SUPPLEMENTARY INFORMATION: *Title:* Pork and Poultry Products From Mexico Transiting the United States.

OMB Number: 0579-0145.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture is authorized, among other things, to prohibit the importation and interstate movement of animals and animal products to prevent the introduction into and dissemination within the United States of animal diseases and pests. To fulfill this mission, APHIS regulates the importation of animals and animal products into the United States. The regulations are contained in title 9,

chapter 1, subchapter D, parts 91 through 99, of the Code of Federal Regulations.

The regulations in 9 CFR 94.15 allow fresh (chilled or frozen) pork and pork products and poultry carcasses, parts, and products (except eggs and egg products) that are not eligible to enter into the United States to transit the United States from specified States in Mexico, via land ports, for export to another country.

The regulations set out conditions for the transit movements that protect against the introduction of classical swine fever or exotic Newcastle disease into the United States. These conditions involve the use of information collection activities, including the completion of an import permit application, the placement of serially numbered seals on product containers, and the forwarding of a pre-arrival notification to U.S. port personnel.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.91667 hours per response.

Respondents: U.S. importers of pork and poultry products from Mexico to the United States and Federal animal health authorities in Mexico.

Estimated annual number of respondents: 29.

Estimated annual number of responses per respondent: 1.2413793.

Estimated annual number of responses: 36.

Estimated total annual burden on respondents: 33 hours. (Due to

averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 26th day of July 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
