald R. Fournier, Ronald D. Jackman, II, Thomas W. Kent, Brian L. Keszler, Gerald Kortesmaki, Craig C.

Lowry, Robert J. MacInnis, Gordon S. Newman, Adolph L. Romero, Rodney W. Sukalski, Larry D. Warneke and Lonnie D. Wendinger from the vision requirement in 49 CFR 391.41(b)(10), subject to the requirements cited above (49 CFR 391.64(b)).

In accordance with 49 U.S.C. 31136(e) and 31315, each exemption will be valid for 2 years unless revoked earlier by FMCSA. The exemption will be revoked if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136 and 31315.

If the exemption is still effective at the end of the 2-year period, the person may apply to FMCSA for a renewal under procedures in effect at that time.

Issued on: July 15, 2011.

Associate Administrator for Policy.

DEPARTMENT OF THE TREASURY

Submission for OMB Review; Comment Request

July 19, 2011.

The Department of the Treasury will submit the following public information collection requirements to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13 on or after the date of publication of this notice. A copy of the submissions may be obtained by calling the Treasury Bureau Clearance Officer listed. Comments regarding these information collections should be addressed to the OMB reviewer listed and to the Treasury PRA Clearance Officer, Department of the Treasury, 1750 Pennsylvania Avenue, NW., Suite 11010, Washington, DC 20220.

DATES: Written comments should be received on or before August 22, 2011 to be assured of consideration.

Financial Management Service (FMS)

OMB Number: 1510–0014.

Type of Review: Extension without change of a currently approved collection.

Title: Schedule of Excess Risks.

Form: FMS–285–A.

Abstract: Listing of Excess Risks written or assumed by Treasury Certified Companies for compliance with Treasury regulations to assist in determination of solvency of Certified

Companies for the benefit of writing Federal surety bonds.

Affected Public: Private Sector: Businesses or other for-profits.

Estimated Total Burden Hours: 5,600.

OMB Number: 1510-0047.

Type of Review: Extension without change of a currently approved collection.

Title: List of Data (A) and List of Data (B).

Abstract: This information is collected from insurance companies to provide Treasury a basis to determine acceptability of companies applying for a Certificate of Authority to write or reinsure Federal surety bonds or as an Admitted Reinsurer (not on excess risks to U.S.).

Affected Public: Private Sector: Businesses or other for-profits.

Estimated Total Burden Hours: 540.

OMB Number: 1510-0061.

Type of Review: Extension without change of a currently approved collection.

Title: CMIA Annual Report and Interest Calculation Cost Claims.

Abstract: Public Law 101-453 requires that States and Territories must report interest liabilities for major Federal assistance programs annually. States and Territories may report interest calculation cost claims for compensation of administrative costs.

SUPPLEMENTARY INFORMATION:

Title: REPS Annual Eligibility Report, (Under the Provisions of Section 156, Pub. L. 97-377), VA Form 21-8941.

OMB Control Number: 2900-0405.

Type of Review: Extension of a currently approved collection.

Abstract: VA Form 21-8941 is completed annually by claimants who have earned income that is at or near the limit of earned income. The REPS program pays benefits to certain surviving spouses and children of veterans who died in service prior to August 13, 1981 or who died as a result of a service-connected disability incurred or aggravated prior to August 13, 1981. VA uses the information collected to determine a claimant's continued entitlement to Restored Entitlement Program for Survivors (RESPS) benefits.
