## INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-736]

### Certain Wind and Solar-Powered Light Posts and Street Lamps; Notice of Commission Determination Not To Review an Initial Determination Granting Complainants' Unopposed Motion To Terminate the Investigation Based on the Withdrawal of the Complaint; Termination of the Investigation

**AGENCY:** U.S. International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the U.S. International Trade Commission has determined not to review an initial determination ("ID") (Order No. 20) of the presiding administrative law judge ("ALJ") granting complainants' motion to terminate the investigation based on the withdrawal of the complaint in the above-referenced investigation.

**FOR FURTHER INFORMATION CONTACT:** Jia Chen, Office of the General Counsel, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone (202) 708-4737. Copies of non-confidential documents filed in connection with this investigation are or will be available for inspection during official business

hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone (202) 205-2000. General information concerning the Commission may also be obtained by accessing its Internet server at <http://www.usitc.gov>. The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

**SUPPLEMENTARY INFORMATION:** The Commission instituted this investigation on September 27, 2010, based on a complaint filed by Duggal Dimensions LLC; Duggal Energy Solutions, LLC; and Duggal Visual Solutions, Inc., collectively of New York, New York. 75 FR 59291 (Sept. 27, 2010). The complaint alleged violations of Section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain wind and solar-powered light posts and street lamps by reason of infringement of certain claims of U.S. Patent No. D610,732. The complaint named Gus Power Inc. of Mississauga, Ontario, Canada; Efston Science, Inc. of Toronto, Ontario, Canada; King Luminaire, Inc. of Jefferson, Ohio; and The StressCrete Group of Burlington, Ontario as respondents.

On July 29, 2011, the ALJ issued an ID (Order No. 18) extending the target date of the investigation by approximately two months from January 27, 2012 to March 16, 2012 on the basis of the parties' delay to the procedural schedule.

On August 1, 2011, complainants filed an unopposed motion to terminate the investigation based on the withdrawal of the complaint, stating that the private parties have entered into a written settlement agreement ("Settlement Agreement"). Public and confidential versions of the Settlement Agreement were attached to the motion. The motion also stated that there are no other agreements, written or oral, express or implied, between the parties concerning the subject matter of this investigation. On August 2, 2011, the ALJ issued the subject ID granting complainants' unopposed motion. The public version of the Settlement Agreement is attached to the ID. The ALJ found that complainants' motion complies with Commission Rule 210.21(a). In the ID, the ALJ also denied

a previous motion by respondents to terminate the investigation (Motion Docket No. 736-018) and a motion in limine by complainants to exclude the testimony of respondents' experts (Motion Docket No. 736-716), because the motions are moot.

The Commission has determined not to review the subject ID. The Commission notes that as a result, the ID extending the target date of the investigation is moot.

The authority for the Commission's determination is contained in Section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in section 210.42 of the Commission's Rules of Practice and Procedure (19 CFR 210.42).

By order of the Commission.

Issued: August 23, 2011.

**James R. Holbein,**

Secretary to the Commission.

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Overview of this information:

1. Type of information collection: New data collection, Census of Problem-Solving Courts (CPSC), 2011
2. The title of the form/collection: Census of Problem-Solving Courts or CPSC, 2011
3. The agency form number, if any, and the applicable component of the Department sponsoring the collection: The form labels are CPSC, Bureau of Justice Statistics, Office of Justice Programs, U.S. Department of Justice.
4. Affected Public Who Will be Asked or Required to Respond, as well as a Brief Abstract: Problem-solving courts at all levels of government. Abstract: The Bureau of Justice Statistics (BJS) proposes to implement a Census of Problem-Solving Courts (CPSC). Problem-solving courts target defendants who have ongoing social and/or psychological conditions that underlie their repeated contact with the criminal justice system. Most of the existing information about problem-solving courts (PSC) consists of court evaluations or outcome analyses. No prior census of these courts has been

conducted to date despite the substantial proliferation of such courts during the past thirty years. Hence, the CPSC will allow BJS to provide national level information on problem-solving courts and case processing statistics and it will also create a sampling frame of PSCs thereby enabling BJS to conduct future sample-based research on PSCs. The CPSC is designed to provide BJS and other interested stakeholders with the first systematic empirical information on problem-solving courts. A goal of the census is to obtain information on problem-solving court operations, administration, and to generate accurate and reliable statistics on adult offenders who enter problem-solving court programs. The CPSC will collect information on the following categories:

- a. Court Operations
  - i. Does the court operate within the judiciary, have a dedicated judicial officer, or have a dedicated docket/calendar?
  - ii. Provide the number of problem-solving courts by type (*e.g.*, mental health, drug, *etc.*)
  - iii. Determine PSCs level of government operations (*e.g.*, local, state, *etc.*), court jurisdiction (*e.g.*, limited, general, other) and intake of felony, misdemeanor, or status offenses
- b. Funding: Types and prevalence of PSC funding (*e.g.*, local government budget, state budget, *etc.*)
- c. Commonly Used Services:
  - i. Count the types and prevalence of offender/victim services (*e.g.*, anger management), counseling or treatment services (*e.g.*, outpatient mental health treatment), and general supportive services (*e.g.*, life skills)
  - d. Participant participation
    - i. Participant inclusionary and exclusionary factors,
    - ii. Participant point of entry (*e.g.* pre-plea, post-plea/pre-sentence, *etc.*)
  - e. Capacity and Enrollment
    - i. Total number of active participants PSC can manage at any one time
    - ii. Current number of active participants
  - f. Data Collection Practices:
    - i. Use of automated case management systems
    - ii. PSCs' ability to query information
  - g. PSC Participant information:
    - i. Percentage of program participants by age, gender, racial classification,
    - ii. Housing status
    - iii. Employment status
    - h. PSC information for calendar year 2011 only:
      - i. Number or people referred and admitted to PSCs,
      - ii. PSCs average participant attendance to: scheduled judicial,

community supervision meetings, treatment sessions, and drug tests

- iii. Number or participants exiting program,
- iv. Number of participants by gender, race, and age.

Additionally, the information collected through this census will support development of a sampling framework to examine case processing information and case dispositions of adults in problem-solving courts. Information will be collected for the 2011 calendar year.

5. An Estimate of the Total Number of Respondents and the Amount of Time Estimated for an Average Respondent to Respond: Estimates suggest 3,800 respondents will take part in the Census of Problem-Solving Courts 2011. The average (mean) burden for each completed survey is almost 1 hour per respondent. The estimated range of burden for respondents is between 40 minutes to 2 hours for completion. The following factors were considered when creating the burden estimate: the total number of drug courts in the field, the total number of mental health courts, the ability of problem-solving courts (by type) to access data, and the type of data capabilities generally found in the field. Using these criteria, respondents were categorized into three groups depending upon whether they had the capacity to complete only part I or both parts (I&II) of the survey. Group A respondents will have the least access to data and complete only part one of the survey. Approximately 2,300 respondents will be in this group. It is estimated that respondents in group A will take 40 minutes to complete the survey. Group (B) respondents will complete part one of the survey and have access to only limited information necessary for part two of the survey. Approximately 1,200 respondents will be in this group. This second group of respondents will take about 1 hour and 15 minutes to complete a survey. The third group (C) of respondents will complete parts one and two of the survey; they will have the greatest access to the information required for part two of the survey. Approximately 300 respondents will be in group C. It is estimated it will take this group about 2 hours to complete the survey.

6. An Estimate of the Total Public Burden (in hours) Associated with the collection: The estimated public burden associated with this collection is 3,633 hours. Respondents were categorized into three groups depending upon whether they had the capacity to complete only part I or both parts (I&II) of the survey. Approximately 2,300 respondents will fall into the first group

(A) of respondents, completing only part one of the survey. It is estimated that respondents in this group will take 40 minutes to complete a survey for a total of 1,533 hours. The second group (B) of respondents will complete part one of the survey and have access to only limited amount of information necessary for part two of the survey. The approximately 1,200 respondents in this second group of respondents will take about 1 hour and 15 minutes to complete a survey for a total of 1,500 hours. The third group (C) of respondents will complete parts one and two of the survey; they will have the greatest access to the information required for part two of the survey. It is estimated it will take the estimated 300 respondents in this group about 2 hours each to complete a survey for a total of 600 hours. When the burden hours for each group of respondents are added up the CPSC 2011 project sums to 3,633 hours (1,533 + 1,500 + 600 = 3,633).

**SUPPLEMENTARY INFORMATION:** The Wage and Hour Division (WHD) administers the Family and Medical Leave Act (FMLA), 29 U.S.C. 2601 *et seq.*, 29 CFR part 825. In 1996 and 2000, the Federal government funded the collection of nationally representative data on the FMLA from employers and employees. Given changes in economic conditions and the FMLA since the last employer and employee surveys, the WHD proposes to conduct an employer survey and an employee survey to obtain current representative data for FMLA leave usage in light of 18 years of administering the law and in light of changes to FMLA leave brought on by amendments to the FMLA. The survey data will provide an update to DOL's understanding of leave-taking behavior and employer/employee experiences with the FMLA.
