possible modifications before coming to the meeting.

Agenda: On December 1, 2011, the committee will discuss, make recommendations, and vote on information related to the premarket approval application, sponsored by Contura, Inc., for AQUAMID, a new material (polyacrylamide) for use as a dermal filler for aesthetic treatment of wrinkles in the face. FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its Web site prior to the meeting, the background material will be made publicly available at the location of the advisory committee meeting, and the background material will be posted on FDA's Web site after the meeting. Background material is available at <http://www.fda.gov/AdvisoryCommittees/Calendar/default.htm>. Scroll down to the appropriate advisory committee link.

If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing session. The contact person will notify interested persons regarding their request to speak by November 15, 2011.

The registration process, including payment of the registration fee, will be handled by CPDD. (FDA has verified the NIDA Web site address, but FDA is not responsible for any subsequent changes to the Web site after this document publishes in the **Federal Register**.)

If you need special accommodations due to a disability, please contact Ellen B. Geller or Corinne Moody (see *Contact Person*) at least 7 days in advance of the workshop.

Comments: FDA is holding this public workshop to obtain information about the science of abuse liability assessment. The workshop will center on status, needs, new approaches, and paradigms regarding preclinical studies, challenges associated with human subject abuse potential studies, and adverse events that signal abuse potential during clinical trials. The deadline for submitting comments about this public workshop is January 10, 2012.

Regardless of attendance at the public workshop, interested persons may submit either electronic or written comments regarding the issues presented at the workshop. Submit electronic comments to <http://www.regulations.gov>. Submit written comments to the Division of Dockets Management (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852. It is only necessary to send one set of comments. It is no longer necessary to send two copies of mailed comments. Identify comments with the docket number found in brackets in the heading of this document. Received comments may be seen in the Division of Dockets

Management between 9 a.m. and 4 p.m., Monday through Friday.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of January 27, 2010 (75 FR 4400), FDA announced the publication of a draft guidance for industry on "Assessment of Abuse Potential of Drugs," and requested comments on the draft guidance. There were 23 submissions to the docket with approximately 750 comments received from academia, industry, and the government. General and specific comments were received on every section of the draft guidance. The comment period has closed and FDA is gathering current information that may relate to some of the comments received. Questions remain, for example, about when abuse potential studies should be conducted, and about the signals of abuse or potential abuse observed in clinical trials. This workshop is another mechanism for continuation of discussion with interested stakeholders before FDA finalizes the draft guidance.

Transcripts: Please be advised that as soon as a transcript is available it will be accessible at <http://www.regulations.gov>. It may be viewed at the Division of Dockets Management (see *Comments*). A transcript will also be available in either hardcopy or on CD-ROM, after submission of a Freedom of Information request. Written requests are to be sent to the Division of Freedom of Information (ELEM-1029), Food and Drug Administration, 12420 Parklawn Dr., Element Bldg., Rockville, MD 20857.

Dated: October 3, 2011.
