

### III. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be cancelled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The registrants in Table 4 of Unit II. have requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 30-day comment period on the proposed requests.

### IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

### V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Upon cancellation of the products identified in Tables 1, 2, and 3 of Unit II., EPA will allow existing stocks provisions as follows:

#### A. Registrations Listed in Table 1 of Unit II Except Nos. 080490-00002, 080490-00003, 080490-00004

The Agency anticipates allowing registrants to sell and distribute existing stocks of these products for 1 year after publication of the Cancellation Order in the **Federal Register**. Thereafter, registrants will be prohibited from

selling or distributing the pesticides identified in Table 1 of Unit II., except for export consistent with FIFRA section 17 or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled products.

#### B. Registrations Nos. 080490-00002, 080490-00003, 080490-00004

The Agency anticipates allowing registrants to sell and distribute existing stocks of these products through September 30, 2011. Thereafter, registrants will be prohibited from selling or distributing these pesticide products, except for export consistent with FIFRA section 17 or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled products.

#### C. Registrations Listed in Table 2 of Unit II

The effective date of cancellation of these products is the date of publication of the cancellation order in the **Federal Register**. The registrants will be allowed to sell and distribute existing stocks until December 31, 2011. Thereafter, registrants will be prohibited from selling or distributing these pesticide products, except for export consistent with FIFRA section 17 or for proper disposal.

Persons other than the registrant will be allowed to sell and distribute existing stocks through April 30, 2012. After this date, remaining existing stocks may be used until exhausted, provided that such use complies with the EPA-approved label and labeling of the product.

#### D. Registrations Listed in Table 3 of Unit II

The effective date of cancellation of these products is the date of publication of the cancellation order in the **Federal Register**. EPA does not intend to allow the continued sale and distribution of existing stocks of these products after the effective date of this cancellation for several reasons. First, there are currently no tolerances in effect for any of the food or feed crops associated with the domestic use of these products, and there have been none since the 2009 tolerance revocations took effect on

December 31, 2009, (May 15, 2009, 74 FR 23046) (FRL-8413-3). In addition, the Agency believes that little, if any existing stock remains in the hands of retailers, based on the sole registrant's repeated representation that no carbofuran products have been released for shipment since January 2010, and that they have offered to buy back unused carbofuran products. Consequently, sale of existing stocks of carbofuran is prohibited as of the effective date of this cancellation. Users may only use those carbofuran products labeled for non-food use (ornamentals, spinach grown for seed, and pine seedlings) on those specific crops and in accordance with all geographical restrictions. Any food or feed crops with carbofuran residues after this date will be considered adulterated and subject to seizure.

The Commission adopted the newly revised certification process to ensure that iTRS providers receiving certification are qualified to provide iTRS in compliance with the Commission's rules, and to eliminate waste, fraud and abuse through improved oversight of such providers.

The *Second Report and Order* contains information collection requirements with respect to the following four requirements, all of which aims to ensure that providers are qualified to provide iTRS and that the services are provided in compliance with the Commission's rules with no or minimal service interruption.

5. For all applicants, a list of the number of applicant's full-time and part-time employees involved in TRS operations, including and divided by the following positions: executives and officers; video phone installers (in the case of VRS), communications assistants, and persons involved in marketing and sponsorship activities;

6. Where applicable, a description of the call center infrastructure, and for all core call center functions (automatic call distribution, routing, call setup, mapping, call features, billing for compensation from the TRS fund, and registration) a statement whether such equipment is owned, leased or licensed (and from whom if leased or licensed) and proofs of purchase, leases or license agreements, including a complete copy of any lease or license agreement for automatic call distribution;

7. For all applicants, copies of employment agreements for all of the provider's executives and communications assistants need not be

(D) *Reporting of Unforeseen Service Interruptions.* With respect to brief, unforeseen service interruptions or in the event of a VRS provider's voluntary service interruption of less than 30 minutes in duration, the *Second Report and Order* requires that the affected provider submit a written notification to CGB within two business days of the commencement of the service interruption, with an explanation of when and how the provider has restored service or the provider's plan to do so imminently. In the event the provider has not restored service at the time such report is filed, the provider must submit a second report within two business days of the restoration of service with an explanation of when and how the provider has restored service.
