POLICY JUSTIFICATION

Kingdom of Saudi Arabia—Howitzers, Radars, HMMWVs, Ammunition, and Related Support

The Government of the Kingdom of Saudi Arabia has requested a possible sale for 36 M777A2 Howitzers, 54 M119A2 Howitzers, 6 AN/TPQ-36(V) Fire Finder Radar Systems, 24 Advanced Field Artillery Tactical Data Systems (AFATDS), 17,136 rounds M107 155mm High Explosive (HE) ammunition, 2,304 rounds M549 155mm Rocket Assisted Projectiles (RAPs), 60 M1165A1 High Mobility Multipurpose Vehicles (HMMWVs), 120 M1151A1 HMMWVs, 252 M1152A1 HMMWVs, Export Single Channel Ground And Airborne Radio Systems (SINCGARS), electronic support systems, 105mm ammunition, various wheeled/tracked support vehicles, spare and repair parts, technical manuals and publications, translation services, training, USG and contractor technical assistance, and other related elements of logistical and program support. The estimated cost is \$886 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

The proposed sale will augment the Kingdom of Saudi Arabia's existing light artillery capabilities. The Kingdom of Saudi Arabia will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. The Kingdom of Saudi Arabia, which already has 155mm and 105mm howitzers and support vehicles and equipment in its inventory, will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment will not alter the basic military balance in the region.

The prime contractors will be AM General, LLC in South Bend, IN, BAE Systems in the United Kingdom & Hattiesburg, MS, ITT Defense and Information Solutions in McLean, VA, Thales Raytheon Systems in Fullerton

CA, Smith Detection in Edgewood, MD, SRCTec, in Syracuse, NY, Northrop Grumman Corporation in Apopka, FL, and General Dynamics C4 Systems in Taunton, MA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any U.S. Government or contractor representatives to the Kingdom of Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Policy Justification

Taipei Economic and Cultural Representative Office in the United States—Pilot Training Program

The Taipei Economic and Cultural Representative Office in the United States has requested a possible sale for the continuation of a pilot training program and logistics support for F-16 aircraft at Luke Air Force Base, Arizona to include flight training, supply and maintenance support, spare and repair parts, support equipment, program management, publications, documentation, personnel training and training equipment, fuel and fueling services, and other related program requirements necessary to sustain a long-term CONUS training program. The estimated cost is \$500 million.

This sale is consistent with United States policy and Public Law 96-8.

The recipient is one of the major political and economic powers in Asia and the Western Pacific and a key partner of the United States in ensuring

peace and stability in that region. It is vital to the U.S. national interest to assist the recipient in developing and maintaining a strong and ready self-defense capability, which will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives.

The recipient and the U.S. Air Force (USAF) will have the opportunity to fly together, which will support disaster relief missions, non-combatant evacuation operations, and other contingency situations. These services and equipment are used in the continuing pilot training program at Luke Air Force Base, Arizona. This program enables the recipient to develop mission ready and experienced pilots through CONUS training. The training provides a “capstone” course that takes experienced pilots and significantly improves their tactical proficiency. Training is a key component of combat effectiveness, and recipient pilots who have graduated from the existing program have performed brilliantly.

The proposed sale of pilot training and support will not alter the basic military balance in the region.

Implementation of this sale will not require the assignment of any U.S. Government or contractor representatives to the recipient. The USAF will provide instruction, flight operations, and maintenance support and facilities. Approximately 90 U.S. contractors will provide aircraft maintenance and logistics support for the F-16 aircraft at Luke Air Force Base, Arizona.

The prime contractor for the logistics support will be L-3 Communications Corporation in Greenville, Texas. There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
