

future issuances of securities and assumptions of liability, is August 30, 2011.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: August 10, 2011.

**Kimberly D. Bose,**  
Secretary.

[Project No. 14207-000]

#### Percheron Power, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On May 31, 2011, Percheron Power, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Scooteney Reservoir Outlet Water Power Project (Scooteney Outlet Project or project) to be located on the Potholes East Canal, which is an outlet structure from the Scooteney Reservoir, near Othello, Franklin County, Washington.

The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) An approximately 300-foot-long intake structure installed on the Potholes East Canal to divert flow from the canal to the turbines, which would be 100 feet wide at the intersection with the canal and would narrow to 50 feet wide before entering the powerhouse, and would include a 100-foot-wide, 15-foot-high intake grate and a 50-foot-wide, 15-foot-high trash rack; (2) an approximately 65-foot-long, 20-foot-wide powerhouse containing four low-head turbine/generator units rated for approximately 260 kilowatts each (total capacity of 1,050 kilowatts) at an average head of 11 feet; (3) a 600-foot-long, 11-foot-high bypass weir, constructed in parallel to the west bank of the existing Potholes East Canal, to function as a project spillway; (4) a discharge canal returning flows from the powerhouse to the Potholes East Canal; (5) a 20-foot-long, 40-foot-wide substation at the powerhouse which will connect with the existing distribution line at the project site; and (6) appurtenant facilities. The project will be located on federal lands, and would operate as run-of-release using irrigation flows provided by the Bureau of Reclamation and the South Columbia Basin Irrigation District. The estimated annual generation of the Scooteney Outlet Project would be 3.76 gigawatt-hours.

*Applicant Contact:* Mr. Jerry Straalsund, President, Percheron Power, LLC, 6855 W. Clearwater Ave., A101-260, Kennewick, WA 99336; e-mail: [jls@percheronpower.com](mailto:jls@percheronpower.com).

*FERC Contact:* Jennifer Harper; phone: (202) 502-6136.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the

eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at 1-866-208-3676, or for TTY, (202) 502-8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. #### Gay & Robinson, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On July 1, 2011, Gay & Robinson, Inc., filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Olokele River Hydroelectric Project (Olokele River Project or project) to be located on the Olokele River, near Waimea, Kauai County, Hawaii. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A new 100-foot-long, 20-foot-wide forebay; (2) a new intake; (3) a new 4,175-foot-long, 42-inch-diameter ductile iron penstock; (4) a new 40-foot-long, 40-foot-wide, 25-foot-

high pre-fabricated steel powerhouse housing a 6.0-megawatt (MW) Pelton turbine/generator unit; (5) a new 5-mile-long, 69-kilovolt transmission line; and (6) appurtenant facilities. The estimated annual generation of the Olokele River Project would be 20.5 gigawatt-hours.

#### Goat Lake Hydro, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On July 15, 2011, Goat Lake Hydro, Inc., filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Connelly Lake Hydropower Project (Connelly Lake Project) to be located on Connelly Lake, and an unknown tributary of the Chilkoot River, Haines Borough, Alaska. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The project will consist of the existing 90-acre Connelly Lake and the following proposed new facilities: (1) A 60-foot-high rock-filled dam proposed to be constructed at the outlet of Connelly Lake which would raise Connelly Lake from elevation 2,280 feet to 2,325 feet mean sea level and increase the surface area from 90 acres to 170 acres; (2) an intake to be constructed on the left abutment of the dam; (3) a spillway (either an ungated weir on the right abutment of the dam, or a shaft spillway on the left abutment); (4) a 42-inch-diameter, 5,700-foot-long, above-ground penstock extending from the outlet of the intake tunnel to the powerhouse on the west bank of the Chilkoot River; (5) a 40-foot-long, 60-foot-wide powerhouse to contain two turbine/generating units with a total installed capacity of 12 megawatts, with a hydraulic capacity of 90 cubic feet per second, and an average hydraulic head of 2,120 feet; (6) an excavated, riprap-lined channel tailrace extending about 50 feet from the powerhouse to the Chilkoot River; (7) a 14-mile-long, 34.5-kilovolt transmission line proposed to interconnect with a local, existing utility transmission line; and (8) appurtenant facilities. The estimated annual generation of the Connelly Lake Project would be 45 gigawatt-hours.

*Applicant Contact:* Mr. Robert S. Grimm, CEO/President, Goat Lake Hydro, Inc., c/o Alaska Power & Telephone Company, P.O. Box 3222,

Port Townsend, WA 98368, *phone:* (360) 385-1733 ex. 120.

*FERC Contact:* Patrick Murphy; *phone:* (202) 502-8755.
