SUPPLEMENTARY INFORMATION: Regulation 20 CFR part 718 specifies that certain information relative to the medical condition of a claimant who is alleging the presence of pneumoconiosis be obtained as a routine function of the claim adjudication process. The medical specifications in the regulations have been formatted in a variety of forms to promote efficiency and accuracy in gathering the required data. These forms were designed to meet the need to gather medical evidence.

This ICR has been characterized as a revision. The Patient Protection and Affordable Care Act of 2010 contained two provisions that affected the Black Lung Benefits Act. In addition, the OWCP has made some formatting changes to the forms associated with this information collection; however, those cosmetic changes are not expected to change the burden.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under OMB Control Number 1240-0023. The current OMB approval is scheduled to expire on
