

Washington, DC 20503, *Telephone:* 202-395-6929/*Fax:* 202-395-6881 (these are not toll-free numbers), *e-mail:* OIRA_submission@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT: Michel Smyth, by telephone at 202-693-4129 (this is not a toll-free number) or by e-mail at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The Equal Access to Justice Act provides for payment of fees and expenses to eligible parties who have prevailed against the Department in certain administrative proceedings. In order to obtain an award, the statute and associated regulations (29 CFR part 16) require the filing of an application which shows that the party is a prevailing party and is eligible to receive an award under the Act. The DOL regulations implementing the Equal Access to Justice Act contain a subpart that specifies the contents of applications of an award. 29 CFR part 16, subpart B.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid OMB control number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under OMB Control Number 1225-0013. The current OMB approval is scheduled to expire on July 31, 2011; however, it should be noted that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional information, see the related notice published in the **Federal Register** on March 21, 2011 (76 FR 15341).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should reference OMB Control Number 1225-0013. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Office of the Assistant Secretary and Management (OASAM).

Title of Collection: Equal Access to Justice Act.

OMB Control Number: 1225-0013.

Affected Public: Businesses or other for-profits.

Total Estimated Number of Respondents: 10.

Total Estimated Number of Responses: 10.

Total Estimated Annual Burden Hours: 50.

Total Estimated Annual Other Costs Burden: \$20.

Dated: July 22, 2011.

Michel Smyth,

Departmental Clearance Officer.

BILLING CODE 4510-43-P

OFFICE OF MANAGEMENT AND BUDGET

Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Office of Management and Budget, Office of Federal Financial Management.

ACTION: Notice; Request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), the Office of Management and Budget (OMB) invites the general public and Federal agencies to comment on the renewal without change of the Standard Form 425, Federal Financial Report and the SF-425A, Federal Financial Report Attachment. Both forms are used in reporting financial information under grants and cooperative agreements.

DATES: Comments must be received by September 26, 2011. Due to potential

delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, we encourage respondents to submit comments electronically to ensure timely receipt. We cannot guarantee that comments mailed will be received before the comment closing date.

ADDRESSES: Comments may be sent through regulations.gov, a Federal E-Government Web site that allows the public to find, review, and submit comments on documents that agencies have published in the **Federal Register** and that are open for comment. Simply type "FFR renewal" (in quotes) in the Comment or Submission search box, click Go, and follow the instructions for submitting comments. Comments received by the date specified above will be included as part of the official record.

Marguerite Pridgen, Office of Federal Financial Management, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503; telephone 202-395-7844; fax 202-395-3952; e-mail mpridgen@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT: Marguerite Pridgen at the addresses noted above.

SUPPLEMENTARY INFORMATION: In the Paperwork Reduction Act notice published on August 13, 2008 [73 FR 47246], OMB directed Federal agencies to transition their grant and cooperative agreement recipients from using the Standard Forms 269, 269A, 272, and 272A to using the Standard Form (SF) 425, Federal Financial Report and Standard Form 425A, Federal Financial Report Attachment by no later than October 1, 2009. With this first renewal cycle for the SF-425 and SF-425A, the Office of Management and Budget (OMB) invites the general public and Federal agencies to comment on the renewal without change of the Standard Form 425, Federal Financial Report and the SF-425A, Federal Financial Report Attachment, which are posted at <http://www.whitehouse.gov/omb/grants/forms>. We are particularly interested in feedback on (1) How the SF-425 and SF-425A are an improvement over the data collections they replaced (SF-269, SF-269A, SF-272, and SF-272A); (2) how using a specification for a data exchange or other data model instead of structured forms could facilitate the submission and collection of the financial data identified in the SF-425 and SF-425A; and (3) any proposals, use cases, specifications, or models for eliminating redundancies in reporting grant financial information and increasing its usefulness regardless of how the

financial information is reported (form, data input, system-to-system, etc.)

OMB Control No.: 0348–0061.

Title: Federal Financial Report.

Form No.: SF–425, SF–425A.

Type of Review: Renewal of a currently approved collection.

Respondents: States, Local Governments, Universities, Non-Profit Organizations.

Number of Responses: 1,200,000.

Estimated Time per Response: 60 minutes.

Needs and Uses: The SF–425 is used to collect financial information for recipients of grants and cooperative agreements and related transactions under nonconstruction grant programs.

Debra J. Bond,

Deputy Controller.

BILLING CODE

NUCLEAR REGULATORY COMMISSION

[Docket No. 04009067; NRC–2008–0339]

Notice of Issuance of Materials License SUA–1597 and Record of Decision for Uranerz Energy Corporation Nichols Ranch In Situ Recovery Project

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of issuance of materials license SUA–1597.

SUPPLEMENTARY INFORMATION: The Nuclear Regulatory Commission (NRC or the Commission) has issued a license to Uranerz Energy Corporation (Uranerz) for its Nichols Ranch uranium *in situ* recovery (ISR) Project in Johnson and Campbell Counties, Wyoming. Materials License SUA–1597 authorizes Uranerz to operate its facilities as proposed in its license application, as amended, and to possess uranium source and byproduct material at the Nichols Ranch ISR Project. Furthermore, Uranerz will be required to operate under the conditions listed in Materials License SUA–1597.

This notice also serves as the record of decision for the NRC decision to approve Uranerz's license application for the Nichols Ranch facility and issue Materials License SUA–1597. This

record of decision satisfies the regulatory requirement in Section 51.102(a) of Title 10 of the *Code of Federal Regulations (10 CFR)*, which requires a Commission decision on any action for which a final environmental impact statement has been prepared to be accompanied by or include a concise public record of decision.

The NRC considers the entire publicly available record for a license application to constitute the agency's record of decision. Documents related to the application carry docket number 04009067. These documents for the Nichols Ranch ISR Project include the license application (including the applicant's environmental report) (ML080080600), the Commission's Safety Evaluation Report (SER) published in July 2011 (ML102240206) and the Commission's Final Supplemental Environmental Impact Statement (FSEIS) (NUREG–1910, Supplement 2) published in January 2011 (ML103440120). The record of decision also includes the applicable portions of the Generic Environmental Impact Statement for In-Situ Leach Uranium Milling Facilities (NUREG–1910) as incorporated by reference in the FSEIS.

As discussed in the Nichols Ranch FSEIS, the Commission considered a range of alternatives. The reasonable alternatives discussed in detail were the applicant's proposal as described in its license application to conduct in-situ uranium recovery on the site and the no-action alternative. Other alternatives considered but eliminated from detailed analysis include conventional uranium mining and milling, conventional mining and heap leach processing, alternative site location, alternate lixivants, and alternate wastewater treatment methods. The factors considered when evaluating the alternatives, discussion of preferences among the alternatives, and license conditions and monitoring programs related to mitigation measures are also discussed in the Nichols Ranch FSEIS. The FSEIS also contained the NRC staff recommendation to the Commission, related to the environmental aspects of the proposed action that the source material license should be issued as

requested, unless safety issues mandate otherwise.

The NRC has found that the application for the source materials license complied with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. As required by the Act and the Commission's regulations in 10 CFR 40.32(b–c), the staff has found that Uranerz is qualified by reason of training and experience to use source material for the purpose it requested and Uranerz's proposed equipment and procedures for use at its Nichols Ranch Project are adequate to protect public health and minimize danger to life or property. The NRC staff's review supporting these findings is documented in the SER. The NRC staff also concluded, in accordance with 10 CFR 40.32(d), that issuance of Materials License SUA–1597 to Uranerz will not be inimical to the common defense and security or to the health and safety of the public. The staff also found in accordance with 10 CFR 40.32(e), after weighing the environmental, economic, technical and other benefits against environmental costs and considering available alternatives, that the action called for is the issuance of License Amendment No. 1 to Materials License SUA–1597.

Uranerz's request for a materials license was previously noticed in the **Federal Register** on June 16, 2008 (73 FR 34052), with a notice of an opportunity to request a hearing. The NRC did not receive any requests for a hearing on the license application.

SUPPLEMENTARY INFORMATION: In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," the details with respect to this action, including the SER and accompanying documentation and license, are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of the NRC's public documents.
