What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) Enhance the quality, utility, and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

- 1. Explain your views as clearly as possible and provide specific examples.
- 2. Describe any assumptions that you used.
- 3. Provide copies of any technical information and/or data you used that support your views.
- 4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
- 5. Offer alternative ways to improve the collection activity.
- 6. Make sure to submit your comments by the deadline identified under **DATES**.
- 7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What information collection activity or ICR does this apply to?

Affected entities: Entities potentially affected by this action are state governments. Major respondents are state governments.

Title: State Water Quality Program Management Resource Analysis.

ICR numbers: EPA ICR No. 2433.01, OMB Control No. 2040-NEW.

ICR status: This ICR is for a new information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA, in partnership with states, is conducting the State Water Quality Program Management Resource Analysis to enumerate current and future expenditures and resources for the administration and management of state water quality programs, and to quantify the resource needs for the administration and management of state water quality programs to implement the Clean Water Act (CWA). This effort builds on an expenditure and resource needs data collection effort conducted by EPA in collaboration with the states in 1998 and 2000.

EPA requires this information to comprehend resource expenditures and needs for the administration and management of the water quality programs under 33 U.S.C. 1251 *et seq.* This effort, supported by EPA and the states, is necessary to develop strategies for better managing state water quality programs that implement the CWA, thus ensuring the long-term sustainability, efficiency, and effectiveness of these programs. This effort also helps states and EPA to effectively target resources to meet EPA's FY 2011–2015 strategic goals of protecting the nation's waters and enforcing environmental laws.

This is a one-time collection effort by the Office of Wastewater Management and responses to this ICR are voluntary. The data collection will facilitate creation of a detailed activity-based workload model to serve as a long-term budgeting, program management, and progress tracking tool for the states and EPA to use in the future.

This information will be collected by EPA and made available to the states and to the public in accordance with the requirements of the Freedom of Information Act.

Burden Statement: The annual public reporting and recordkeeping burden for

this collection of information is estimated to average 63 hours per response. Approximately 20 states are expected to respond to this one-time information collection request, for a total estimated annual burden of 1,252 hours and a total estimated cost of \$49,740. The total estimated burden for this information collection activity, including the Agency, is 1,731 hours nationally; the estimated total cost is \$86,518. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential state respondents: 20.

Frequency of response: One time.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 1,731 hours.

Estimated total annual costs: \$86,518. This estimate includes annual labor costs only, since no capital or operation and maintenance costs are associated with this ICR.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: July 19, 2011.

Director, Office of Wastewater Management.

Foremost 4809-ES Insect-O-Fog; Amended Cancellation Order

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the U.S. Environmental Protection Agency's (EPA or the Agency) issuance, pursuant to section 6(a)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), of an amended cancellation order for the pesticide product Foremost 4809-ES Insect-O-Fog, a pesticide product containing Piperonyl Butoxide and Pyrethrins. The registrant of Foremost 4809-ES Insect-O-Fog—Delta Foremost Chemical Corp.—has requested an extension of the May 11, 2011 deadline after which the original cancellation prohibited the registrant of Foremost 4809-ES Insect-O-Fog from selling or distributing that product except for export or disposal. Under the provisions of this amended cancellation order as specified below, sale or distribution of existing stocks of Foremost 4809-ES Insect-O-Fog by the registrant is extended and is now permitted through May 11, 2013 (a 2-year extension of the May 11, 2011 deadline set forth in the original cancellation order).

DATES: This amended cancellation order is effective as of the date of signature.

FOR FURTHER INFORMATION CONTACT: Moana Appleyard, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-8175; fax number: (703) 308-8090; e-mail address: appleyard.moana@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

The Agency included in the original notice a list of those who may be potentially affected by this action. If you have questions regarding the applicability of this action to a particular entity, consult the person

listed under **FOR FURTHER INFORMATION CONTACT**.

B. How can I get copies of this document and other related information?

EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2009-1017. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

II. Background

In the **Federal Register** of May 11, 2010 (75 FR 26227) (FRL-8822-4), EPA announced the Agency's final order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Table 1 of that **Federal Register** Notice, pursuant to section 6(f)(1) of FIFRA. Foremost 4809-ES Insect-O-Fog (EPA Registration Number 001203-00011) was listed in Table 1 of that **Federal Register** Notice. That cancellation order followed a February 3, 2010 (75 FR 5644) (FRL-8807-6) **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 2 of the May 11, 2010 **Federal Register** Notice to voluntarily cancel product registrations. The registrant of Foremost 4809-ES Insect-O-Fog was listed in Table 2 of the May 11, 2010 Notice. In the February 3, 2010 Notice, EPA indicated that it would issue an order implementing the cancellations unless the Agency received substantive comments within a 30-day comment period that would merit its further review of those requests or unless the registrants withdrew their requests. The Agency received comments on the February 3, 2010 Notice, but none merited EPA's further review of the requests. None of the registrants withdrew their requests. Accordingly, EPA issued in the May 11, 2010 Notice a cancellation order granting the requested cancellations, and providing that any distribution, sale, or use of the products subject to that cancellation order was permitted only in accordance with the existing stocks provisions of that order. The existing stocks provisions of the May 11, 2010 cancellation order provided as follows:

The registrants may continue to sell and distribute existing stocks of products listed in

Table 1 until May 11, 2011, which is 1 year after the publication of the Cancellation Order in the **Federal Register**. Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1, except for export in accordance with section 17 of FIFRA, or proper disposal. Persons other than the registrant may sell, distribute, or use existing stocks of products listed in Table 1 until existing stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

75 FR 26227, 26255 (May 11, 2010)

Delta Foremost Chemical Corp. has requested an extension of the May 11, 2011 deadline after which the original cancellation prohibited the registrant of Foremost 4809-ES Insect-O-Fog from selling or distributing that product except for export or disposal. When EPA issued the original cancellation order on May 11, 2010, the Agency anticipated that 1 year would be enough time to allow all of the registrant's existing stocks of Foremost 4809-ES Insect-O-Fog to be sold and enter the channels of trade. However, because of an unforeseen drop in demand due to the general economic downturn, the registrant was unable to sell all of its existing stocks of that pesticide product by May 11, 2011. This pesticide product was canceled due to a voluntary request for cancellation by the registrant. There is no significant risk concern regarding Foremost 4809-ES Insect-O-Fog. Therefore, EPA believes that a 2-year extension of the May 11, 2011 deadline after which Delta Foremost Chemical Corp. is prohibited from selling or distributing its existing stocks of Foremost 4809-ES Insect-O-Fog—*i.e.*, through May 11, 2013—is consistent with the purposes of FIFRA.

III. What action is the agency taking?

This amended cancellation order allows the registrant, Delta Foremost Chemical Corporation, to sell or distribute existing stocks of EPA Registration Number 001203-00011 through May 11, 2013. All provisions of the May 11, 2010 cancellation order that are not in conflict with today's order remain in effect. This amended cancellation order is effective as of the date of signature.

IV. What is the agency's authority for taking this action?

EPA is taking this action pursuant to section 6(a)(1) of FIFRA.

V. Amended Cancellation Order

Pursuant to section 6 of FIFRA, EPA hereby issues an amended cancellation order for the registration of Foremost 4809-ES Insect-O-Fog (EPA Registration
