

described, this research is likely to generate scientifically reliable data, useful for assessing the exposure of those who load liquid pesticides with closed system equipment, and to meet the applicable requirements of 40 CFR part 26, subparts K and L.

c. The unpublished report of the completed Carroll-Loye Biological Research, Inc. study No. Mas-003 to evaluate in the field the repellent efficacy against mosquitoes of a product containing 16% para-methane-3,8-diol and 2% lemongrass oil. The protocol for this study was reviewed favorably by the HSRB at their meeting in October 2010. EPA seeks the advice of the HSRB on the scientific soundness of this completed study for use to estimate the duration of complete protection against mosquitoes provided by the tested repellent, and on whether available information supports a determination that the study was conducted in substantial compliance with subparts K and L of 40 CFR part 26.

d. A published report by *Moiemen et al.* (2010) of an intentional exposure human study measuring dermal absorption of silver from the use of nanosilver-containing wound dressings to treat major burns. EPA seeks the advice of the HSRB on the scientific soundness of this completed study for use in support of an assessment of the absorption of nanosilver particles through the skin, and on whether there is adequate information to determine that the study was conducted in substantial compliance with procedures at least as protective as those in subparts A–L of EPA's regulation at 40 CFR part 26.

2. *Meeting minutes and reports.* Minutes of the meeting, summarizing the matters discussed and recommendations, if any, made by the advisory committee regarding such matters, will be released within 90 calendar days of the meeting. Such minutes will be available at <http://www.epa.gov/osa/hsrb/> and <http://www.regulations.gov>. In addition, information regarding the Board's Final meeting report, will be found at <http://www.epa.gov/osa/hsrb/> or from the person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general. As such, the Agency has not attempted to describe the specific entities that this action may apply to. Although others may be affected, this action applies directly to the submitter of the request for waiver. If you have any questions regarding the applicability of this action to a particular entity, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD–ROM that you mail to EPA, mark the outside of the disk or CD–ROM as CBI and then identify electronically within the disk or CD–ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

II. Background

A. What action is the agency taking?

EPA is announcing receipt of a request for waiver from testing from 3M. EPA will accept comments on this request and will publish another **Federal Register** notice on or before November 14, 2011, announcing its decisions on this request. See 40 CFR 766.32(c).

B. What is the Agency's authority for taking this action?

Under 40 CFR part 766, EPA requires testing of certain chemical substances to determine whether they may be contaminated with HDDs and HDFs. Under 40 CFR 766.32(a)(2)(i), a waiver may be granted if a responsible company official certifies that the chemical substance is produced only in quantities of 100 kilograms (kg) or less per year, and only for research and development purposes.

Under 40 CFR 766.32(b), a request for a waiver must be made 60 days before resumption of manufacture or importation of a chemical substance not being manufactured, imported, or processed as of June 5, 1987.

On September 14, 2011, EPA received a waiver request from 3M under 40 CFR 766.32(a)(2)(i). The request indicates that 3M intends to import tetrabromobisphenol A (CASRN 79–94–7), a chemical substance subject to testing under 40 CFR part 766, as part of an experimental formulation for research and development purposes. 3M will import less than 100 kg of tetrabromobisphenol A.
