

authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

The applicant requests a five-year permit to study green, hawksbill, and loggerhead sea turtles at Buck Island Reef National Monument, U.S. Virgin Islands. The purposes of the research are to determine species-specific habitat-use patterns over time, increase understanding of genetic stock structure, and estimate vital rates and local population abundance. The applicant would capture 160 green turtles each year. All would be subject to counts, epibiota removal, lavage, temporary carapace marking, flipper and passive integrated transponder tagging, measure, photograph, (potential) recapture, blood sampling, fecal sampling, tissue biopsy, and weighing. Of the 160, 20 also would be tagged with satellite tags and data loggers (epoxy attachments) and acoustic transmitters (epoxy or drill carapace and attach with wire). All 20 would not necessarily be subject to all three tag types, but no more than 20 would have any type of tag attached. Hawksbill takes would be for the same activities, but a total of 180 would be captured annually, with 30 of those subject to a combination of tags. Fifteen loggerheads would be captured per year, and all would be subject to all of the activities.

Dated: July 19, 2011.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration (NOAA)

#### National Climate Assessment and Development Advisory Committee (NCADAC)

**AGENCY:** Office of Oceanic and Atmospheric Research (OAR), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

**ACTION:** Notice of open meeting.

**SUMMARY:** The National Climate Assessment and Development Advisory Committee (NCADAC) was established by the Secretary of Commerce under the authority of the Global Change Research

Act of 1990 to synthesize and summarize the science and information pertaining to current and future impacts of climate.

**Time and Date:** The meeting will be held August 16 and 17, 2011, from 9 a.m. to 6 p.m. and August 18, 2011, from 9 a.m. to 3 p.m. These times and the agenda topics described below are subject to change. Please refer to the web page <http://www.globalchange.gov> for the most up-to-date meeting agenda.

**Place:** The meeting will be held at the EPA Offices at the US EPA Potomac Yard Conference Facility, 1st Floor conference room in the Potomac Yard ONE or SOUTH building. The address is 2777 Crystal Drive, Arlington, VA 22202. Please check the Web site <http://www.globalchange.gov> for confirmation of the venue and for directions.

**Status:** Seating will be available on a first come, first serve basis. Members of the public must RSVP in order to attend all or a portion of the meeting by contacting the NCADAC DFO ([Cynthia.Decker@noaa.gov](mailto:Cynthia.Decker@noaa.gov)) by August 9, 2011. The meeting will be open to public participation with a 30 minute public comment period on August 17 at 5:30 p.m. (check Web site to confirm time). The NCADAC expects that public statements presented at its meetings will not be repetitive of previously submitted verbal or written statements. In general, each individual or group making a verbal presentation will be limited to a total time of five (5) minutes. Individuals or groups planning to make a verbal presentation should contact the NCADAC DFO ([Cynthia.Decker@noaa.gov](mailto:Cynthia.Decker@noaa.gov)) by August 9, 2011 to schedule their presentation. Written comments should be received in the NCADAC DFO's Office by August 9, 2011 to provide sufficient time for NCADAC review. Written comments received by the NCADAC DFO after August 9, 2011 will be distributed to the NCADAC, but may not be reviewed prior to the meeting date.

#### DEPARTMENT OF DEFENSE

##### **Request for Public Comments on the Definition of “Produced” in Defense Federal Acquisition Regulation Supplement (DFARS) 225.7003, Restrictions on Acquisition of Specialty Metals**

**AGENCY:** Department of Defense (DoD).

**ACTION:** Request for public comments.

**SUMMARY:** The Department of Defense is seeking public comments on the definition of “produced” in Defense Federal Acquisition Regulation Supplement (DFARS) 225.7003, Restrictions on acquisition of specialty metals.

**DATES:** Submit written comments to the address shown below on or before September 8, 2011. Comments received will be considered by DoD in the formation of a recommendation to the Secretary of Defense if a revision to the definition is necessary and appropriate.

**ADDRESSES:** Submit comments to: Director, Defense Procurement and Acquisition Policy, 3060 Defense Pentagon, Washington, DC 20301–3060, or e-mail to [patricia.foley@osd.mil](mailto:patricia.foley@osd.mil).

**FOR FURTHER INFORMATION CONTACT:** Patricia Foley, telephone 703–693–1145.

**SUPPLEMENTARY INFORMATION:** The Department of Defense (DoD) is conducting a review of DFARS 225.7003, Restrictions on acquisition of specialty metals, to determine whether it complies with the requirements of section 2533b of title 10, United States

Code, as required by section 823 of the National Defense Authorization Act for Fiscal Year 2011 (Pub. L. 111–383). DoD is seeking public comments on the definition of “produced” in the course of its review. Public comments from industry and industry associations should provide sales and market share data regarding the proportion of specialty metals acquired for DoD major weapons systems. DoD will use these submissions as part of its internal deliberations. Any amendments to the acquisition regulations resulting from these deliberations will be subject to approval by the Defense Acquisition Regulations Council.

**Background:** Section 842 of the National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109–364) added new provisions at 10 U.S.C. 2533b to address requirements for the purchase of specialty metals from domestic sources. 10 U.S.C. 2533b restricts DoD's acquisition of end items containing specialty metals to those “melted or produced” in the United States unless the acquisition meets one of the exceptions in the law. The statute specifically included the phrase “melted or produced,” allowing that melting was not the only acceptable process for creation of domestic specialty metals.

DoD published a proposed rule under DFARS Case 2008–D003, Restriction on Acquisition of Specialty Metals, at 73 FR 42300 on July 21, 2008. DoD considered public comments submitted in response to the proposed rule in the formation of a final rule. DoD published a final rule at 74 FR 37626 on July 29, 2009. The Federal Register notice summarized the concerns expressed in the public comments submitted in response to the proposed rule and the reasoning used in drafting the definition.

DoD defined the term “produce” in the final DFARS rule to incorporate technological progress in the industry that resulted in the production of some specialty metals without requiring melting. The DFARS defines “produce” for use in the specialty metals clause as “the application of forces or processes to a specialty metal to create the desired physical properties through quenching or tempering of steel plate, gas atomization or sputtering of titanium, or final consolidation of non-melt derived titanium powder or titanium alloy powder.”
