Northland Power Mississippi River LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On January 3, 2011, Northland Power Mississippi River LLC filed an application, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of hydropower on the Mississippi River, near the town of New Orleans, in Jefferson and Orleans Parishes, Louisiana. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed NPI 017 hydrokinetic project would consist of the following: (1) Up to 180 TREK generating units installed in a matrix on the bottom of the river; (2) the total capacity of the installation would be up to 45,000 kilowatts; (3) shielded underwater cables would convey each matrix's power to a substation; and (4) a transmission line would interconnect with the power grid. The proposed project would have an average annual generation of 394.0 gigawatt-hours (GWh), which would be sold to a local utility.

2-(Hydroxymethyl)-2-nitro-1,3-propanediol (Tris Nitro); Amendments To Terminate Uses for Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the amendments to terminate uses, voluntarily requested by the registrant and accepted by the Agency, of products containing the pesticide listed in Table 1, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows a June 8, 2011 **Federal Register** Notice of Receipt of Requests from the registrant listed in Table 1 to voluntarily amend to terminate uses of these product registrations. These are not the last products containing these pesticides registered for use in the United States. In the June 8, 2011 notice, EPA indicated that it would issue an order implementing the amendments to terminate uses, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrant withdrew their requests within this period. The Agency did not receive any comments on the notice. Further, the registrant did not withdraw their requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested amendments to terminate uses. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in

accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective August 26, 2011.
