

comments must be received in the regional office by March 23, 2011. The address is 300 N. Los Angeles St., Suite 2010, Los Angeles, California 90012. Persons wishing to e-mail their comments or who desire additional information should contact Angelica Trevino, Administrative Assistant, at (213) 894-3437 or (800) 877-8339 for individuals who are deaf, hearing impaired, and/or have speech disabilities or by e-mail to: atrevino@usccr.gov.

Hearing-impaired persons who wish to submit written comments and require the services of a sign language interpreter should contact the Regional Office at least ten (10) working days before the scheduled date of the meeting.

Records generated from this meeting may be inspected and reproduced at the Western Regional Office, as they become available, both before and after the meeting. Persons interested in the work of this advisory committee are advised to go to the Commission's Web site, <http://www.usccr.gov>, or to contact the Western Regional Office at the above e-mail or street address.

The meeting will be conducted pursuant to the provisions of the rules and regulations of the Commission and FACA.

Dated in Washington, DC, January 27, 2011.

Peter Minarik,

*Acting Chief, Regional Programs
Coordination Unit.*

BILLING CODE 6335-01-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Tag Recapture Card.

OMB Control Number: 0648-0259.

Form Number(s): NA.

Type of Request: Regular submission.

Number of Respondents: 240.

Average Hours per Response: 2 minutes.

Burden Hours: 8.

Needs and Uses: This request is for the renewal of a currently approved information collection.

The Cooperative Game Fish Tagging Program (CGFTP) was initiated in 1954 by Woods Hole Oceanographic Institution (WHOI). In 1973 the CGFTP became a cooperative effort between WHOI and the National Marine Fisheries (NMFS) as part of a comprehensive research program resulting from passage of the Migratory Game Fish Study Act of 1959 (Pub. L. 86-359) and other legislative acts under which the NMFS operates. In 1980 sole control of the CGFTP was handed over to the NMFS. The CGFTP was later renamed the Cooperative Tagging Center (CTC). The CTC attempts to determine the migratory patterns and other biological information of billfish, tunas, and swordfish by having fishermen tag and release their catch, so that fish can be subsequently recaptured.

The primary objectives of a tagging program are to obtain scientific information on fish growth and movements necessary to assist in stock assessment and management. This is accomplished by the random recapture of tagged fish by fishermen and the subsequent voluntary submission of the appropriate data.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer:

OIRA_Submission@omb.eop.gov.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to

OIRA_Submission@omb.eop.gov.

Dated: January 28, 2011.

Gwellnar Banks,

*Management Analyst, Office of the Chief
Information Officer.*

DEPARTMENT OF COMMERCE

International Trade Administration

[A-122-853]

Citric Acid and Certain Citrate Salts From Canada: Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: In response to a timely request by one manufacturer/exporter, Jungbunzlauer Canada Inc. (JBL Canada), the Department of Commerce (the Department) is conducting the first administrative review of the antidumping duty order on citric acid and certain citrate salts (citric acid) from Canada with respect to JBL Canada. The review covers the period November 20, 2008, through May 19, 2009, and May 29, 2009, through April 30, 2010. We preliminarily determine that JBL Canada made sales below normal value (NV).

If the preliminary results are adopted in our final results of the administrative review, we will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. Interested parties are invited to comment on the preliminary results.

FOR FURTHER INFORMATION CONTACT: Rebecca Trainor or Kate Johnson, AD/CVD Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-4007 or (202) 482-4929, respectively.

SUPPLEMENTARY INFORMATION:

Background

In response to a timely request by JBL Canada, on June 30, 2010, the Department published in the **Federal Register** a notice of initiation of an administrative review of the antidumping duty order on citric acid from Canada with respect to JBL Canada covering the period November 20, 2008, through May 19, 2009, and May 29, 2009, through April 30, 2010. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 75 FR 37759 (June 30, 2010).

Also on June 30, 2010, we issued the antidumping duty questionnaire to JBL Canada. In August 2010, we received responses to sections A (*i.e.*, the section covering general information about the company), B (*i.e.*, the section covering comparison-market sales), C (*i.e.*, the section covering U.S. sales), and D (the

section covering cost of production (COP) and constructed value (CV)) of the antidumping duty questionnaire from JBL Canada.

During the period October through December 2010, we issued to JBL Canada supplemental questionnaires regarding sections A, B, C, and D of the original questionnaire. We received responses to these questionnaires during the period October 2010 through January 2011.

Scope of the Order

The scope of this order includes all grades and granulation sizes of citric acid, sodium citrate, and potassium citrate in their unblended forms, whether dry or in solution, and regardless of packaging type. The scope also includes blends of citric acid, sodium citrate, and potassium citrate; as well as blends with other ingredients, such as sugar, where the unblended form(s) of citric acid, sodium citrate, and potassium citrate constitute 40 percent or more, by weight, of the blend. The scope of this order also includes all forms of crude calcium citrate, including dicalcium citrate monohydrate, and tricalcium citrate tetrahydrate, which are intermediate products in the production of citric acid, sodium citrate, and potassium citrate. The scope of this order does not include calcium citrate that satisfies the standards set forth in the United States Pharmacopeia and has been mixed with a functional excipient, such as dextrose or starch, where the excipient constitutes at least 2 percent, by weight, of the product. The scope of this order includes the hydrous and anhydrous forms of citric acid, the dihydrate and anhydrous forms of sodium citrate, otherwise known as citric acid sodium salt, and the monohydrate and monopotassium forms of potassium citrate. Sodium citrate also includes both trisodium citrate and monosodium citrate, which are also known as citric acid trisodium salt and citric acid monosodium salt, respectively. Citric acid and sodium citrate are classifiable under 2918.14.0000 and 2918.15.1000 of the Harmonized Tariff Schedule of the United States (HTSUS), respectively. Potassium citrate and crude calcium citrate are classifiable under 2918.15.5000 and 3824.90.9290 of the HTSUS, respectively. Blends that include citric acid, sodium citrate, and potassium citrate are classifiable under 3824.90.9290 of the HTSUS. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Period of Review

The period of review (POR) is November 20, 2008, through May 19, 2009, and May 29, 2009, through April 30, 2010. In accordance with section 733(d) of the Tariff Act of 1930, as amended (the Act), and subsequent to the imposition of the antidumping duty order, we instructed CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, entries of subject merchandise for the period May 20, 2009, through May 28, 2009. Accordingly, this administrative review does not include the period May 20, 2009, through May 28, 2009.

Facts Available

Section 776(a) of the Act provides that the Department will apply "facts otherwise available" if necessary information is not available on the record or an interested party: (1) Withholds information that has been requested by the Department; (2) fails to provide such information within the deadlines established, or in the form or manner requested by the Department, subject to subsections (c)(1) and (e) of section 782 of the Act; (3) significantly impedes a proceeding; or (4) provides such information, but the information cannot be verified.

The Department's original and first supplemental antidumping questionnaires instructed JBL Canada to report its prices and expenses in the currencies in which they were incurred, in accordance with section 773A of the Act, and 19 CFR 351.415(a).¹ Despite our instructions, JBL Canada reported its home market price and expense data in Canadian dollars (CAD) and its U.S. market price and expense data in U.S. dollars (USD), regardless of the currencies in which they were incurred. JBL Canada explained that its data processing system automatically converts all foreign currency transactions into the currency of the respective JBL Group entity at the moment of posting. Although the system maintains a record of the original currency in which the price or expense was incurred and the exchange rate used to make currency conversions, JBL Canada failed to report certain prices and expenses in their original currencies, maintaining that retrieving

¹ We also referred JBL Canada to the Department's adverse facts available (AFA) determination on this same issue in the less-than-fair-value (LTFV) investigation. See Comment 4 of the Issues and Decision Memorandum (LTFV I&D Memo) accompanying the *Notice of Final Determination of Sales at Less Than Fair Value: Citric Acid and Certain Citrate Salts from Canada*, 74 FR 16843 (April 13, 2009) (*Citric Acid LTFV*).

the original currency values from the system would be "an extremely laborious and time-consuming undertaking." See JBL Canada's October 29, 2010, supplemental questionnaire response at pages 7–8. Therefore, pursuant to section 776(a)(2)(B) of the Act, we find that JBL Canada failed to provide information in the form and manner requested by the Department and that it is appropriate to resort to facts otherwise available to account for the unreported information.

In selecting from among the facts otherwise available, section 776(b) of the Act authorizes the Department to use an adverse inference if the Department finds that an interested party failed to cooperate by not acting to the best of its ability to comply with a request for information. The legislative history of the Act also provides guidance by explaining that adverse inferences are appropriate "to ensure that the party does not obtain a more favorable result by failing to cooperate than if it had cooperated fully." See Statement of Administrative Action (SAA) accompanying the Uruguay Round Agreements Act, H.R. Doc. No. 103–465 at 870 (1995). Information used to make an adverse inference may include such sources as the petition, other information placed on the record, or determinations in a prior proceeding regarding the subject merchandise. *Id.* and 19 CFR 351.308(c). Furthermore, "affirmative evidence of bad faith on the part of a respondent is not required before the Department may make an adverse inference." See *Antidumping Duties; Countervailing Duties*, 62 FR 27296, 27340 (May 19, 1997); see also *Nippon Steel Corp. v. United States*, 337 F.3d 1373, 1383 (Fed. Cir. 2003) (*Nippon*).

Based on JBL Canada's questionnaire response description of how exchange rate information is currently stored in its data processing system, we find that it was possible for JBL Canada to report all of its sales data in the currencies in which they were incurred. This is consistent with our determination in *Citric Acid LTFV* with respect to the same issue.² Because JBL Canada could have reported the information at issue in the form and manner requested by the Department, but failed to do so, we find that JBL Canada has failed to cooperate to the best of its ability with our requests for information in the original and supplemental questionnaires. Specifically, we find that an adverse inference is appropriate because: (1) JBL Canada had the necessary information within its control

² See Comment 4 of the LTFV I&D Memo.

and it did not report this information; and 2) it failed to put forth its maximum effort to provide the requested information. *See, e.g., Nippon*, 337 F.3d at 1883; and *Notice of Final Results of Antidumping Duty Administrative Review, Rescission of Administrative Review in Part, and Final Determination to Not Revoke Order in Part: Canned Pineapple Fruit from Thailand*, 68 FR 65247 (November 19, 2003), and accompanying Issues and Decision Memorandum at Comment 20b. Thus, for these preliminary results, pursuant to section 776(b) of the Act, we find that it is appropriate to apply AFA to the following home market variables which JBL Canada converted to CAD from the original currency: Gross unit price, billing adjustments, inland insurance, and indirect selling expenses. Likewise, we applied AFA to the following U.S. market variables which JBL Canada converted to USD from the original currency: Foreign inland freight (warehouse to port), foreign inland insurance, U.S. inland freight (port to warehouse and warehouse to customer), indirect selling expenses, inventory carrying costs, and packing. Specifically, as AFA, we increased JBL Canada's reported home market sales prices as well as the above-specified U.S. and home market expenses by the highest difference between the Department's weighted-average monthly exchange rates (used to convert comparison-market values to USD in the margin program), and JBL Canada's monthly exchange rates (used by JBL Canada's data processing system for currency conversion purposes). For further explanation, *see* Memorandum to the File entitled "2008–2010 Administrative Review of Citric Acid and Certain Citrate Salts from Canada," dated concurrently with this notice.

Comparisons to Normal Value

To determine whether JBL Canada's sales of citric acid from Canada to the United States were made at less than NV, we compared the constructed export price (CEP) to the NV, as described in the "Constructed Export Price" and "Normal Value" sections of this notice.

Pursuant to section 777A(d)(2) of the Act, for JBL Canada we compared the CEPs of individual U.S. transactions to the weighted-average NV of the foreign like product where there were sales made in the ordinary course of trade. *See* discussion below.

Product Comparisons

In accordance with section 771(16) of the Act, we considered all products produced by JBL Canada covered by the

description in the "Scope of the Order" section, above, to be foreign like products for purposes of determining appropriate product comparisons to U.S. sales. Pursuant to 19 CFR 351.414(e)(2), we compared JBL Canada's U.S. sales of citric acid to its sales of citric acid made in the home market. Where there were no contemporaneous sales within the definition of 19 CFR 351.414(e)(2)(i), pursuant to 19 CFR 351.414(e)(2)(ii) and (iii), we compared sales within the contemporaneous window period, which extends from three months prior to the month of the U.S. sale until two months after the sale.

In making the product comparisons, we matched foreign like products based on the physical characteristics reported by JBL Canada in the following order: type, form, grade, and particle size.

Constructed Export Price

For all U.S. sales made by JBL Canada, we calculated CEP in accordance with section 772(b) of the Act because the subject merchandise was first sold (or agreed to be sold) in the United States before or after the date of importation by or for the account of the producer or exporter, or by a seller affiliated with the producer or exporter, to a purchaser not affiliated with the producer or exporter.

We based CEP on packed, ex-factory or delivered prices to unaffiliated purchasers in the United States. Where appropriate, we adjusted the starting prices for billing adjustments, rebates and interest revenue, in accordance with 19 CFR 351.401(c). We made deductions for movement expenses, where appropriate, in accordance with section 772(c)(2)(A) of the Act; these included, where appropriate, foreign inland freight expenses, foreign inland insurance expenses, U.S. brokerage and handling expenses, U.S. inland freight expenses, U.S. warehousing expenses, and U.S. inland insurance expenses. In accordance with section 772(d)(1) of the Act and 19 CFR 351.402(b), we deducted those selling expenses associated with economic activities occurring in the United States, including direct selling expenses (*e.g.*, imputed credit expenses), and indirect selling expenses (including inventory carrying costs).

Pursuant to section 772(d)(3) of the Act, we further reduced the starting price by an amount for profit to arrive at CEP. In accordance with section 772(f) of the Act, we calculated the CEP profit rate using the expenses incurred by JBL Canada on its sales of the subject merchandise in the United States and the profit associated with those sales.

Normal Value

A. Home Market Viability and Selection of Comparison Market

To determine whether there was a sufficient volume of sales in the home market to serve as a viable basis for calculating NV, we compared the volume of home market sales of the foreign like product to the volume of U.S. sales of the subject merchandise, in accordance with section 773(a)(1)(C) of the Act. Based on this comparison, we determined that, pursuant to 19 CFR 351.404(b) JBL Canada had a viable home market during the POR. Consequently, pursuant to section 773(a)(1)(B)(i) of the Act and 19 CFR 351.404(c)(i), we based NV on home market sales.

B. Level of Trade

Section 773(a)(1)(B)(i) of the Act states that, to the extent practicable, the Department will calculate NV based on sales of foreign like products at the same level of trade (LOT) as the export price or CEP. Sales are made at different LOTs if they are made at different marketing stages (or their equivalent). *See* 19 CFR 351.412(c)(2). Substantial differences in selling activities are a necessary, but not sufficient, condition for determining that there is a difference in the stages of marketing. *See Id.*; *see also Notice of Final Determination of Sales at Less Than Fair Value: Certain Cut-to-Length Carbon Steel Plate From South Africa*, 62 FR 61731, 61732 (November 19, 1997) (*Plate from South Africa*). In order to determine whether the comparison-market sales were at different stages in the marketing process than the U.S. sales, we reviewed the distribution system in each market (*i.e.*, the chain of distribution), including selling functions, class of customer (customer category), and the level of selling expenses for each type of sale.

Pursuant to section 773(a)(1)(B)(i) of the Act, in identifying LOTs for EP and comparison-market sales (*i.e.*, where NV is based on either home market or third country prices),³ we consider the starting prices before any adjustments. For CEP sales, we consider only the selling activities reflected in the price after the deduction of expenses and profit under section 772(d) of the Act. *See Micron Technology, Inc. v. United States*, 243 F. 3d 1301, 1314 (Fed. Cir. 2001). When the Department is unable to match U.S. sales of the foreign like product in the comparison market at the same LOT as the EP or CEP, the

³ Where NV is based on CV, we determine the NV LOT based on the LOT of the sales from which we derive selling expenses, general and administrative (G&A) expenses, and profit for CV, where possible.

Department may compare the U.S. sales to sales at a different LOT in the comparison market. In comparing EP or CEP sales at a different LOT in the comparison market, where available data make it practicable, we make an LOT adjustment under section 773(a)(7)(A) of the Act. Finally, for CEP sales only, if the NV LOT is at a more advanced stage of distribution than the LOT of the CEP and there is no basis for determining whether the difference in LOTs between NV and CEP affects price comparability (*i.e.*, no LOT adjustment was practicable), the Department shall grant a CEP offset, as provided in section 773(a)(7)(B) of the Act. *See Plate from South Africa*, 62 FR at 61732–33.

In this administrative review, we obtained information from JBL Canada regarding the marketing stages involved in making its reported home market and U.S. sales, including a description of the selling activities performed by the respondent and its affiliates for each channel of distribution.

During the POR, JBL Canada reported that it sold citric acid to end-users and distributors through two channels of distribution in both the U.S. and home markets. JBL Canada stated that its selling process was essentially the same for all channels of distribution. Because the details of JBL Canada's reported selling functions for each channel of distribution are business proprietary, our analysis of these selling functions for purposes of determining whether different LOTs exist is contained in a separate memorandum to James Maeder, Director, AD/CVD Operations Office 2, from the Team entitled "Preliminary Level-of-Trade Analysis," dated contemporaneously with this notice.

Based on our analysis, we find that the selling functions JBL Canada performed for each of its channels of distribution in the U.S. market were essentially the same, with the exception of one selling function which we determined was not sufficient to warrant an LOT distinction between these channels. Therefore, we determined preliminarily that there is only one LOT (for CEP sales) in the U.S. market. Similarly, we found that the selling functions that JBL Canada (and its affiliates) performed for each of the channels of distribution in the home market were essentially the same, with the exception of certain selling activities which we determined were not sufficient to warrant an LOT distinction between these channels. Therefore, we preliminarily determine that there is only one LOT in the home market.

In comparing the home market LOT to the CEP LOT, we found that the selling activities performed by JBL Canada (and

its affiliates) for its CEP sales were significantly fewer than the selling activities that it performed for its home market sales, and that the home-market LOT was more remote from the factory than the CEP LOT. Accordingly, we considered the CEP LOT to be different from the home-market LOT and to be at a less advanced stage of distribution than the home-market LOT.

Therefore, we could not match CEP sales to sales at the same LOT in the home market, nor could we determine an LOT adjustment based on JBL Canada's home market sales because there is only one LOT in the home market, and it is not possible to determine if there is a pattern of consistent price differences between the sales on which NV is based and home market sales at the LOT of the export transaction. *See* section 773(a)(7)(A) of the Act. Furthermore, we have no other information that provides an appropriate basis for determining an LOT adjustment. Consequently, because the available data do not form an appropriate basis for making an LOT adjustment but the home market LOT is at a more advanced stage of distribution than the CEP LOT, we find it is appropriate to make a CEP offset to NV in accordance with section 773(a)(7)(B) of the Act. The CEP offset is calculated as the lesser of: (1) The indirect selling expenses incurred on the home market sales, or (2) the indirect selling expenses deducted from the starting price in calculating CEP.

C. Cost of Production Analysis

Whenever the Department has reasonable grounds to believe or suspect that sales of the foreign like product under consideration for the determination of NV have been made at prices which represent less than the COP, the Department shall determine whether, in fact, such sales were made at less than COP. *See* section 773(b)(1) of the Act. We found that JBL Canada made home market sales below the COP in the LTFV investigation and such sales were disregarded. *See Citric Acid and Certain Citrate Salts from Canada: Notice of Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination*, 73 FR 70324 (November 20, 2008); unchanged in *Citric Acid LTFV*. Thus, in accordance with section 773(b)(2)(A)(ii) of the Act, we find that there are reasonable grounds to believe or suspect that JBL Canada made sales in its home market at prices below the cost of producing the merchandise in the current review period.

1. Calculation of Cost of Production

In accordance with section 773(b)(3) of the Act, we calculated COP based on the sum of the cost of materials and conversion for the foreign like product, plus an amount for G&A expenses and interest expenses (*see* "Test of Comparison-Market Sales Prices" section below for treatment of comparison-market selling expenses and packing costs).

The Department relied on the COP data submitted by JBL Canada in the November 8, 2010, supplemental response to section D of the questionnaire for the COP calculations. We made an adjustment to the reported depreciation expenses associated with an affiliated party transaction. For adjustment details, see the Memorandum to Neal M. Halper, Director, Office of Accounting, "Cost of Production and Constructed Value Calculation Adjustments for the Preliminary Results—Jungbunzlauer Canada, Inc.," dated concurrently with this notice.

Based on the review of record evidence, JBL Canada did not appear to experience significant changes in cost of manufacturing during the POR. Therefore, we followed our normal methodology of calculating a POR-wide weighted-average cost.

2. Test of Comparison-Market Sales Prices

On a product-specific basis, we compared the weighted-average COP to the prices of home market sales of the foreign like product, as required under section 773(b) of the Act, in order to determine whether the sale prices were below the COP. For purposes of this comparison, we used COP exclusive of selling and packing expenses. The prices, adjusted for any applicable billing adjustments, rebates, and interest revenue, were also exclusive of any applicable movement charges, direct and indirect selling expenses,⁴ and packing expenses.

3. Results of the COP Test

After concluding that we had reasonable grounds to believe or suspect that JBL Canada's sales of foreign like product were made at prices less than COP, to determine whether to disregard such sales, we examined, in accordance with sections 773(b)(1)(A) and (B) of the Act: (1) Whether, within an extended period of time, such sales were made in substantial quantities; and (2) whether

⁴ We recalculated home market credit expenses in order to account for the application of AFA to home market prices used in the credit expense calculation.

such sales were made at prices which permitted the recovery of all costs within a reasonable period of time in the normal course of trade. Where less than 20 percent of a respondent's comparison-market sales of a given product are at prices less than the COP, we do not disregard any below-cost sales of that product because we determine that, in such instances, the below-cost sales were not made within an extended period of time in "substantial quantities." Where 20 percent or more of a respondent's sales of a given product are at prices less than the COP, we disregard the below-cost sales because: (1) They were made within an extended period of time in "substantial quantities," in accordance with sections 773(b)(2)(B) and (C) of the Act, and (2) based on our comparison of prices to the weighted-average COPs for the POR, they were at prices which would not permit the recovery of all costs within a reasonable period of time, in accordance with section 773(b)(2)(D) of the Act.

Based on this test, we did not disregard any of JBL Canada's home market sales of citric acid because for all products, we found that less than 20 percent of these sales were at prices less than the COP.

D. Calculation of Normal Value Based on Comparison-Market Prices

We based NV for JBL Canada on packed, ex-factory or delivered prices to unaffiliated customers in the home market. Where appropriate, we adjusted the starting prices for billing adjustments, rebates and interest revenue, in accordance with 19 CFR 351.401(c). We made deductions, where appropriate, from the starting price for movement expenses, including inland freight and inland insurance, under section 773(a)(6)(B)(ii) of the Act.

We made adjustments under section 773(a)(6)(C) of the Act for differences in circumstances-of-sale for imputed credit expenses, where appropriate.

We also deducted home market packing costs and added U.S. packing costs, in accordance with section 773(a)(6)(A) and (B) of the Act.

Finally, as discussed in the "Level of Trade" section above, we made a CEP offset pursuant to section 773(a)(7)(B) of the Act and 19 CFR 351.412(f). We calculated the CEP offset as the lesser of the indirect selling expenses incurred on the home-market sales or the indirect selling expenses deducted from the starting price in calculating CEP.

Currency Conversion

It is our normal practice to make currency conversions into U.S. dollars,

in accordance with section 773A(a) of the Act, based on exchange rates in effect on the dates of the U.S. sales, as certified by the Federal Reserve Bank. See "Facts Available" section, above, for further discussion of currency conversion in this administrative review.

Preliminary Results of the Review

We preliminarily determine that a weighted-average dumping margin exists for JBL Canada for the period November 20, 2008, through May 19, 2009, and May 29, 2009, through April 30, 2010, as follows:

Manufacturer/exporter	Percent margin
Jungbunzlauer Canada Inc	1.51

Disclosure and Public Hearing

The Department will disclose to parties the calculations performed in connection with these preliminary results within five days of the date of publication of this notice. See 19 CFR 351.224(b). Pursuant to 19 CFR 351.309, interested parties may submit case briefs not later than 30 days after the date of publication of this notice. Rebuttal briefs, limited to issues raised in the case briefs, may be filed not later than five days after the date for filing case briefs. Parties who submit case briefs or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.

Interested parties who wish to request a hearing or to participate if one is requested must submit a written request to the Assistant Secretary for Import Administration, Room 1870, within 30 days of the date of publication of this notice. Requests should contain: (1) The party's name, address and telephone number; (2) the number of participants; and (3) a list of issues to be discussed. See 19 CFR 351.310(c). Issues raised in the hearing will be limited to those raised in the respective case briefs.

The Department will issue the final results of this administrative review, including the results of its analysis of issues raised in any written briefs, not later than 120 days after the date of publication of this notice, pursuant to section 751(a)(3)(A) of the Act.

Assessment Rates

Upon completion of the administrative review, the Department shall determine, and CBP shall assess, antidumping duties on all appropriate entries, in accordance with 19 CFR 351.212. The Department intends to

issue appropriate appraisal instructions for the companies subject to this review directly to CBP 15 days after the date of publication of the final results of this review.

Because the respondent did not report entered value for all sales to each importer or customer, we will calculate importer- or customer-specific per-unit duty assessment rates by aggregating the total amount of antidumping duties calculated for the examined sales and dividing this amount by the total quantity of those sales. To determine whether the duty assessment rates are *de minimis*, in accordance with the requirement set forth in 19 CFR 351.106(c)(2), we will calculate importer-specific *ad valorem* ratios based on the estimated entered value.

We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review if any importer-specific assessment rate calculated in the final results of this review is above *de minimis* (i.e., at or above 0.50 percent). Pursuant to 19 CFR 351.106(c)(2), we will instruct CBP to liquidate without regard to antidumping duties any entries for which the assessment rate is *de minimis* (i.e., less than 0.50 percent). The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.

The Department clarified its "automatic assessment" regulation on May 6, 2003. See *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003) (*Assessment Policy Notice*). This clarification will apply to entries of subject merchandise during the POR produced by companies included in these final results of review for which the reviewed companies did not know that the merchandise they sold to the intermediary (e.g., a reseller, trading company, or exporter) was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate effective during the POR if there is no rate for the intermediary involved in the transaction. See *Assessment Policy Notice* for a full discussion of this clarification.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided

by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for the company listed above will be that established in the final results of this review, except if the rate is less than 0.50 percent and, therefore, *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for previously reviewed or investigated companies not participating in this review, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a previous review, or the original LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 23.21 percent, the all-others rate made effective by the LTFV investigation. See *Citric Acid and Certain Citrate Salts from Canada and the People's Republic of China: Antidumping Duty Orders*, 74 FR 25703 (May 29, 2009). These requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221.

Dated: January 26, 2011.

Ronald K. Lorentzen,
Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-P

DEPARTMENT OF EDUCATION

Notice of Submission for OMB Review

AGENCY: Department of Education.

ACTION: Comment request.

SUMMARY: The Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management invites

comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13).

DATES: Interested persons are invited to submit comments on or before March 4, 2011.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Education Desk Officer, Office of Management and Budget, 725 17th Street, NW., Room 10222, New Executive Office Building, Washington, DC 20503, be faxed to (202) 395-5806 or e-mailed to

oira_submission@omb.eop.gov with a cc: to *ICDocketMgr@ed.gov*. Please note that written comments received in response to this notice will be considered public records.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The OMB is particularly interested in comments which: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: January 27, 2011.

Darrin A. King,

Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management.

Federal Student Aid

Type of Review: Extension.

Title of Collection: Consolidation

Loan Rebate Fee Report.

OMB Control Number: 1845-0046.

Agency Form Number(s): ED Form 4-619.

Frequency of Responses: Monthly.

Affected Public: Businesses or other for-profit.

Total Estimated Number of Annual Responses: 11,400.

Total Estimated Annual Burden Hours: 12,350.

Abstract: The Consolidation Loan Rebate Fee Report for Payment by check or Electronic Funds Transfer will be used by approximately 950 lenders participating in the Title IV, Part B loan programs. The information collected is used to transmit interest payment rebate fees to the Secretary of Education.

Requests for copies of the information collection submission for OMB review may be accessed from the RegInfo.gov Web site at <http://www.reginfo.gov/public/do/PRAMain> or from the Department's Web site at <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 4417. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., LBJ, Washington, DC 20202-4537. Requests may also be electronically mailed to the Internet address *ICDocketMgr@ed.gov* or faxed to 202-401-0920. Please specify the complete title of the information collection and OMB Control Number when making your request.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

Federal Perkins Loan, Federal Work-Study, and Federal Supplemental Educational Opportunity Grant Programs

ACTION: Notice of the 2011-2012 award year deadline dates for the campus-based programs.

SUMMARY: The Secretary announces the 2011-2012 award year deadline dates for the submission of requests and documents from postsecondary institutions for the campus-based programs.

SUPPLEMENTARY INFORMATION: The Federal Perkins Loan, Federal Work-Study (FWS), and Federal Supplemental Educational Opportunity Grant (FSEOG) programs are collectively known as the campus-based programs.

The Federal Perkins Loan Program encourages institutions to make low-interest, long-term loans to needy undergraduate and graduate students to help pay for their education.
