#### **Stainless Steel Bar From India: Extension of Time Limit for the Preliminary Results of the 2010-2011 Antidumping Duty Administrative Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**DATES:** *Effective Date:* October 11, 2011.

**FOR FURTHER INFORMATION CONTACT:** Joseph Shuler or Yasmin Nair, AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-1293 and (202) 482-3813, respectively.

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

On March 31, 2011, the Department of Commerce (Department) published in the **Federal Register** its initiation of an administrative review of the antidumping duty order on stainless steel bar from India, covering the period February 1, 2010, through January 31, 2011. *See Initiation of Antidumping Duty Administrative Reviews, Requests for Revocation in Part, and Deferral of Administrative Review*, 76 FR 17825 (March 31, 2011) (*Initiation Notice*). The preliminary results for this review are currently due no later than October 31, 2011.

#### **Extension of Time Limit for the Preliminary Results of Review**

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue its preliminary results in an administrative review of an antidumping duty order within 245 days after the last day of the anniversary month of the order for which the administrative review was requested. However, if the Department determines that it is not practicable to complete the review within the aforementioned specified time limits, section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2) allow the Department to extend the time limit for the preliminary results to a maximum of 365 days after the last day of the anniversary month. *See* section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

The Department has determined that it requires additional time to complete the preliminary results for this review. After publishing the *Initiation Notice*, the Department sent a questionnaire response to Mukand, Ltd., a respondent in the instant review. We received responses to our questionnaire on May 18 and May 31, 2011, but we need additional time to issue supplemental questionnaires based on the responses we received. Further, the Department needs to allow time for parties to review and respond to our supplemental questionnaires. Thus, it is not practicable to complete the preliminary results by October 31, 2011, and the Department is extending the time limit for completion of the final results by an additional 90 days to January 29, 2012. However, January 29, 2012, falls on a Sunday and it is the Department's long-standing practice to issue a determination the next business day when the statutory deadline falls on a weekend, federal holiday, or any other day when the Department is closed. *See Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005). Accordingly, the deadline for completion of the preliminary results is now no later than January 30, 2012.

This notice is published pursuant to sections 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

Dated: October 4, 2011.

**Christian Marsh,**

*Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.*

### International Trade Administration

[A-570-900]

#### **Diamond Sawblades and Parts Thereof From the People's Republic of China: Extension of Time Limit for Final Results of the Antidumping Duty Changed Circumstances Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**DATES:** *Effective Date:* October 11, 2011.

**FOR FURTHER INFORMATION CONTACT:** Alan Ray, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-5403.

#### **Background**

On June 30, 2011, the Department of Commerce ("Department") published in the **Federal Register** the *Preliminary Results* of the antidumping duty changed circumstances review of the antidumping duty order on diamond sawblades and parts thereof from the People's Republic of China. *See Diamond Sawblades and Parts Thereof From the People's Republic of China: Preliminary Results and Preliminary Intent To Terminate, in Part, Antidumping Duty Changed Circumstances Review and Extension of Time Limit for Final Results*, 76 FR 38357 (June 30, 2011) ("*Preliminary Results*"). Subsequent to the publication of the *Preliminary Results*, the Department received affirmative and rebuttal comments. On July 25, 2011, the Department held a hearing in which interested parties presented arguments from their affirmative and rebuttal comments. On August 15, 2011, the Department published a notice in the **Federal Register** that extended the time limit to issue the final results by 30 days, extending the deadline to September 19, 2011. *See Diamond Sawblades and Parts Thereof From the People's Republic of China: Extension of Time Limit for Final Results of the Antidumping Duty Changed Circumstances Review*, 76 FR 50455 (August 15, 2011). On September 23, 2011, the Department published a notice in the **Federal Register** that extended the time limit to issue the final results by an additional 15 days, making the current deadline to issue the final results October 4, 2011. *See Diamond Sawblades and Parts Thereof From the People's Republic of China: Extension of Time Limit for Final Results of the*

*Antidumping Duty Changed Circumstances Review*, 76 FR 59111 (September 23, 2011).

*Extension of Time Limit for the Final Results*

The Department finds that it is not practicable to complete this review by the current deadline. The Department has determined that it requires additional time to analyze the case and rebuttal briefs submitted by interested parties. Consequently, in accordance with 19 CFR 351.302(b), the Department is extending the time period for issuing the final results in this review by an additional 15 days. Therefore, the final results will be due no later than October 19, 2011.

We are issuing and publishing this notice in accordance with sections 751(b) and 777(i) of the Tariff Act of 1930, as amended.

Dated: October 3, 2011.

**Christian Marsh,**

*Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.*

**Certain Large Diameter Carbon and Alloy Seamless Standard, Line and Pressure Pipe From Japan; Certain Small Diameter Carbon and Alloy Seamless Standard, Line and Pressure Pipe From Japan and Romania: Continuation of Antidumping Duty Orders**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**DATES:** *Effective Date:* October 11, 2011.

**SUMMARY:** As a result of the determinations by the Department of Commerce ("Department") and the International Trade Commission ("ITC") that revocation of the antidumping duty orders on certain large diameter carbon and alloy seamless standard, line and pressure pipe ("large diameter pipe") from Japan and certain small diameter carbon and alloy seamless standard, line and pressure pipe ("small diameter pipe") from Japan and Romania would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, the Department is publishing a notice of continuation of the antidumping duty orders.

**FOR FURTHER INFORMATION CONTACT:** Mary Kolberg, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; *telephone:* (202) 482-1785.

**SUPPLEMENTARY INFORMATION:** On April 1, 2011, the Department published in the **Federal Register** the notice of initiation of the second sunset reviews of the antidumping duty orders on large diameter pipe from Japan and small diameter pipe from Japan and Romania, pursuant to section 751(c)(2) of the Tariff Act of 1930, as amended ("the Act"). See *Initiation of Five-Year ("Sunset") Review*, 76 FR 18163 (April 1, 2011).

As a result of its review, the Department determined that revocation of the antidumping duty orders on large diameter pipe from Japan and small diameter pipe from Japan and Romania would likely lead to a continuation or recurrence of dumping and, therefore, notified the ITC of the magnitude of the margins likely to prevail should the order be revoked. See *Certain Large Diameter Carbon and Alloy Seamless Standard, Line and Pressure Pipe From Japan; Certain Small Diameter Carbon and Alloy Seamless Standard, Line and Pressure Pipe From Japan and Romania: Final Results of the Expedited Second Five-Year Sunset Reviews of the Antidumping Duty Orders*, 76 FR 47555 (August 5, 2011).

On September 28, 2011, the ITC determined, pursuant to section 751(c)(1) of the Act, that revocation of the antidumping duty orders on large diameter pipe from Japan and small diameter pipe from Japan and Romania would likely lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time. See *Carbon and Alloy Seamless Standard, Line, and Pressure Pipe From Japan and Romania*, 76 FR 60083 (September 28, 2011), and *USITC Publication 4262* (September 2011), *Carbon and Alloy Seamless Standard, Line, and Pressure Pipe from Japan and Romania*, Investigation Nos. 731-TA-847 and 849 (Second Review).

**Scope of the Orders**

*Large Diameter Pipe From Japan*

The products covered by this order are large diameter seamless carbon and alloy (other than stainless) steel standard, line, and pressure pipes produced, or equivalent, to the American Society for Testing and Materials ("ASTM") A-53, ASTM A-106, ASTM A-333, ASTM A-334, ASTM A-589, ASTM A-795, and the

American Petroleum Institute ("API") 5L specifications and meeting the physical parameters described below, regardless of application. The scope of this order also includes all other products used in standard, line, or pressure pipe applications and meeting the physical parameters described below, regardless of specification, with the exception of the exclusions discussed below. Specifically included within the scope of this order are seamless pipes greater than 4.5 inches (114.3 mm) up to and including 16 inches (406.4 mm) in outside diameter, regardless of wall-thickness, manufacturing process (hot finished or cold-drawn), end finish (plain end, beveled end, upset end, threaded, or threaded and coupled), or surface finish.

The seamless pipes subject to this order are currently classifiable under the subheadings 7304.10.10.30, 7304.10.10.45, 7304.10.10.60, 7304.10.50.50, 7304.19.10.30, 7304.19.10.45, 7304.19.10.60, 7304.19.50.50, 7304.31.60.10, 7304.31.60.50, 7304.39.00.04, 7304.39.00.06, 7304.39.00.08, 7304.39.00.36, 7304.39.00.40, 7304.39.00.44, 7304.39.00.48, 7304.39.00.52, 7304.39.00.56, 7304.39.00.62, 7304.39.00.68, 7304.39.00.72, 7304.51.50.15, 7304.51.50.45, 7304.51.50.60, 7304.59.20.30, 7304.59.20.55, 7304.59.20.60, 7304.59.20.70, 7304.59.60.00, 7304.59.80.30, 7304.59.80.35, 7304.59.80.40, 7304.59.80.45, 7304.59.80.50, 7304.59.80.55, 7304.59.80.60, 7304.59.80.65, and 7304.59.80.70 of the Harmonized Tariff Schedule of the United States ("HTSUS").

Specifications, Characteristics, and Uses: Large diameter seamless pipe is used primarily for line applications such as oil, gas, or water pipeline, or utility distribution systems. Seamless pressure pipes are intended for the conveyance of water, steam, petrochemicals, chemicals, oil products, natural gas and other liquids and gasses in industrial piping systems. They may carry these substances at elevated pressures and temperatures and may be subject to the application of external heat. Seamless carbon steel pressure pipe meeting the ASTM A-106 standard may be used in temperatures of up to 1000 degrees Fahrenheit, at various American Society of Mechanical Engineers ("ASME") code stress levels. Alloy pipes made to ASTM A-335 standard must be used if temperatures and stress levels exceed those allowed for ASTM A-106. Seamless pressure pipes sold in the United States are commonly produced to the ASTM A-
