SUPPLEMENTARY INFORMATION:

I. Background

The Institute of Museum and Library Services (IMLS) is an independent Federal grant-making agency and is the primary source of Federal support for the Nation's 123,000 libraries and 17,500 museums. IMLS provides a variety of grant programs to assist the Nation's museums and libraries in improving their operations and enhancing their services to the public. IMLS is responsible for identifying national needs for, and trends of, museum and library services funded by IMLS; reporting on the impact and effectiveness of programs conducted with funds made available by IMLS in addressing such needs; and identifying, and disseminating information on, the best practices of such programs. (20 U.S.C. Chapter 72, 20 U.S.C. 9108)

II. Current Actions

The purpose of the information collection is to develop a searchable museum portal for use by museums, libraries, museum and library professionals, IMLS, policy makers, researchers, and the general public. Information such as name, address, phone, e-mail, Web site, congressional district, and geographic location would be collected. The proposed information collection, which is the subject of this notice, would establish a comprehensive, reliable database about the size, distribution and scope of the museum sector in the U.S.

Comments should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the National Endowment for the Arts, Office of Management and Budget, Room 10235, Washington, DC 20503, 202–395–7316, within 30 days from the date of this publication in the **Federal Register**.

The Office of Management and Budget (OMB) is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: National Endowment for the Arts.

Title: Annual Arts Benchmarking Survey.

OMB Number: New.

Frequency: Annually, in years the Survey of Public Participation in the Arts is not conducted.

Affected Public: American adults.

Estimated Number of Respondents: 36,000.

Estimated Time per Respondent: 4.0 minutes.

Total Burden Hours: 2,000 hours.

Total Annualized Capital/Startup Costs: 0.

Total Annual Costs (Operating/Maintaining Systems or Purchasing Services): 0.

This request is for clearance of the Annual Arts Benchmarking Survey (AABS) to be conducted by the U.S. Census Bureau as a supplement to the Bureau of Labor Statistic's Current Population Survey. The AABS would be conducted for the first time in February 2013, and annually thereafter in years that the National Endowment's Survey of Public Participation in the Arts (SPPA) is not conducted. One of the strengths of the AABS survey is that it will both complement and supplement the information collected in the SPPA. The SPPA is the field's premiere repeated cross-sectional survey of individual attendance and involvement in arts and cultural activity, and conducted approximately every five years. The AABS questionnaire will be much shorter than the SPPA, consisting of ten to twelve questions that will be used to track arts participation over time. As with the SPPA, the AABS data will be circulated to interested researchers and will be the basis for a range of NEA reports and independent research publications. The AABS will provide annual primary knowledge on the extent and nature of participation in the arts in the United States.
