

additional funds from stationary sources.

SJVUAPCD has demonstrated that its alternative fee-equivalent program will be at least as stringent as a CAA section 185 fee program. Rule 3170 provides SJVUAPCD the authority to collect fees from certain major sources. To the extent that Rule 3170 differs from CAA section 185 by exempting certain major stationary sources and allowing a different baseline calculation, AB2522 allows SJVUACPD to assess supplemental motor vehicle registration fees equivalent to those that would be collected through a straight section 185 fee program, and requires SJVUAPCD to use those revenues to fund incentive-based programs resulting in NO_x and VOC emissions reductions in the San Joaquin Valley. Although we are not approving AB2522 into the SIP, Rule 3170 provides adequate oversight and enforcement mechanisms through the Annual Fee Equivalency Demonstration Report and the shortfall remedy to assure that SJVUAPCD's fee-equivalent alternative program will be at least as stringent as a section 185 fee program. We therefore conclude that SJVUAPCD's alternative fee-equivalent program is consistent with the principles of CAA section 172(e) and not less stringent than the requirements of CAA section 185 because it will result in collection of fees equal to the fees that would be collected under section 185. Based upon SJVUAPCD's demonstration that its alternative fee-equivalent program is not less stringent than a section 185 program, EPA proposes to approve Rule 3170 into the California SIP on the basis that SJVUAPCD's alternative fee-equivalent program meets the requirements of sections 172(e) and 185 of the Act.

The TSD has more information on our evaluation.

VI. Proposed Action

Because EPA believes SJVUAPCD Rule 3170 fulfills all relevant requirements, we are proposing to approve Rule 3170 as a SIP revision under section 110(k)(3) of the Act. EPA believes that SJVUAPCD's alternative fee-equivalent program is not less stringent than the requirements set forth in section 185 of the Act, therefore we are proposing to approve SJVUAPCD's alternative fee-equivalent program consisting of Rule 3170 and state law authorities as fulfilling the requirements of sections 185 and 172(e) of the Act.

We will accept comments from the public on these proposals for the next 30 days. Unless we receive convincing new information during the comment period, we intend to publish a final

approval action that will incorporate Rule 3170 into the federally enforceable SIP. Our final action would address the CAA section 185 requirements for the 1-hour ozone standard and therefore would permanently terminate the sanctions clocks associated with our January 13, 2010 action on the effective date of the final approval.

VII. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve State choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this proposed action merely proposes to approve State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this proposed action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address disproportionate human health or environmental effects with practical, appropriate, and legally permissible

methods under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed action does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the State, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Intergovernmental relations, Nitrogen dioxide, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Authority: 42 U.S.C. 7401 *et seq.*

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA-2008-0020; Internal Agency Docket No. FEMA-B-1075]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule; correction.

SUMMARY: On October 27, 2009, FEMA published in the **Federal Register** a proposed rule that contained an erroneous table. This notice provides corrections to that table, to be used in lieu of the information published at 74 FR 55168. The table provided here represents the flooding sources, location of referenced elevations, effective and modified elevations, and communities affected for Peoria County, Illinois, and Incorporated Areas. Specifically, it addresses the following flooding sources: Dry Run Creek, Illinois River, and Kickapoo Creek.

DATES: Comments are to be submitted on or before October 26, 2011.

ADDRESSES: You may submit comments, identified by Docket No. FEMA-B-1075, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency

Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-4064 or (e-mail) *luis.rodriquez1@dhs.gov*.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064 or (e-mail) *luis.rodriquez1@dhs.gov*.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) publishes proposed determinations of Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are minimum requirements. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

Corrections

In the proposed rule published at 74 FR 55168, in the October 27, 2009, issue of the **Federal Register**, FEMA published a table under the authority of 44 CFR 67.4. The table, entitled “Peoria County, Illinois, and Incorporated Areas” addressed the flooding source Illinois River. That table contained inaccurate information as to the location of referenced elevation, effective and modified elevation in feet, or communities affected for that flooding source. In addition, it did not include the flooding sources Dry Run Creek and Kickapoo Creek. In this notice, FEMA is publishing a table containing the accurate information, to address these prior errors. The information provided below should be used in lieu of that previously published.

Flooding source(s)	Location of referenced elevation**	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground ^ Elevation in meters (MSL)		Communities affected
		Effective	Modified	
Peoria County, Illinois, and Incorporated Areas				
Dry Run Creek	At the downstream side of Swords Avenue	None	+481	City of West Peoria.
	At the upstream side of Park Road	None	+511	
Illinois River	Approximately 0.57 mile upstream of Marsh Road	+455	+454	City of Chillicothe, City of Peoria, Unincorporated Areas of Peoria County, Village of Bartonville, Village of Kingston Mines, Village of Mapleton.
Kickapoo Creek	Approximately 1,400 feet upstream of Moffitt Street ...	None	+460	
	Approximately 60 feet downstream of Harmon Highway/State Route 116.	None	+473	
	At the downstream side of Farmington Road	None	+480	City of Peoria, City of West Peoria, Village of Bellevue.

* National Geodetic Vertical Datum.

+ North American Vertical Datum.

Depth in feet above ground.

^ Mean Sea Level, rounded to the nearest 0.1 meter.

** BFEs to be changed include the listed downstream and upstream BFEs, and include BFEs located on the stream reach between the referenced locations above. Please refer to the revised Flood Insurance Rate Map located at the community map repository (see below) for exact locations of all BFEs to be changed.

Send comments to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 679**

RIN 0648-BA97

Fisheries of the Exclusive Economic Zone Off Alaska; Central Gulf of Alaska Rockfish Program; Amendment 88

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of availability of fishery management plan amendment; request for comments.

SUMMARY: The National Marine Fisheries Service (NMFS) announces that the North Pacific Fishery Management Council (Council) has submitted Amendment 88 to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) for review by the Secretary of Commerce (Secretary). If approved, Amendment 88 would establish the Central Gulf of Alaska Rockfish Program (Rockfish Program). This proposed program would allocate exclusive harvest privileges to a select group of License Limitation Program (LLP) license holders who used trawl gear to target Pacific ocean perch, pelagic shelf rockfish, and northern rockfish during specific qualifying years. Amendment 88 would modify the FMP to retain the conservation,

management, safety, and economic gains realized under the Rockfish Pilot Program and viability of the Gulf of Alaska fisheries. This action is necessary to replace particular Rockfish Pilot Program regulations that are scheduled to expire at the end of 2011. This action is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act, the FMP, and other applicable law.

DATES: Comments on Amendment 88 must be received on or before September 26, 2011.

ADDRESSES: Send comments to Glenn Merrill, Assistant Regional Administrator for Sustainable Fisheries, Alaska Region, NMFS, *Attn:* Ellen Sebastian. You may submit comments, identified by RIN 0648-BA97, by any one of the following methods:

- *Electronic Submissions:* Submit all electronic public comments via the Federal eRulemaking Portal Web site at <http://www.regulations.gov>.
- *Mail:* P.O. Box 21668, Juneau, AK 99802.
- *Fax:* 907-586-7557.
- *Hand delivery to the Federal Building:* 709 West 9th Street, Room 420A, Juneau, AK.

All comments received are a part of the public record and will generally be posted to <http://www.regulations.gov> without change. All personal identifying information (e.g., name, address) voluntarily submitted by the commenter may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information.

NMFS will accept anonymous comments (enter N/A in the required fields, if you wish to remain anonymous). Attachments to electronic comments will be accepted in Microsoft Word, Excel, WordPerfect, or Adobe portable document file (pdf) formats only.

Electronic copies of Amendment 88 to the FMP, the Regulatory Impact Review,

the Initial Regulatory Flexibility Analysis, and the Environmental Assessment, prepared for this action are available from <http://www.regulations.gov> or from the Alaska Region Web site at <http://alaskafisheries.noaa.gov>.

FOR FURTHER INFORMATION CONTACT:

Gwen Herrewig, 907-586-7091.

SUPPLEMENTARY INFORMATION:

The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) requires that each regional fishery management council submit any fishery management plan amendment it prepares to NMFS for review and approval, disapproval, or partial approval by the Secretary of Commerce (Secretary). The Magnuson-Stevens Act also requires that NMFS, upon receiving a fishery management plan amendment, immediately publish a notice in the **Federal Register** announcing that the amendment is available for public review and comment. This document announces that proposed Amendment 88 to the FMP is available for public review and comment.

The groundfish fisheries in the exclusive economic zone of Alaska are managed under the GOA FMP and the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area. These fishery management plans were prepared by the North Pacific Fishery Management Council (Council) under the Magnuson-Stevens Act.

Amendment 88 is necessary to replace Central Gulf of Alaska (GOA) Rockfish Pilot Program (Pilot Program) regulations that are scheduled to expire December 31, 2011. The Pilot Program was recommended by the Council in June 2005 as Amendment 68 to the Central GOA FMP. Section 802 of the Consolidated Appropriations Act of 2004 (Pub. L. 108-199) granted NMFS specific authority to manage Central GOA rockfish fisheries, and directed the
