[NRC-2011-0191]

Draft License Renewal Interim Staff Guidance LR-ISG-2011-05; Ongoing Review of Operating Experience

AGENCY: Nuclear Regulatory
Commission.

ACTION: Draft interim staff guidance;
extension of comment period and public
meeting.

SUMMARY: On August 24, 2011, in the **Federal Register** (76 FR 52995), the U.S. Nuclear Regulatory Commission (NRC) requested public comments on Draft License Renewal Interim Staff Guidance (LR-ISG), LR-ISG-2011-05, "Ongoing Review of Operating Experience." This LR-ISG provides guidance and clarification concerning ongoing review of plant-specific and industry-wide operating experience as an attribute of aging management programs used at nuclear power plants. In response to a request from the Nuclear Energy Institute (NEI), the NRC is extending the public comment period until October 23, 2011, and holding a public meeting on October 12, 2011, to discuss the draft LR-ISG.

DATES: The comment period has been extended and expires on October 23, 2011. Comments received after this date will be considered, if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Please include Docket ID NRC-2011-0191 in the subject line of your comments. Background

The NRC issues LR-ISGs to communicate insights and lessons learned and to address emergent issues not covered in license renewal guidance documents, such as NUREG-1801, Revision 2, "Generic Aging Lessons Learned (GALL) Report" (ADAMS Accession No. ML103490041), and NUREG-1800, Revision 2, "Standard Review Plan for Review of License Renewal Applications for Nuclear Power Plants" (SRP-LR) (ADAMS Accession No. ML103490036). In this way, the NRC staff and stakeholders may use the guidance in an LR-ISG document before it is incorporated into a formal license renewal guidance document revision. The NRC staff issues LR-ISG in accordance with the LR-ISG Process, Revision 2 (ADAMS Accession No. ML100920158), for which a notice of availability was published in the **Federal Register** on June 22, 2010 (75 FR 35510).

The NRC staff developed draft LR-ISG-2011-05 to clarify guidance on how the ongoing review of operating experience should be used to ensure the effectiveness of the license renewal aging management programs used at nuclear power plants to meet the requirements of Title 10 of the Code of Federal Regulations (10 CFR) Part 54, "Requirements for Renewal of Operating Licenses for Nuclear Power Plants." The draft LR-ISG proposes to revise the NRC staff's recommended aging management programs in the GALL Report and the NRC staff's aging management review procedures and acceptance criteria in the SRP-LR.

On August 24, 2011, the NRC requested public comments on draft LR-ISG-2011-05. By letter dated August 29, 2011 (ADAMS Accession No. ML11242A114), the NEI requested a 30-day extension to the comment period and a public meeting to discuss draft comments and questions concerning

implementation of the LR-ISG. The NRC staff believes that discussions at a public meeting will help stakeholders better prepare their comments on the draft LR-ISG. As such, the NRC staff is granting NEI's request for a public meeting. The meeting will be held on October 12, 2011. The public is invited to participate in this meeting by providing comments and asking questions throughout the meeting. The NRC staff is also granting NEI's request for a 30-day extension of the comment period. The extended comment period ends on October 23, 2011. This extension will allow the NRC staff to hold the public meeting during the comment period. It will also give stakeholders the opportunity to inform their comments based on the meeting discussions before closing of the comment period. The NRC staff will make a final determination regarding issuance of the LR-ISG after it considers any public comments received in response to this request.

Public Meeting

The NRC is holding a public meeting on October 12, 2011. This meeting will be held at NRC Headquarters, 11545 Rockville Pike, Rockville, MD 20852, from 1 p.m. to 3 p.m. Eastern Daylight Time. A teleconference will be available for those individuals who wish to participate but cannot attend in person. Additional details on this meeting, including room location and teleconference information, will be available in ADAMS under Accession No. ML11251A134 and will be on the NRC's Public Meeting Schedule Web site at least ten days prior to the meeting.
