

necessitating take authority under the permit.

Baseline conditions have been determined for the Enrolled Property based on the occurrence of California red-legged frog and the extent of suitable habitat as provided in the Agreement. The Applicant must maintain baseline on the Enrolled Property in order to receive coverage regarding incidental take of California red-legged frogs. The Agreement and requested permit would allow the Applicant to return the Enrolled Property to baseline conditions after the end of the term of the Agreement and prior to the expiration of the 30-year permit, if so desired by the Applicant.

Public Review and Comments

The Service has made a preliminary determination that the proposed Agreement and permit application are eligible for categorical exclusion under the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*). We explain the basis for this determination in an Environmental Action Statement, which also is available for public review.

Individuals wishing copies of the permit application, copies of our draft Environmental Action Statement, and copies of the Agreement, including a map of the proposed permit area, should contact the Ventura Fish and Wildlife Office (see **ADDRESSES**).

If you wish to comment on the permit application or the Agreement, you may submit your comments to one of the addresses listed in the **ADDRESSES** section of this document. Comments and materials received, including names and addresses of respondents, will be available for public review, by appointment, during normal business hours at the address in the **ADDRESSES** section above and will become part of the public record, under section 10(c) of the Act.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

We will evaluate this permit application, associated documents, and comments we receive to determine whether the permit application meets the requirements of section 10(a) of the Act and NEPA regulations. If we determine that the requirements are

met, we will sign the proposed Agreement and issue an enhancement of survival permit under section 10(a)(1)(A) of the Act to the Applicant for take of the California red-legged frog incidental to otherwise lawful activities in accordance with the terms of the Agreement. We will not make our final decision until after the end of the 30-day comment period and will fully consider all comments we receive during the comment period.

The Service provides this notice under section 10(c) of the Act and under implementing regulations for NEPA (40 CFR 1506.6).

SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection pertains to volunteers who contribute their time to conduct frog call surveys at assigned survey routes that are part of the North American Amphibian Monitoring Program. Volunteers use an on-line data entry system to submit their data. This information is used by scientists and Federal, state, and local agencies to monitor amphibian populations and detect population trends. Responses are voluntary. Please go to: <http://www.pwrc.usgs.gov/naamp> for more information about the NAAMP.

II. Data

OMB Control Number: 1028-0078.

Title: North American Amphibian Monitoring Program (NAAMP).

Type of Request: Extension of a currently approved collection.

Affected Public: General public; individual households.

Respondent Obligation: Voluntary.

Frequency of Collection: 3 times per year.

Estimated Number of Annual Responses: 1,700.

Annual Burden Hours: 5,100 hours.

We estimate an average of 3 hours per response. This includes driving time to and from the survey route locations; listening periods at each sampling station; and data entry.

Estimated Reporting and Recordkeeping "Non-Hour Cost"

Burden: The estimated non-hour cost for this collection includes: A thermometer (a one-time cost per respondent) and mileage. The thermometer is needed to record air temperature during the survey. The cost of such thermometers is approximately \$15. The total operational costs consist of a mileage estimate in accomplishing a survey, calculated by using the mileage reimbursement rate of \$0.50 cents per mile (as used in travel reimbursement for Federal employees) times 15 miles (the approximate distance of a calling survey route), for a total of \$7.50 per survey.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number.

Please note that the comments submitted in response to this notice are a matter of public record. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time.
