National Oceanic and Atmospheric Administration

50 CFR Part 635

RIN 0648-BB29

Atlantic Highly Migratory Species; Atlantic Shark Management Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Stock Status Determinations; Notice of Intent (NOI) to prepare an Environmental Impact Statement (EIS); request for comments.

SUMMARY: Based on the 2010/2011 Southeast Data, Assessment and Review (SEDAR) assessments for sandbar, dusky, and blacknose sharks, NMFS is declaring the following stock status determinations. Sandbar sharks are still overfished, but no longer experiencing overfishing. Dusky sharks are still overfished and still experiencing overfishing (*i.e.*, their stock status has not changed). Blacknose sharks were assessed as two separate stocks for the first time in the 2010/2011 assessment (Atlantic and Gulf of Mexico); therefore, NMFS is making separate stock status determinations for the two blacknose shark stocks. The Atlantic stock is overfished and experiencing overfishing, and the status of the Gulf of Mexico stock is unknown. Scalloped hammerhead sharks were previously determined to be overfished and experiencing overfishing by NMFS in April 2011. As such, NMFS announces its intent to prepare an EIS under the National Environmental Policy Act (NEPA). This EIS would assess the potential effects on the human environment of action proposed through rulemaking to rebuild and end overfishing of these stocks, consistent with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Through the

rulemaking process, NMFS would amend the 2006 Consolidated Highly Migratory Species (HMS) Fishery Management Plan (FMP) and examine management alternatives available to rebuild these shark stocks and end overfishing, as necessary. To begin scoping for that rulemaking process, NMFS is requesting comments on a range of commercial and recreational management measures, in both directed and incidental fisheries, including, but not limited to, quota levels, regional and seasonal quotas, retention limits, gear modifications, and time/area closures.

DATES: Five scoping meetings and a conference call will be held from October through December 2011. See **SUPPLEMENTARY INFORMATION** for meeting and call dates and locations. Scoping comments must be received no later than 5 p.m., local time, on December 31, 2011.

ADDRESSES: Scoping meetings will be held in Galloway, New Jersey; Morehead City, North Carolina; Panama City and Fort Pierce, Florida; and Belle Chasse, Louisiana.
